IN PROFESSIONAL HANDS

ABRUPT CHANGES IN THE NEW YORK STOCK MARKET,

Railroad List Wenkened by Publication of Pennsylvania Earnings-Recovery on Bank Statement.

NEW YORK, Jan. I.-Speculative sentiment underwent several rather abrupt transactions today. Trading apparently this representative railway system was seen to outstrip the gains in gross earn-Pennsylvania lines directly operated showed an increase in gross earnings for November of \$69,500, but expenses in-creased \$1,203,100, so that net earnings dethe influence of this showing. Prices in some stocks, including Pennsylvania, re-ceded to a point or more below last night. There was an animated recovery upon the appearance of the bank statement, unexpected recuperation of \$3,-644,650 in the surplus reserves of the banks. Such a showing is almost unprecedented for the first week in January. That the banks should have been able to get through the January settlement, which required resources in excess of all previous records, with a merely nominal increase in loans, was in itself a pleasant surprise to those who had felt nervous about the

Steel were notably firm throughout. Man-hattan was weakened by the requirements made upon the company by the State Raliroad Commission for increased equipment, There was a slight tremor of uncasiness manifested in Monday's stock market when the money rate went to 15 per cent but after that the tone became strong and confident and the vapors which had been hanging over the street seemed to be dissipated. The year closed with a fairly exuitant spirit among operators in stocks. The dominant influence in causing this The dominant influence in causing the feeling was the sense of danger escaped.

The end of the year was looked forward to with keen anxiety for several months, and was not until this week that aspected in the official statement.

11 246 500 was in specie, and \$1,180,000 was in specie, and \$1,180,000 was in specie.

money situation. The recovery in prices

met renewed heavy seiling and the market closed easy and with net changes mixed. Amalgamated Copper and United States

enormous repayments of loans had been effected to the banks, while the weekly statement of the New York Clearing-House Association showed no corresponding reduction of loans. The last statement of the condition of National banks issued by the Comptroller of the Currency showed that loans actually had been increasing the country over during the period of drastic liquidation on the stock wachange. Many important stocks in the market touched the highest price of the year during the market touched the highest price of the year during the market touched the highest price of the year during the period of drastic liquidation on the stock wachange. Many important stocks in the market touched the highest price of the year during the market touched the highest price of the year during the first two weeks of September, and since that time have fallen to the lowest of the year. Yet a comparison of last week's bank statement with that of September 12, showed that the clearing-house banks had contracted.

their loans in that time less than \$25,- gold export question will again become It is now believed that the funds recalled

It is now believed that the funds recalled from the stock market were used to a very large extent for the payment of foreign loans maturing. Authorities here and abroad agree that there has been a reduction of bankers indebtedness to Europe to the extent of thousands of millions of dollars in the last few months. The repayment of those loans apparently has resulted in greater case in securing accommodation abroad during the last week or two. There was some large buying of stocks during the week by that portion of the speculative community which has maintained that tightness of money was the only factor making for money was the only factor making for depression of securities. Confidence that a moral relaxation of money conditions was in the hands of professional operators will follow in January serves as additional almost entirely. The first distinct movement in the market, after a period of listless fluctuations, followed the publi-cation of the November estinings of the Pennsylvania Railroad. The rate at which the rise in operating expenses in this control of the November estinings of the which the rise in operating expenses in ings that the country had reached the culmination of the wave of prosperity, and that a long period of reaction is to be faced. The rise in the prices of copper and of many control of the country of the copper and of the country of ings served to enforce doubts caused by a similar tendency which has become general throughout the railway world. The rail throughout the railway world. The contention that the rise in prices of compensation that the rise in the rise in the prices of compensation that the rise in the prices of compensation that the rise in the rise in the prices of compensation that the rise in the rise contention that the rise in prices of com-modities has culminated. More confidence was professed, also, that the advances in

