Teachers in Philippines Are Not Proselytizing.

REPLY TO RECENT CHARGES

Acting Superintendent of Public Instruction Bowen's Report-Sectary ianism in Schools of the

Islands.

WASHINGTON, Aug. 21.-The Bureau of Insular Affairs of the War Department has made public the report of Frank H. Bowen, Acting Superintendent of Public Instruction for the Philippine Islands, up on charges made in the United States against the school system of the islands, alleging that it was used as a proselytizing agency against Catholics, and generally used to the prejudice of Catholicism. The charges were forwarded to Manila, and the reply was made to Acting Governor Wright. The report of Superintendent Bowen is dated July 7, and is a general and specific denial of the charges.

He says that of 20 persons who have been division superintendents, only one has ever been a clergyman. Three division superintendents were appointed from a list submitted by leaders of the Roman Catholic church in the United States. In this connection the report says: "The question of the religious belief of

applicants and appointments was never considered until late in 1990. At that time a special list of applications, gathered by the authorities of the Roman Catholic church in the United States, was sent to the civil government of the island, and transmitted to the geu-eral superintendent. From these spe-cial lists three division superintendents and Z teachers were appointed. In reporting these appointments to the civil government, the general superintendent stated: 'I have had much difficulty in finding people in this lot of applicati inding people in this lot of applications who are possessed of the educational preparation and teaching experiences which is required of other appointees in this department. These who have not been selected seem to be wholly unsult-

The only departure from strict nonse tarianism in the conduct of the schools was a provision of the Philippine Com-mission, which made it lawful for a priest or minister of any established church in a puebla where a public school is connect-ed to teach religion for one-half hour three times a week in the school building to pupils whose parents have expressed a wish for such instruction. Concerning proselytizing, the report says:

"Not only is no proselytizing allowed or attempted in any of the public schools, but inquiry of the leaders of the four principal Protestant denominations here brings out the fact that, so far as is known by these leaders, there is not one native Protestant Sunday school teacher in the entire archipelago. The statements that not one-third of the Protestant teachers ever taught a day before going to the Philippines and that Catholic teachers are sent to the distant provinces

are emphatically denied." The assertion is made that the educational department has no knowledge of the distribution of Bibles in a private church school by missionaries. It is also stated that the conditions of the public schools in the Philippines do not warrant the statement that they are worse in the island, as viewed from a Catholic standpoint, than in the United States. The re-

ort closed with the following: "The venomous attack on the Philippine Commission, especially the Filipino mem-bers thereof, who are termed traitors and rascals, serves to show the degree of bitterness and recklessness which character-izes the whole article. The negotiations at present under way in Rome in regard to the church lands in these islands is

"The immediate need in dealing with trusts is to place them under the real, not nominal, control of some sovereign, to which, as its creature, the trusts shall owe alieglance, and in whose courts the sovereign's orders may with certainty be enforced. In my judgment this sovereign must be the National Government. When

it has been given full power, then this full power can be used to control any evil influence, exactly as the Government is now using the power conferred upon it under the Sherman anti-trust law. Even when the full power has been conferred, it would be highly undesirable to attempt too much, or to begin by stringent legislation. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-

SWIFT JUSTICE FOR THEM

Robbers in Prison in Less Than Week After Capture.

WALLA WALLA, Wash., Aug. 23 .- One chapter of the manhunt in this section o two states came to an end late this after noon, when Jack Ryan and George Me Donald, the criminals who held up and beat a Swede laborer nearly to death at Touchet Station, a week ago, and were chased through two counties by blood-hounds until captured near Athena, Or., were arraigned in the Superior Court on the charge of highway robbery, pleaded guilty and were sentenced to five years each in the Washington State Penitentiary. Judge Chadwick, who came down from Colfax to hold court, passed sentence, and tonight both men are behind the bars of the State Penitentiary, Neither changed lor when the term of imprisonn announced. The penalty dealt out by the court was one-balf the maximum.

Yesterday both men were taken into the Justice Court and confronted by the man whom they had robbed. As was expected McDonald admitted his guilt and signi-fied his willingness to go before the Superfor Court and enter a plea of guilty. Ryan, the sullen one, glowered at the Judge all the time the evidence was being taken, and when the case was all in, made the sensational announcement that he "guessed it was up to him and he would pass." Judge Brents being absent, Judge Chadwick was telegraphed for, and arrived from Colfax on the late afternoon train.

Thoroughly General Reception Ten dered the President.

PROVIDENCE, R. I., Aug. 23 .- Not sin the visit here of President Hayes, 20 years ago, has a Chief Executive been accorded a more thoroughly general reception than that tendered here to President Roosevelt. The Presidential train arrived at 11:40, and, Probably the most seriou after the firing of the Presidential salute and a formal welcome, the party, which was joined by Senator Aldrich and others, proceeded to the Statehouse, Governor Kimball was in waiting in the

reception-room of the executive offices with members of the general and personal staffs, when President Roosevelt, escort-ed by Brigadier-General Tanner, entered the building. After a few moments had been constimed in presenting the officers. luncheon was served and the party then proceeded to the beautiful reception-room, porations containing some tendency to monopoly, which we have grown to speak of rather loosely as trusts, are the creawhere the Lleutenant-Governor, members tures of the state, and the state not only has the right to control them, but is in of the General Assembly, general officers of the state, Justices of the Court and duty bound to control them wherever the other persons of note were in waiting. need for such control is shown. Ther is clearly a need of supervision-need to At 12:15 the procession through the city began. The residential and business secexercise the power of regulation on the tions of the city were gaily decorated with part of the representatives of the public wherever, as in our country at the pres flags and bunting, and for the greater part of the way there were two solid lines of people, who had come from every por-tion of the state to welcome the Presi-dent. Flags were waved, hats dolled and enthusinstic cheers were given. On arriv-ing at the City Hall the Presidential party

was escorted to an immense elevated plat-form in front of the building. When the President appeared to make his speech he was greeted by a great demonstration, in which 17,000 volces joined. The President's departure brought another outburst from the browd, so that the strains of "The Star-Spangied Banner" were scarcely audible for some moments.

Poor Outlook for Hatchery.

OREGON CITY, Aug. 21-(Special.)-Deputy Fish Warden Herman A. Webster returned this morning from a trip to the state hatchery on the north fork of the Umpqua River, 50 miles east of Roseburg. He states that the indications are not favorable for taking a great amount of mimon for propagation, as the racks were not placed in the river until June and a large number of fish have gone up the river. The North Umpqua is a much rougher stream than the Clackamas to
