BEARS BROKE AWAY

for President.

GAVE ALL A MERRY CHASE

One of the Two Beasts Started Was a 00-Pounder-Rest Today and Feast on Ment Slain Friday.

SMEDES, Miss., Nov. 15 .- No fresh bear skin had been hung up today at the camp on the Little Sunflower up to 4:30 this afternoon. At that hour, the President, Mr. Mclihenny and Hoke Collier were still out in pursuit of a bear started early in the morning, but the remainder of the party had abandoned the chase and 20 of the 25 dogs had straggled back to camp, completely tuckered out. The President had hard luck today. Twice he marrowly missed a chance for a shot.

The puck split almost immediately after leaving this morning. Hoke Coilier, with

half the hounds, followed the trail of one bear down the river and nothing has been heard of him at 4 o'clock. The other hear went in the opposite direction and gave the President, the other members of the party and the other half of the of the party and the other half of the pack of dogs a merry chase. He was a big fellow and kept well ahead of the dogs. He was cut off several times and threshed up and down the brush over an area of about four square miles. Once Mr. Dickinson and Major Heim came Mr. Dickinson and Major neim came-close by but they did not get a glimpse of him. At one stage Mr. Foote, who was with the President, heard the dogs quartering through the woods about them and by hard riding he and the President managed to reach a cut-off ahead of the pack. They waited and Mr. Foote felt pack. They waited and an Police let.

certain that the President was at last to have a shot, but they were too late. In about five minutes the dogs swept by in full cry within 30 yards of them, but old bruin had pussed before they got there.

Two hours later the President had another unfortunes experience. The dogs.

other unfortunate experience. The dogs were by this time playing out rapidly, owing to the excessive heat, but five of them had hung on and finally brought the beast to bay in a dense thicket. The Pres-ident and Mr. Foote heard the dops fight-ing him and got within 100 yards of the row on their horses. There they dis-mounted and went in, but the bear evi-dently heard them and, fanning off the dogs, turned and fled before the President got sight of him. The fact that he dis-posed of the dogs so easily indicates that he was a large, strong brute and this was proved later when he went into the identical water hole where the first bear was bayed yesterday.

was tayed yestercay.

Secretary Cortelyou and Dr. Lung, who
were in the thicket close by, heard the
splash, but the animal did not stop and neither of them got up in time for a shot. When they examined the queer footprints where he went in, which measured eight inches across, the experts fig-ured that this indicated that he was very large, probably weighing 460 pounds. Tomorrow there will be no hunt. The

dogs will be rested and the pursuit of bear will be resumed on Monday. The two bears killed yesterday fur-nished meat for camp last night and to-

RECAPTURED TOWN.

Venezuelan Government Successful in Five-Hour Battle.

CARACAS, Venezuela, Nov. 15.-President Castro's First Lieutenant, Leopoldo Baptista, sailed yesterday for Puerto Ca-bello with three warships and a force of 1500 men to reoccupy the town of Caro, situated 203 miles northwest of Caracas, which has been in the possession of the revolutionists. A battle between the rival in the direction of Sabaneta, closely pursued by Baptista's troops.

BRAZIL'S PRESIDENT INAUGURATED Brilliant Festivities in Which Foreign Naval Officers Shared.

RIO DE JANEIRO, Nov. 15.-There were brilliant festivities today in honor of the inauguration of President Dr. Rodriguez Aivez. They included an imposing procession and a ball, at which the officers of the United States battleship Iowa and of the British, Portuguese, French and Argentine warships in these waters were present. On Monday there will be a great festival on board the lows, and President Alvez and his suite empanied by United States Consul-Zeger, will visit the Iowa, where Admiral Sumner, Minister Bryan and Captain Perry will receive. ssition of the Cabinet inspires

vail here and at Colon. Chilean Cabinet Out. SANTIAGO DE CHILE, Nov. 15 .- The Chilean Cabinet has resigned,

Jefferson Davis Monument. NEW ORLEANS, La., Nov. 15.—At to-day's session of the Daughters of the

Confederacy, Mrs. S. T. McCullough, pres-ident of the Jefferson Davis Monument Association, reported there was on hand for the building of a monument \$45,838, of which \$2,000 had been raised by the Daughters in the last three years.