NEW YORK BANK STATEMENT. Satisfactory Showing of the Week's

Transactions. NEW YORK, Jan. 1.- The Financier

The fine statement of the New York clearing-house banks for the five days ending January 3, is accounted for in part by the fact that the banks failed to reflect by the fact that the hanks failed to reflect in the previous week's exhibit the gains in cash which it was known they must have made during that period. According to the official returns, Saturday, the banks increased their cash holdings almost \$5,-500.000, which is at least double the indicated gains based upon the known move-ment of the week. Of the gain in cash surance became strong that the prepara-surance became strong that the prepara-tions for the emergency had been adequate and successful, although the fears of a tion of the cash received was what is and successful, although the fears of a money crisis had been much reduced by the announcement of the formation of the bankers' pool to supply \$50,090,000 of funds to the call of the loan market in case of urgent need.

A special cause of discouragement was increase in the receipts. It is from this A special cause of discouragement was the small impression made upon the loan account of the banks by the forced liquidation in the stock market. Holders of large gainers during January from instocks had ample reason to know that enormous repayments of loans had been effected to the banks, while the weekly statement of the New York Clearing-House Association showed to correspond to the property of the property from the property of the property of the property from the property of the property from the property of the pro

when the professionals come to take their dealers all over the control of earliers.

MORE COPPER PRODUCED.

Lower Price Increased Consumption at Home and Abrond.

NEW YORK, Jan. 3.-According to a report compiled by the New York Metal Exchange there has been an increme in the production of copper for the year just closed. The figures for 1902 are 26,320 torus as compared with 266,716 tons In 1901. Add ing the net importations of foreign copper the total for 1962 is 558,757 tons, as compared with 328,002 in 1901. The tions, however, have been nearly doubles.
In 1962, the total exports of copper wer
168,425 tons against 98,941 in 1901. Con sumption also increased, probably on ac count of the low prices, and it is estim that the country consumed 200,000 tons last year, compared with 165,690 in 1961. Summing up the results of the year, the statement shows that the stocks at the mines, on transportation, at refineries and in warehouses are estimated to be 133,812 tons at the end of the year.

Fort Brady Barracks Burned. SAULT STE MARIE, Mich., Jan. 1.— The fine barracks at Fort Brady, which The fine barracks at Fort Brady, which were built in 1832, were completely destroyed by fire today; loss, \$80,000. The barracks were occupied by a battallon of the Fourteenth United States Infantry. and the men saved their accourtements, and the furniture of the building. There was little water in the city pipes when the alarm was turned in, and consequently not sufficient pressure in the mains for the former.

HAD YELLOW JACK ABOARD

INFECTED SHIP COMLIEBANK AR-RIVES AT PORT TOWNSEND.

Lost Several Men From Fever on the Trip Up From Panama-Inspection of the Dredge.

PORT TOWNSEND, Wash., Jan. 3 .-The yellow flag flew from the masthead of the British bark Comliebank, which was towed into the Straits yesterday. The vessel is now in strict quarantine at the United States station at Diamond Point, and communication is cut off entirely with outside people.

The Comilebank is from Panama, hav-

ing originally started for Paget Sound in October Before the vessel had been out a forinight the disease appeared, and several of the crew were stricken. Death fol-owed in each case, and Captain Walker, in terror, headed about and returned to Panama, investigation showed the dis-case to be yellow fever. The dead sulors were buried ashore, and after filling their places with new men, Captain Walker started a second time for the Sound. On this voyage two of his men

succumbed to the disease.

The Comlicbank is now under orders or a detention of 14 days at Diamond Point, and in the interim the vessel's hold will be thoroughly cleaned of the Panama mud used as ballast, and the vessel thoroughly disinfected. The quar-antine officials apprehend no further sprend of the contagion, as the facilities at hand are more than competent to control the disease should it break out again.

INSPECTED THE DREDGE

Two Members of Multnomah Delegation Visit the Columbia.

