Ladies' Suit Dept.

It requires a visit to this department to adequately realize the extensiveness and thoroughness with which it has been stocked with Fall and Winter goods. Every line is full of the most desirable and newest goods.

Our suit buyer has just returned from a lengthy stay in New York, where she has carefully informed herself upon all the latest fashions and fads, and is prepared to show what is newest and best in women's, misses' and children's ready-made garments, both in make and materials, including the very highest novelties consistent with good form.

The newness, the beauty, the elegance, the style, the excellent quality, the variety and above all, the exceeding reasonableness of prices of the Fall goods we are showing, make up a carnival that is a delight in itself.

Visitors to the Carnival will take delight in looking over our goods and they are invited to visit our store early and often. Parcels may be left at our accommodation department and information concerning points of interest in the city, street-car lines, etc., will be cheerfully furnished here.

When you leave town, bear in mind that our large mail order department is ever on the alert to fill orders to the satisfaction of customers and that mail orders are invariably filled the day they are received.

Our store is already full to overflowing of Fall goods, of the very best and latest that the markets offer, and each day brings forth new beauties and attractive styles as later arrivals are unpacked.

Velvet Garments That velvet, both for dresses and jackets, will be the very swiftest thing for Fall and Winter, is an accepted fact. Gems of Milliner's Art.
We have just returned from an extended visit to New York and other fashion centers, made in the interest of our customers, for the purpose of selecting our Fall millinery stock. The goods are here and now on exhibition at our store, corner of Washington and West Park streets. It will be a pleasure for us, and we think we can state, without being overconfident, a treat for you, to call and examine at your leisure these gems of the milliner's art. Every millinery designer of note in both the Old and New world is represented in this collection, and each creation possesses some distinctive feature that will appeal to people of refined taste. The improved condition of trade has tempted us to make unusually large purchases for the Fall season and we feel assured that our confidence has been misplaced, as the constantly increasing patronage accorded us is the best indication that the people of Portland endorse our taste and approve our business methods. Call whether you wish to purchase or not, as it is our earnest wish to have every lady in Portland examine our pattern hats, which we can truly state have never been equalled in any similar exhibit in this city. Heifers.