Dogs Couldn't Hold Them MORE PAY FOR OPERATORS Southern Pacific Signs Contract-All

Is Amienble. SAN FRANCISCO, Nov. 15 .- The Southern Pacific today signed a new agree-ment with the telegraphers, train dis-patchers and station agents employed on the Pacific system. An increase in salathe Facilic system. An increase it sais-ries amounting to 10 per cent was agreed upon and salaries were adjusted to suit the increasing business at many impor-tant points. The conference between the railroad officials and the committee rep-resenting the employes was most amica-ble. The Order of Railroad Telegraphers was represented by H. B. Perham, presi-dent, and a general committee.

SALT LAKE-LOS ANGELES.

Conference in San Francisco-Old Narrow-Gauge Abandoned. SALT LAKE, Nov. 16.—Vice-President
Bancroft, General Attorney Williams,
General Superintendent Calvin and Resident Engineer Ashton, of the Oregon
Short Line, left tonight for San Francisco.
It is said they go to San Francisco for
an important conference with Southern
Pacific officials, the exact nature of which
is not known, but is nelleved to concern

is not known, but is believed to concern the Salt Lake & Los Angeles line. The old narrow-gauge road running from Salt Lake to Garfield Beach was today abandoned, and, beginning Monday, a fine new broad-gauge railroad will be operated in its place by the Salt Lake & Los Angeles road. The change in the gauge in the Garfield Beach road, which is 37 miles in length, marks the abolishment of the last narrow-gauge road in

Railroads' Answer to Rearst.

WASHINGTON, Nov. -15.-The freight rates on anthracite coal are declared to be entirely just and equitable in an an-swer which the Pennsylvania Railroad Company filed with the Interstate Com-merce Commission today in response to the complaint of William R. Hearst, of New York, against the anthracite coal-carrying roads. The complaint charged that the rail lines out of the anthracite

Rell Rates May Go Up. SAN FRANCISCO, Nov. 15.—President Ripley and Vice-President Morton, of the Santa Fe Raliroad, have arrived here on their tour of inspection. President Ripley said in an interview that an advance of rates was not unlikely. He anticipated no serious trouble with the company's em-

Vice-President Morton said that the Santa Fe has no plans for new construc-tion work in California, and will probably not undertake to build any branches or feeders or enlarge its mileage in Cali-fornia for some time to come on account of the enermous expenditures which it has been compelled to make and is now making for the improvement of its

Advance to Union Pacific Switchmen. OMAHA, Neb., Nov. 15.—Five humired Union Pacific switchmen were today granted an increase of 12 per cent, which makes the scale the same as that recently adopted in the Chicago yards. The new state extends to the switchmen of

Advance on New York Central. NEW YORK, Nov. 15 .- It became public today that the New York Central Railrond recently has increased the wages of some revolutionists. A battle between the rival forces took place today and lasted five hours, with the result that the government troops captured the town. A body of revolutionists numbering 329 have escaped the road—the increased cost of living, the wish of the management to equalize wages on all parts of the system, and the company's desire to recognize faithful and ef-

> Will Meet Pennsylvania's Increase. PITTSBURG, Pn., Nov. 15.-The Pittsburg & Lake Erie Company will meet the wage advance of the Pennsylvania sys-Announcement to this effect was made this afternoon by Colonel Shoonmaker, vice-president and general man-ager of the road. It has not been determined what increase will be given, nor what class of employes will be affected. Santa Fe to Reduce Time.

TOPEKA, Kan., Nov. 13.-Temorrow, the

new Santa Fe California limited will start on its initial trip from Chicago. The trip to the Pacific Coast will be made in less than three days, which is record-breaking time. Ten new trains have been especially constructed for the service, which will

DUST AND FIRE FELL. Australians Panic-Stricken by Evidences of Volcanic Eruption.

LONDON, Nov. 15 .- According to a cial to the Daily Mail from Sydney, N. S. W., an extraordinary dust storm has been experienced in Victoria and New South Walcs. Darkness enshrouded the City of Melbourne at noon yesterday, and balls of fire fell and set fire to several buildings. The people were thrown into a state of panic, as they thought the world was coming to an end. A similar cloud of red dust hung like a pall over the City of

Dushed to His Death.