The Port of Portland Commission invitod the members of the Multiomah delega-tion to the Legislature to inspect the new dredge Columbia yesterday. Of the 29 members, only two were on hand when the steamer Paloma left the foot of Oak Gill and W. W. Banks. President M. C. Gill and W. W. Banks. President M. C. Bennield and Commissioners Aifred Tucker and C. F. Swigert were on hand to do the honors. C. H. Woodard went along as an invited guest, and J. B. C. Lockwood, who designed the dredge, and Superintendent Kelley accompanied the party to explain the workings of the

The Columbia is moored at Postoffice bar digging a channel out of hard clay. Conditions were not proper to show the craft at its best, but its operations were highly satisfactory to the two Legis-ators. They were shown over the boat its massive machinery were explained by Mr. Lockwood. After his return to the city Mr. Gill said: "I must confess that was not oversanguine regarding dredge before I saw it, but I found it a most remarkable machine. I believe it is a complete success and will do all that was expected of it."

SHIPBUILDING IN SIX MONTHS.

Vessels Fewer in Number but of

Larger Aggregate Topnage. WASHINGTON, Jan. 3.-The Commisoner of Navigation reports \$27 sail and steam vessels of 171,559 gross tons built in land, Me the United States and officially numbered Liverse during the six months ended December 31, 1902. During the corresponding six months ivernia, for ended December 31, 1901, 717 sull and steam vessels, of 154,672 gross tons, were built.

New York. Antwerp. Of the tonnage built in the latter half of 1902, 26,379 were built on the Atlantic and Gulf, 20,300 on the Pacific and 47,874 tons on the Great Lakes.

CARGO OF THE KLEK. Austrian Steamship Clears for South

Africa.

The Austrian steamship Klek has com- New York,

pleted her cargo at Greenwich dock and is ready to leave down the river today bound for Algoa Bay, South Africa. The bound for Aigon Bay, South Airica. The total value of her cargo is \$124,555, and the principal items on her manifest are: Flour, 10,771 barrels, value \$32,196; wheat, 104,597 bushels, value \$77,400; oats, 8008 bushels, value \$3519; burley, 1100 bushels, value \$3519; burley, 1100 bushels, value \$355; tumber, 554,537 feet, value \$1340. The steamer also has a quantity of canned steamer also has a quantity of canned goods, salmon and fruit. The cargo is dispatched by T. M. Stevens. The British ship Allerton cleared yes-

terday for Melbourne with 114,063 bushels of wheat, worth \$88,522. Balfour, Guthrie & Co, are the shippers.

Elleric Goes Above the Bridge.

The steamship Elleric, which is to load imber for James Laidlaw & Co., for Manifa under Government contract, was taken up to Innian, Poulsen & Co.'s mill resterday, where she will take on part f her cargo. The remainder of the will be taken at the Portland Lumber Company's mill, and perhaps at another The Elleric will load about 2000 000 her cargo will be

Pilots' Licenses Renewed.

ASTORIA, Or., Jan. 3.—(Special.)—The Pregon Hoard of Pilot Commissioners held a regular monthly meeting this afternoon in this city. Chairman Martin Foard, Commissioners E. W. Tallant and Sylvester Farrell and Secretary W. T. Chutter were present. Only routine busi-ness was transacted, except that the Il-censes of the bar pilots, Cann and Gunderson, and the river pilots, Groves and Turner, were renewed.

Spanish Ship Ashore. NEW YORK, Jan. 2.-The Spanish ship Remidios Pasqual, Captain Morata, from Buenos Ayres, October 18, for New York with a cargo of hides, went ashore near Ship, Bottom life-saving station, New Jersey, today. She is now one-third full of water. There was a crew of 21 on board, all of whom were taken off by the ife-saving crew.

Railrond Transport Saved.

FRANKFORT, Mich., Jan. 3.-The Ann Arbor car ferry, No. 1, was brought safely into harbor here last night, after hav ing been ashore on the rocks at Manitou Island. The ferry-boat had 22 cars on board, and some anxiety was felt for her safety. It is not known how seriously her hull is injured.

