# MRS. FREMONT DEAD

Widow of the Famous "Pathfinder."

### SENATOR BENTON'S DAUGHTER

Christmas Excitement Was Too Much for Her to Withstand, in Her Enfeebled Physical Condition-Aged 78 Years.

LOS ANGELES, Cal., Dec. 27,-Mrs. Jes. sie Benton Fremont, widow of General Fremont, died early tonight at her home at 1107 West Twenty-eighth street, in this city, aged 78 years. The illness which had preceded her death was of short duration. Mrs. Fremont was taken ill on Christmas morning. She grew rapidly worse after being stricken down, and soon she never railled

For the past three years the aged widow of the "Pathfinder" had been extremely feeble, as a result of a fall in which she suffered dislocation of the hip, which has since prevented her from walking. A naturally strong constitution was saired by the shock of the fall, and Mrs.

Fremont has required the attendance of a trained nurse, her advanced years aiding the gradual decline of her strength. Wednesday night last Mrs. Fremont was engaged with the members of her house-hold, who had gathered for their Christmas celebration, which had been set one day in advance in order that the family might be together. The excitement, how-

ever, proved to have been too great for her in her enfeebled condition, and on Christmas morning the aged woman was stricken with her last illness.

Mrs. Fremont was the daughter of Thomas H. Benton, for 30 years Senstor in the United States Senate.

Benjamin H. Calef Dead.

NEW YORK, Dec. 27.-Benjamin H. Calef, an accountant, died in his home at East Orange after a long illness. He was associated with Jay Gould and General Grenville M. Dodge in Western rall-road enterprises; had been special and private accountant for the late George M. Pullman and Robert T. Lincoln, and was an executor of the Pullman estate. He lived in Chicago until he removed to East Orange, 16 years ago. His widow and three children survive him.

GRANT'S PASS, Or., Dec. 27.-The New York & Western Mines Company, which recently purchased the Oregon Belle and Gold King mines, on Forest Creek, this county, of Grant's Pass poople, have now bought the Thompson group of claims on Coyote Creek, in Northern Josephine County. This com-pany is composed mainly of New York capitalists. They are acquiring a number of valuable mining properties in this county, and will develop and adequately equip them for work. The Thompson group of claims is situated just over the divide from the noted Greenback They have been opened up to a depth of 70 feet by tunnels and drifts, and company has put a crew of men to work continuing the development with the purpose in view of putting in a large mill. The ledges exposed show a width of ten feet. The veins are well defined and carry values in free gold from wall to wall. The new owners are highly elated with their purchase, and have hopes of transforming the prospects into bullion producers within a few months,

Starved to Death in Bolivia. SEATTLE, Dec. 27. - News has just reached here that John S. Rouse starved to death in the wilds of Central Bolivia in June, 1900, while on an exploring trip. But one man out of a party of 30 escaped. Rouse was one of the pioneer mining men of the State of Washington, coming first to this section in 1879. On his last trip he was one of a party representing the Bolivian government. His friends here will ask the Department of State to investigate his death.

"I had been suffering severely from kidney trouble. All symptoms were on hand: my former strength and power had left me; I could hardly drag myself along. Even my mental capacity was giving out, and often I wished to die. It was then I saw an advertisement of yours in a New York paper, but would not have paid any attention to it, had it not promised a sworn guarantee with every bottle of your medicine, asserting that your Swamp-Root is purely vegetable, and does not contain any harmful drugs. I am 70 years and 4 months old, and with a good conscience I can recommend Swamp-Root to all sufferers from kidney troubles. Four members of my family have been using Swamp-Root for four different kidney diseases, with the same good results." Oct. 15th, 1901

SLIGHT CHANCE FOR SURVIVAL OF JAPANESE MINISTRY.

Naval Programme May Cause New Election-Japan Will Not Send Fleet to American Coast.

TOKIO, Dec. 13, via Victoria, B. C., Dec. 27.-The Katsura Cabinet is thought to be on the eve of defeat over the naval increment and land tax bills, but some "deus ex machina" may yet save it. If it is de feated by the combination of political parties, the Diet will be dissolved and a new election held. The situation is being watched with keenest interest.

Apropos of the naval increment bill a rumor emanated from San Francisco that Japan was preparing to send permanent squadrons to Esquimait and Europe. This report is said to be without foundation. The Japanese Foreign Office denies that Japan has any ambitions that way, and says her only object in increasing her navy is to maintain the "status que the far East, in which all commercial nations are interested.

GERMAN WHISTLES BY MAIL An Amusing Idea in Postal Cards From the Fatherland. New York Times.

If you should hear a faint whistle about the time that the letter carrier is expected at your door, pay attention to it, for it may be one of the latest novelties in the way of postal cards which he is squeezing that causes this sibilant sound For the past few weeks every steamship arriving from the other side and carry-ing mails from Germany to this country has had a large number of these postal cards in the mall bags. They are of German invention, and came here for the first time this year. They are of the dou-ble folder kind, and in the center of the rear fold on which may be inscribed the message there is a whistle. By squeez-ing it, it gives forth a sound, which is sed to come from a bird, a boy, or any other figure which may happen to be on the card.

The card which seems to be the most numerous in the mails is one on which there is printed a bird raised from the paper and one side only showing on the folder. When this is pressed the bird begins to sing. There is another on which appears the figure of a boy with a flute in his mouth. By pressing this papier mache figure it will also whistle. On another there is a picture of a prima donna, will send forth notes if she is pressed to do so. If she won't sing, then she will have to be made to sing by the method which is explained on the card.

Those of the cards which have been dis-tributed here have caused no end of amusement to the clerks, distributers and the letter carriers. The first lot began to arrive about two weeks ago, and they were mostly from Berlin, where they are manufactured. Since then nearly every boat carrying mail from Germany has brought a large number of them in the