While ascending the gangway leading to his ship, the G. W. Wolff, now unload-Freeman, one of the sailors, missed his footing and fell overboard early this morning, and, landing head-first on the ballast logs, he was almost instantly killed. He had been along Third street drinking at various saloons, and the first his shipmates knew of the accident was the cry for help he gave as he fell. They rushed to his assistance, and found him lying on a log and partly in the water. He was carried to the deck of the ship, and Dr. C. H. Wheeler was called, but he stated that the sailor had been dead a few minutes previously. Coroner Finley was notified.

New President for Swarthmore. PHILADELPHIA, Nov. 15 .- In the presence of leading educators from all parts of the country, Dr. Joseph Swain was today fermally installed as president of Swarthmore College.

Remarkable Cure of Dysentery.

Remarkable Cure of Dyaentery.

Mr. J. B. Davis, who resides three miles north of this place, has a son fourteen or offeen years of age, who was taken with dysentery last December, and to our knowledge was treated for four or five months by physicians of splendid reputation. The boy grew worse all the time and got so he could scarcely walk acrossine room. About thirty days ago we sold Mr. Davis a 25-cent hottle of Chamberiain's Colic. Cholera and Diarrhoea Remody on a guarantee. In about a week heame back for a second bottle, and stated that his son was a great deal better than he had been since December. The second bottle has cured him of the trouble entirely.—G. E. Nettles & Co., Putnam, Ala. This remedy is for sale by all druggists.

VLADIVOSTOK SACRIFICED FOR NEW TOWN OF DALNY.

Criticism of the Russian Govern ment's Promotion Schemes-Ocean Port With Mnny Disadvantages.

ST. PETERSBURG, Nov. 2.-Details of Finance Minister Witte's journey to the far East are beginning to agrive here by post. A letter dated October 12 describes his stay at Vladivostok. The principal matter laid before him there was petitions for a free port for ships at Vladivostok, for exemption of all Chinese goods from curtains dated. from customs duties, for commercial and naval schools at Vladivostok, for free-dom of commerce in transit from customs inspection at Vladivostok, and for various minor reforms in the customs inspection in the interests of passenger traf-

It is generally realized here that the abolition of the free port at Vladivostok has dealt a most severe blow at the city's prosperity; nor are voices wanting in the criticism of the scheme of the Minister of Finance in the modern and costly new City of Dalny. The Dalny Vostock of Port Arthur not only throws doubt upon the necessity for fountains and parks in a city which so far has no inhabitants, but pronounces the choice of the site for the new city most unfortunate. Dalny has no natural harbor, lying on the open sea, where the water is shallow. The artifi-cial harbor had to be connected with the sea by a canal two miles long, which it is dangerous to approach in even moderately windy weather on account of the rocks

windy weather on account of the rocks and sand on both sides.

Up to February, 16,500,000 had been spent at Dalny; only half was for the harbor. Work on the harbor had to be stopped half way because the appropriation had been exceeded. The splendid-looking brick and stone houses, however, are believed to be exceedingly inconvenient and cold; the architects having, as is usual with Russian architects, subordinated the interior arrangements for comfort and convenience wholly to supposed exterior

The Dalny Vostock says that Inkou, on the River Line, should have been selected as principal shipping point of the Man-churian Rallway, the Chinese transit trade having taken this route for ages. Dainy that the rail lines out of the anthracite fields are exacting unjust discriminative rates for the transportation of anthracite coal from the Pennsylvania fields to New York, New England, Maryland and the District of Columbia. The Pennsylvania Railroad, the first to answer, makes a general denial of these allegations and asks the commission to dismiss the complaint. the Manchurian market,

The report of the Minister of the Inte-rior on the famine relief of 1901 is considered an important document. M. von Piehewe admits that the central govern-ment did not distinguish itself in this work, which it withdrew from the hands of the Zemstoevs in 1800, many local offi-cials taking action only after the need was very great. The Minister recom-ments a partial return to the old system, declaring that no form of relief is comparable to public works, and that only the Zemstoevs can take such work.

M. Pichewe also admits the "famine of 1991 not only had extremely unfavorable results for the afflicted districts, but testified to the general deterioration of the condition of the peasants."

