

A BIG LABOR DAY

Programme for Monday's Celebration Announced.

UNIONS IN PARADE FOR BANNER

All the City Organizations Will Be in Line—Afternoon Will Be Devoted to Sports—Ball in the Evening.

The entire programme for the Labor day celebration was completed yesterday evening and Monday will be given up to the parade, sports and grand ball. Much interest is being centered in the parade, as a handsome banner will be awarded to the organization that makes the best showing. The Federated Trades Council and the Oregon State Federation of Labor have appointed the following committee to lead the parade and award the prize: Rev. H. A. Barden, Dr. Norris R. Cox and Attorney George M. Hixon.

At the sound of three taps of the fire bell, 10:30 A. M., the order will be given to move, and all organizations intending to participate in the parade must be in readiness at that hour.

Line of March.
From West Park and Taylor streets to Third, to First, to Fourth, to Yamhill, to Sixth, to Eleventh, counter-march on Sixth to Yamhill, to Tenth, where the prize banner will be awarded by the judges, and the union winning the same will be escorted to its headquarters by the grand marshal and his aids.

FUNERAL OF MRS. NICKUM

Aged and Respected Pioneer of 1853 Is Laid to Rest.

The funeral of Mrs. Susannah Nickum, widow of John L. Nickum, pioneer of 1853, and mother of J. M. Nickum, a well-known Portland vintner, was held yesterday forenoon from the home of her son at Williamsburg. There was a large attendance of friends. Rev. W. S. Wright, of the Seaside Presbyterian church, conducted the services, at the conclusion of which the interment took place in Lone Fir Cemetery.

Mrs. Nickum was a woman possessing all the characteristics of the pioneers of Oregon. She was born in Mercer County, Pennsylvania, November 22, 1829, and was married to John L. Nickum in 1844, in Indiana. They moved to Iowa, where they lived until they started for Oregon in 1853. While in Iowa Mrs. Nickum was an active nurse during the prevalence of the cholera plague. She nursed many patients through the critical period, and did all in her power to aid the many families that were stricken with the disease.

She and her husband crossed the plains to Oregon in 1853, being six months on the way. They settled back of Oregon City and lived on bran-bread and potatoes. In 1854 they moved to Portland, where they lived till the Spring of 1855, when they moved to Washington County, near Cedar Mills, where they remained till 1861. While living there, occurred the Indian scare of 1855, when all the neighbors moved away. Mrs. Nickum remained alone, her husband being away at work. She remained calm and determined, not knowing when the savages would swoop down on her home. She and her husband moved to Portland in 1861. Mr. Nickum died 12 years ago. She followed nursing until she became incapacitated by rheumatism. When she was so badly crippled with rheumatism that she could only get about on crutches, she made the long journey East on a visit to all her brothers and sisters living in various parts of Iowa and Wisconsin, and returned to Oregon after several months' absence. The comment was made in The Oregonian at the time that her journey was remarkable for one of her age. Some time after her trip she fell on the floor at the home of her son at Williamsburg in such a manner as to fracture her thigh bone, since which she remained calm and determined, not knowing when the savages would swoop down on her home. TO ATTEND ENCAMPMENT.

Grand Army and Woman's Relief Corps Will Send Delegates.

The 36th National encampment, Grand Army of the Republic, and the 26th National convention, Woman's Relief Corps, auxiliary to the Grand Army, will be held at Washington, D. C., during the week commencing October 6. Headquarters for the Department of Oregon, for both G. A. R. and W. R. C., will be in rooms 19 and 20, Raleigh building, 612 F street, N. W., where a cordial welcome will be given to all visiting members of both orders, of all other patriotic orders and to their friends and acquaintances.

Oregon will be fully represented in both orders. Of those entitled to seats and votes in the encampment and convention the following have signified their intention to be present: Past Department Commander G. E. Caulkin, Portland; delegates, E. E. Covey, Portland; John Ingram, Eugene; Samuel Elmore, Astoria. Alternate, S. C. Blythe, Hood River; council, B. F. Pike, Moro; Past Department Commander D. C. Sherman and Alternates Orville Dodge and T. M. Herman are living in Washington, and will, of course, be in attendance.

