

### GOOD WORK FOR THE SICK

VISITING NURSE ASSOCIATION BELIEVES MUCH DISTRESS.

### But It Needs Funds to Carry on Its Labors—What Has Been Done.

Since its organization in April the Visiting Nurse Association of Portland has been quietly working and helping, and has demonstrated to its friends and supporters the urgent need for its existence.

At a meeting of the Board of Directors held at the residence of Mrs. H. L. Corbett on September 11, the following report was given of cases visited:

One consumption, one pneumonia, one bronchitis, one blood poisoning, three miscarriages, one spinal meningitis, one inflammatory rheumatism, one cancer, one complication, one confinement, one marial fever, one dropsy of the heart, one gall stones, one rheumatic fever, two character not reported when report was written, with a total of 175 visits made.

In a majority of the cases, the patients were seriously ill and required many visits, while some needed only the comforting attentions of the nurse, or needed only to give the weary mother or sister or the ever sympathetic neighbor the opportunity for much-needed rest.

Only those who are familiar with the conditions in the homes of those who cannot afford a trained nurse can form any idea of the great relief which is brought to the suffering ones by the nurse.

To the little girl brought to death's door by pneumonia, and to the cancer patient, whose last hours of intense suffering were made easier to bear by her presence, the nurse has indeed been an angel of mercy.

In one home where it was necessary to observe a certain measure of quarantine, she remained on duty four days and five nights, giving the same conscientious care that she would have given had her patient been a private charge and she had her full salary.

Through the intervention of the Independent Order of B'nai B'rith, of New York, which gave bond that none of them should become paupers, 30 Roumanian Jews were sent to Portland. Every one of them is earning a good living, some as tailors, others as tinmiths, cooper-smiths, woodcarvers and cabinetmakers.

Another man did so well that he sent for his family and came to Portland, and in 18 months did so well that he returned well within a few months after their arrival.

### KILLING OFF THE RABBITS

Umatilla County Will Keep Up Its Annual Drives of Bunnies.

"We have had a couple of rabbit drives in Umatilla County during the last winter," said L. B. Reeder, of Pendleton, at the Perkins yesterday. "but there is material for several more in order to keep down the pests. They are mostly in the sagebrush country in the southwestern part of the county, and do not trouble the wheat country much. They do the worst damage in winter, when the snow prevents them from finding food in the open country. Then they go for the farms and orchards along the Umatilla River and Butter Creek and strip the trees of bark and destroy vegetation."

"The drives in the winter at least serve the purpose of keeping them down by killing off a number before the natural increase in the spring."

### Current Is to the North.

PORTLAND, Sept. 19.—(To the Editor.)—I notice a letter in your edition of this date from ex-Senator Corbett in which the statement is made that the prevailing current at the mouth of the Columbia River is from the north, which I am positive is not the case, as my experience with the buoys on the Columbia River bar has been that, after the breaking drift, they invariably come ashore either on North beach or, in many instances, the beach between Willapa Bay and Gray's Harbor. In one instance that I recall the "outer buoy" of the Columbia River, with sinker and chain weighing some four or five tons, was carried many miles up

termination of drill will be the same as heretofore published.

After the conclusion of the inspection and ceremonies on Wednesday the large drillroom on the second floor of the main Army building will be open to the members of the regiment and their friends for dancing. Company F will take charge of the floor on this occasion, and give such directions as will best promote the pleasure and entertainment of the regiment's guests. Admission to the Army will be by ticket only; tickets may now be obtained for gratuitous distribution by officers and enlisted men of the regiment from the regimental Quartermaster and company commanders.

Details for the guard are as follows: Officer of the guard, First Lieutenant W. L. Gould; Company B, 1 Corporal, 2 privates; Company C, 3 privates; Company D, 1 Sergeant and 2 privates; Company E, 3 privates; Company F, 3 privates; Company G, 2 privates. Details will report to the officer of the guard in front of the Board of Officers' room at 7:15 P. M. The commanding officers of companies will send the names of the men detailed for this duty to headquarters on Monday, September 22, before 9 P. M.

Rifle practice, which was discontinued on account of the smoke, will be resumed today at the range back of the City Park.

### ALL BECOME GOOD CITIZENS

Roumanian Jews in Portland Are Industrious and Prosperous.

The record made by the Roumanian Jews who settled in Portland after being driven from their own country does not exactly agree with the description of their class by Secretary of State John Hay as undesirable immigrants, for they have all proved industrious, thrifty citizens.

Through the intervention of the Independent Order of B'nai B'rith, of New York, which gave bond that none of them should become paupers, 30 Roumanian Jews were sent to Portland. Every one of them is earning a good living, some as tailors, others as tinmiths, cooper-smiths, woodcarvers and cabinetmakers.

Another man did so well that he sent for his family and came to Portland, and in 18 months did so well that he returned well within a few months after their arrival.

## Why Do You Neglect Your Teeth?

You can never have another set, and by attending promptly to every defect, you save money and protect your health. It is little short of being criminal to allow good teeth to decay that, at a small expense and without suffering the slightest pain, can be made to perform all of the functions imposed by nature. Bad teeth means bad health, bad breath, an unsightly appearance. Teeth attract more attention than any other feature in the face.

### Painless Dentistry

Now that it is generally understood that we are able to perform all kinds of dental work without inflicting the slightest pain, it is surprising the number of people who call to have work done who had for years neglected their teeth, owing to the fear so prevalent amongst all classes of the old-fashioned dentist. The people want up-to-date, progressive work, and we supply the want. Ask any of our patients.

### Crown and Bridge Work

While painless dentistry has made our name a household word in Portland, we have made the same advance in crown and bridge work. These are the most exacting lines in the dental profession, and the most scientific dentist will perform the most satisfactory work, provided he has all of the latest appliances. That we have the skill, our rivals have never disputed, and that we have all modern appliances, you can see for yourself.

### TO INSPECT REGIMENT.

Colonel Everett Issues Orders for Assembly on Wednesday.

Colonel Everett has issued orders for the inspection and muster of the Third Regiment at the Armory on Wednesday, September 24, 1902. Companies B, C, D, E, F and G and the hospital detachment will report in fatigue uniform. Assembly will be at 8:35 o'clock; field and staff officers will report to the Colonel, and non-commissioned staff, band and field music to the Adjutant.

Company A, of Oregon City, will assemble in its Armory there on Monday, September 22, 1902, at 8:30 P. M., in fatigue uniform, and will be inspected by Major G. C. von Egloffstein, who will proceed from Portland to Oregon City in time to arrive there at the hour designated.

Muster-rolls showing all changes since last quarterly returns, made up to and including September 20, 1902, will be prepared in duplicate and handed to the mustering officer at the time of muster. Property and financial returns to the same date will be forwarded direct to the proper chief of department in time to be received not later than October 3, 1902. Weekly drills by companies will be regularly resumed on and after Monday, September 22; the time of commencement and