KRUGER SAVED UITLANDERS. So He Says in His Memoirs-The Last

War. LONDON, Nov. 15 .- The Times publishes this morning another page of extracts from the memoirs of Mr. Kruger, dealing with the history of the Transvani the entire system, and is effective at once. The board of adjustment of the cultway trainmen met President Burt and Super-intendent of Transportation Buckingham today, and an agreement was reached at the first conference. down all the foreign inhabitants of Jo-

> times every night to attend to dispatches, etc. He gives minute details of the re-moval of the Boer government from Pretoria, and cays it was a sad blow to him, especially as his wife was then so old and weak that he could not think of tak-Ing her with him. The extracts pu

The extracts published also include a description of Mr. Kruger's journey to Europe, and the writer declares in matter of the pence negotiations he left everything to the discretion of the Generals.

MONARCHS WERE MATCH-MAKING. Edward and William Discussed New Dynastic Alliance, BERLIN, Nov. 15.—One of the objects

of Emperor William's visit to King Ed-ward was to discuss the betrothal of Crown Prince Frederick William and Princess Alice of Albany, who is a charm-ing girl, 19 years of age. The Duchess of Albany went to England on the imperial yacht Hohenzollern and proceeded to Sandringham with the Emperor, Princess Alice and the Crown Prince are second cousins and are described as mutually sympathetic. She has been Prussianized by having lived in Germany the greater part of the last three years with her mother and has been under the observa-tion from time to time of Emperor William and the Empress.

A dynastic alliance such as this is re-garded on the political side as bringing Great Britain and Germany closer together and would from that standpoint be unpopular in Germany. Princess Alice's brother, the young Prince of Coburg, is a thorough little German. He is now at the military school near Potsdam.

GRAND CANYON, Ariz., Nov. 15,—The Crown Prince of Siam today said he knew nothing of his reported engagement to the daughter of the Emperor of Japan,

Catarrh Invites Consumption

It weakens the delicate lung tissues, deranges the digestive organs, and breaks down the general health.

It often causes headache and dizziness, impairs the taste, smell and hearing, and affects the voice. Being a constitutional disease it re-

quires a constitutional remedy.

Hood's Sarsaparilla Radically and permanently cures catarrh of the nose, throat, stomach,

bowels, and more delicate organs. Read the testimonials. No substitute for Hood's acts like

Hood's. Be sure to get Hood's. "I was troubled with catarrh 20 years. Seeing statements of cures by Hood's Sarsaparilla resolved to try it. Four bottles entirely cured me." WILLIAM SHERMAN,

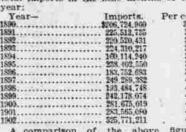

1000 6th St., Milwaukee, Wis. Hood's Sarsaparilla promises to cure and keeps the promise.

Italy Doesn't Countenance Mullah. NEW YORK, Nov. 1.—With reference to rumors that the Mullsh of Somailland, who has risen against the English arms, has made more than one proposal for an alliance with Italy, a Times dispatch from Rome, by way of London, says there is reason to believe that these proposals have been treated in a manner consonant. have been treated in a manner consonant with the straightforward understanding between Italy and Great Britain.

MAKERS' MATERIALS. Gowth of Imports This Year-None More Important.

WASHINGTON, Nov. 15 .- No feature of the foreign commerce of the United States is more interesting or more suggestive than the figures which show the growth than the figures which show the growth in importations of manufacturers' materials. The September report of the Treasury Bureau of Statistics shows that the importations of manufacturers' materials in the nine months ending with September, 1962, were not only larger than in the corresponding period of any preceding year, but formed a larger percentage of the total imports than on any preceding occasion. The total importation of manufacturers' materials in the nine months ending with September, 1962, amounted to \$325,771,271, and formed, 46.39 per cent of the total imports. A comparison of these figures with those for the corresponding period of 1890 show an increase of 60 percent in the importations of manufacturers' materials during that time, the total importation of manufacturers' materials importation of manufacturers' materials in the nine months of 1890 having been \$205,724,960. The share which manufacturers' materials formed of the total imports in 1890 was only 33.03 per cent, as against 46.29 per cent in the corresponding months of 1902.