The Woman's Relief Corps will be represented by Department President Mrs. Julia A. Lawton and Delegate Mrs. Bertie M. Smith, of Portland; Mrs. Mandana Thorpe, Corvallis; Mrs. Anna Baker, La Grande; Alternate Mrs. Lucy Francisco, Corvallis. The low round-trip rate of \$7.35 from Northwest Coast points and the general prosperity of the times will enable many other Oregon comrades to visit the National Capital at this time, and around the campfires greet their comrades of the olden time. All such will be cordially welcomed at headquarters and invited to follow the Oregon banner. In the grand parade and review October 8. The business sessions will be held on Thursday and Friday, October 9 and 10, closing on the latter date.

WALLA WALLA THRIVES

MAYOR GILBERT HUNT DESCRIBES THE FAMOUS VALLEY.

A World in Itself, It Produces Almost Everything Needed in That Section.

"The richest and most prosperous country in the world," is the way Gilbert Hunt, the popular Mayor of Walla Walla, describes the Walla Walla Valley. Mr. Hunt is not given to extravagance in description, and it was with hesitation that he talked at all of the country with which he has been so intimately connected for the past 20 years. He came down from Walla Walla yesterday morning, and is on the way to Seattle, where he will spend a few days with his wife and daughter. He is the proprietor of the large agricultural manufacturing plant at Walla Walla, and in his business relations with the farmers becomes familiar with their condition. In answer to inquiries, when seen at the Imperial Hotel yesterday, he said:

"The Walla Walla Valley, as you know, is a great wheat-producing country, and has depended almost entirely upon that crop as its source of income. The land has been cropped to wheat for the last 20 years, and is producing better crops now than it did at the beginning. In that respect the soil differs from that of the Willamette Valley, which, underlain, has lost its wheat-producing qualities. We may sometime find it necessary to rotate our crops, but I see no indication of it yet. Farmers here are making money in that source of income. They will make lots of it this year. Comparatively few of them are in debt, and nearly all of these will pay out this year, while most of them will have good bank accounts to their credit. When you learn that there are three banks in Walla Walla, and that they have deposits aggregating \$5,000,000, most of which belongs to farmers, you can have some idea of what has been done in that section in the way of money-making.

"Many farmers who have become independently rich have sold their farms and moved to town to live. That, to a great extent, has made Walla Walla a home town. Whitman College and the public schools supply all the needed educational advantages, and people have no desire to go elsewhere. Walla Walla is a home town, and we don't spend much money on the outside. Walla Walla is in the center of that great wheat-producing area, and has exclusive control of the trade of the territory that covers 50 miles of it. No other town in the two states has back of it so large and productive an agricultural country.

"As is the case in all prosperous agricultural regions, the farmers are showing more intelligence in their methods. While not abandoning wheatraising, they are diversifying by raising more livestock and fruit. They are taking particular pains to improve the quality of their stock. By introducing the best thoroughbred animals for breeding purposes. A number of fine blooded horses, cattle, sheep and hogs have been brought into that country in the past year, and when the initial expense seems large, the farmers generally believe that it will pay in the end. Greater care is being taken in the selection of fruit trees, and a view to planting those varieties which always have a demand in the market, and secure the best price. Orchards are being well cared for, and all are sprayed to protect them from pests.

"The tendency toward the raising of more livestock is indicated by the fact that three carloads of alfalfa seed were taken into Walla Walla last season. We will not only raise more cattle, sheep and hogs, but we will put them up in the best shape for market. Local capitalists have established a meat-packing plant at Walla Walla, and expect to handle 500 hogs this season. They have half of that number already, and will get the remainder in due time. The new proprietors of the Blalock orchard are putting in a jelly-manufacturing plant, and soon we are to have in operation a cider vinegar factory that can supply the demands of all Oregon and Washington. By selling the products in the manufactured form, we keep at home the additional price received.

"The general prosperous condition of the farmers is everywhere evident. They are building new houses and barns; they ride to town in carriages, and all live better, buildings and fences present a well-kept appearance. The wheat crop this year is larger than ever before, and as the price will be good, money will be plentiful."

Lawn Social at Milwaukee.

A lawn social was given by Mrs. William Knight at her home near Milwaukee Thursday evening to friends from Portland and Seattle. The grounds were beautifully illuminated with Chinese lanterns of great variety of color, distributed among the trees and along the banks of the Willamette River. A large bonfire was kindled around which the guests were seated. The early part of the evening was spent in music in the open air, and at 9:30 Mrs. Knight invited her guests into the house, where a bountiful repast was served.
