soning chickens and a cow belonging to Mrs. Caroline Schmidt. A great many witnesses were examined, and the diffi-culty between the Gundersons and Schmidts appears to have been caused by a family quarrel, which began about three months ago. Two hundred chickens took sick, but they have since recovered. The cow has died from eating poleonous stuff mixed with her food. The two Gundersons denied they had given poleon to the animals, but the Judge placed them under ball to appear before the grand force.

HELP REDUCE THE PRICE OF GAS.-While fuel of every other kind is advancwhile fuel of every other kind is advancing, we are making a cut in the price of coke. We now deliver coke at \$5 per 2000 pounds. You must have fuel; we offer the best at a moderate price. The increased output of gas means an increased supply of coke, and if the latter is marketed at a fair price it tends to decrease the expense of manufacturing gas. ### MAKE YOUR HOME BEAUTI-FUL.

There are many, very many, people now who are able to add to the adornment or convenience of their homes. We surmised the present great demand for beau-tiful home-life accessories in the way of mantels, gas and electric fixtures, etc., and we accordingly had the leading facto-ries manufacture for us special designs in each of our lines. Regular stock fixtures that look cheap or can often be seen du-plicated were not acceptable. Our cus-tomers want something more artistic and unique. We handle such quantities that we are able to have the manufacturer include the material and workmanship of high-grade goods in these special designs that we sell you at prices elsewhere demanded for ordinary stock articles. The factories have responded nobly to our orders this year, and we take the greatest pleasure in showing our collection of artistic creations to all who will call. There is nothing on this Coast superior to our offerings-appealing forcibly to the intelli-gent, the refined, the people of good taste. Householders and builders should certainly examine our exquisite goods when they are making their selections. The John Barrett Company, Sixth and Aider. Es-tablished 1867.