The table which follows shows the total importations of manufacturers' materials in the nine months ending with September 30 of each year, from 1850 to 1962, and the share which they formed of the total imports in the nine months of each

A comparison of the above figures, showing the importations of manufacturers' materials, with the figures of total imports covering the same period shows that the importation of manufacturers' materials has increased with far greater rapidity than that of other imports. The total imports of all classes of articles in the nine months ending with September. 1990, were \$571,835,287, and in the nine months of 1902, \$702,155,675. Of the total imports in the nine months of 1890, manufacturers' materials amounted to \$206,724,-960, and all other articles, \$365,110,327; in the nine months of 1902 manufacturers materials were \$25.771.211, and all other articles, \$376.384.464. It will be seen from this that the importation of manufacturers' materials increased nearly 60 per cent during the period of 1899-1902, while all

other importations increased only 3 per cent meantime. The following table shows the importations of the principal classes of manu facturers' materials at intervals from facturers' materials at intervals from 1890 to 1992, and illustrates the growth in this class of importations. The item of chemicals includes certain articles not classed as manufacturers' materials, 'though the large proportion of articles under the title of chemicals properly be-long to the classification "manufacturers' materials":

Nine months ending Sentember 20.

down all the foreign inhabitants of Johannesburg.

The ex-President explains that particulars of the course of the war with the British, and of its vicissitudes, would not come within the scope of the memoirs, as he took no personal part in the fight. He describes the harassing life he led at this period, directing and advising the Boer leaders. NEW SLUGGER CASE MOVE Negro Perry Charged With Murder of Agnes McPhee.

BOSTON, Nov. 15 .- A new move was made in the slugger case tonight by the issuance of a warrant charging George L. C. Perry, the negro, with the murder of Agnes McPhee, in Somerville, on the night of October 3, Perry is held at the Cambridge jail for a hearing next. Tuesday on the charges of the murder of Miss Morton, in Waverly, Sheriff Fair-bairn, keeper of the Cambridge jall, is ordered to produce Perry in court in Somerville, Monday morning, for a hear-

At the same time that the warrant was ssued the police placed under arrest, as witnesses against Perry, Ethel Carter, 18 years old, and her cousin Elizabeth Carter, 19 years old. The latter is Perry's sweetheart and the former had in her ossession the chain taken from Miss McPhee's neck. Both girls were found in Cambridge and locked up in Somerville, They refused to talk about the case.

HELD ON EXTORTION CHARGE. Two Men Alleged to Have Worked

Against Improvement Company. NEW YORK, Nov. 15.-Dr. Benjamin T. Whitmore, of this city, and Harry C. Wilson, chief clerk of the Harbor Improvement Board, were today held in bonds of \$2500 each on a charge of at-tempted extortion. It is alleged that the two men, who were arrested yesterday af-ternoon, worked in concert to get \$4500 from the Water Front Improvement Com-pany of Jersey City, which was filling in cribwork on Riker's Island, under con-tract with the New York Street Cleaning Department. George Battle, counsel for the accused men, declared in a statement today that his clients were innocent of any intention to commit crime. They were investigating matters connected with the leaning of Government tugs and dredges for the Riker Island improvement and had fallen into a trap set for them while they were laying a plot for others. others. Whitmore was later admitted to ball

by Magistrate Cornell, and the Magis-trate arranged with an Assistant District, Attorney to accept bonds for Wilson's re-

DENY CANADIAN CHARGE

companied by and incorporated with engi-neer representatives of the British gov-moment, and, in fact, the conditions there ernment, and that whatever monuments were erected were erected for the purpose of making trigononmetrical points located in connection with their triangular work, it being the universal custom of surveyors to leave such marks wherever they ate. They call attention to the fact that their surveyors could do nothing toward asserting the covereignty of the United States, and also to the fact that they were in that country for the purpose of running lines, and not for the purpose of finding boundary lines, that branch of the work ecessarily being left to diplomatic offi-

He attributes this report and others like it to a spirit of retaliation on the part of Canadians for statements of a similar character made on the other elde of the controversy by Americans. Speaking of the story of monuments reported to have en found along the line of the Portland Canal recently by Americans, they say that the piles of stone spoken of were placed there years ago by a nawal or military surveying party sent out under an act of Congress. They were originally small stone houses, used mostly as warchouses, and their existence has been known from the first to the English authorities, who already have made representations to this Government concerning them. The Geo-detic Survey authorities also state that so

THE VALUE OF CHARCOAL.

Few People Know How Useful it Is in Preserving Health and Beauty. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few real-ize its value when taken into the human system for the same cleansing purpose.
Charcoal is a remedy that the mage you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Churcoal sweetens the breath after

smoking, drinking, or after eating onions and other odorous vegetables. Charcoal effectually clears and im-provés the complexion, it whitens the teeth and further acts as a natural and

eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it distinfects the mouth and throat from the poison of catarrh. All druggists sell charcoal in one form another, but probably the best charcoal and the most for the money is in Stuart's Absorbent Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the large, pleasant tacting

charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can be active from their continued use, but on recult from their continued use, but on the contrary, great benefit.

the contrary, great cenent.

A Burdalo physician in speaking of the benefits of charcoal, saye: "I advise Stuart's Absorbent Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and urify the breath, mouth and throat; I also believe the liver is greatly benefited by the dally use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Absorbent Lozenges than in any of the ordinary

Encrosely ment Could Be Made.

Washington Nov. 15.—The officials of the Coast and Gefficial Survey, the Government bureau hasing in charge the surveys made by the Utited States in Alaskn, pronounce as incogrect the report attributed to a Victoria, B. C., newspaper that encroachments have been made by an American surveyor on British territory in the neighborhood of Portland Canai, They say that none of their surveyors has recently been engaged in a survey of the country; that when the American engineers were engaged there they were accompanied by and incorporated with engineers were engaged there they were accompanied by and incorporated with engineers a boundary up to the present in a survey of the soundary as a boundary up to the present conditions and the analysing the went in fact, no attempt has been made to do this in recent years. As far back as 1878 Sec Prefessor Martin's 'Human Body,' or and customs collections in this section of the boundary. A line was drawn between the two highest peaks on a range about 15 miles above the mouth of the Stickeen River, which it was agreed should constitute a constitutional boundary line between the two countries. That line has remained as a boundary up to the present moment, and, in fact, the conditions there are precisely the same as expressed in the White Pass the Chilket Pass and in the Klanha Valley, where the limits of Alas-kan and of British Columbia jurisdiction stand defined until some permanent ar-

A Blackboard Newspaper.

New York Evening Post. Përhaps the only city school to have a daily paper is the Technical High School for Girls, at 28 East Twelfth street. This paper is called "The World's Newa" Each norning it has a new editor, who makes a digret of the important news of the day to have ready at the assembling of the school at 9 o'clock. The news is written in large letters on the blackboard. The principal's directions are that matters of National or international importance are to be treated, and preferably those touching on commercial affairs. His surprise was great, therefore, when he saw the other morning in large type the statement that two young women had denced them-selves sick. To that editor, that was the most important item of the day. The news is not yet illustrated except with maps, but a stereopticon is to be placed in the assembly room and a friend of the principal has promised to keep him supplied with slides for the "articles."

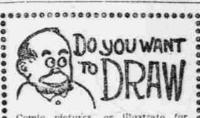

"Alcohol as Food." A Wesleyan student of two years' stand-

concerning Professor Atwater's teachings; "To the Editor of the Sun-Sir: The entire discussion concerning Professor Wilbur O. Atwater's utterances on the food fedue of alcohol seems to be based on a

printed and characteristic sayings: 'Algood health, and younger people, especial-iy, to let alone."

Mrs. Newcomb (on being asked to contribute \$1 to help make up the deficit in the minister's majory)—Really, I can't afford to give so much money; but Pil buy two chickens, a pound of teffee, a can of condensed milk, a bottle of offices, some cottage choose, a spare-rib, and some cut flowers for the church support the proceeds of which, you know, are to be turned in.-Judge.

"The Highblowers are in bad odor, aren't Well, they own reversi automobiles.

231 Post St., San Francisco, Cal.

Are Unequalled In DESIGN-Artistic commentation, beauty of outline and harmonious proportions.

FINISH-Smoothness of castings, perfect fittings and nickelod CONVENIENCE—The many labor-saving devices which make their use a pleasure.

ECONOMY—Scientific construction that secures best results with least fuel. DURABILITY-Lasting quality rendering few repairs necessary. Every "GARLAND" Sold with a Writter Guaranty by Leading Merchants Throughout the Country. Prices range from \$5 to \$50. Sold by Progressive Stove Merchants Everywhere. Made only by The Michigan Stove Company, Largest Makers of Stoves and Ranges in the World.