Cancerous ing about them to indicate their true

nature. They look like ordinary sores and are usually treated as such, some simple salve, wash or powder being used in the hope of drying them up and stopping the discharge; but while the place may temporarily scab over, it again inflames and festers, becoming as had or worse than ever. After awhile the deadly poison begins to eat into the surrounding flesh and the sore spreads with frightful rapidity. Then the sharp shooting pains, which distinguish the cancerous from the common ulcer, are felt, and the unfortunate patient is brought face to face with the most dread-

ed of all maladies, a cancerous ulcer. Whenever an ulcer of any kind is slow in healing it should be closely watched, particularly if there is an inherited predisposition to cancer. Often times a malignant, stubborn ulcer starts from a boil, wart, mole, bruise, blister or pimple, for when the blood is tainted and the germs when the blood is tainted and the germs and seeds of cancer are implanted in the system, you cannot tell when nor where the deadly poison is going to break out. S. S. S. cures these cancerous ulcers and chronic sores, by driving out of the system all the morbid and unhealthy matter that keeps the ulcer irritated and discharging. It purifies and strengthens the blood,

enabling it to throw off the germs and poisons, thus checking the further formation of cancer cells, and when all impurities have been removed from the poisons, thus checkremoved from the

blood and system the ulcer heals naturally and permanently. All ulcers, even the smallest, should be looked upon with suspicion and treated promptly before they become cancerous. S. S. S. is a purely vegetable remedy, a perfect blood purifier, and an invigorating

tonic. Write for our free book on Cancer. The Swift Specific Co., Atlanta, Ga.

By Men and Women Whose Minds Were Destroyed by Diseased Nerves

NEARER DEATH OR THE ASYLUM **EVERY DAY**

Hundreds of men and women thank Dr. Kessler and the Old St. Louis Dispensary for curing and saving them from this awful doorn. Friends, don't wait, for when once the human body is filled with diseased nerves, then trouble begins. It is a very hard disease to cure, but with years of experience, study, patience and careful treatment, hundreds have been cured at the Old St. Louis Dispensary, Portland, Or. Every case must be treated by its symptoms; seldom two slike. One reason so many come or write to Dr. Keszler at the St. Louis Dispensary, for a cure, is because even good country doctors haven't the time to devote and study these cases. So they are sent to Dr. Kessler. Hundreds of pitiful cases in the asylums, if they had gone to see or even written a letter to Dr. Kessler in time, they might today be at home enjoying life with their friends. Don't put it off, but call or write, as you only have one life, and should try to enjoy it.

MEDICINES FREE

He does not charge patients for medicines or appliances. Many doctors charge an additional fee for medicines, etc., or send their patients to high-priced drugstores. All his remedies are prepared in his own private laboratory.

Nervous Debility Men, many of you are now reaping the result of your former foily. Your manhood is falling, and will soon be lost sexual diseases, is never on the standstill. With it you can make no compromise. Either you must enaster it or it will master you, and fill your whole future with misery and indescribable woe. We have treated so many cases of this kind that you will never again be bothered with emissions, drains, prematureness, small or which rob you of your manhood and absolutely unit you for study business, pleasure or marrisge. Our treatment for weak men will correct all these evils, and restore you to what Nature intended—a hale, healthy, happy man, with physical, mental and sexual powers complete.

Varieocele Under our treatment this wasting disease rapidly disappears. Pain from the dilated veins, and all soreness and swelling quickly subside. Every indication of varieocele soon vanishes, and in its stead comes the pride, power and the pleasure of perfect health and restored manhood.

Stricture Our treatment dissolves the stricture completely and removes every every unnatural discharge, reduces the prostate gland, cleanses and heals the bladder and kidneys, invigorates the sexual organs and restores health and soundness to every part of the body affected by the disease. Contagious Blood Poison Our special form of treatment for this disense is dorsed by the best physicians of this and foreign countries. It contains no danger-one drugs of injurious medicines of any kind. It goes to the very bottom of the disease and forces out every particle of impurity. Soon every sign and symptom disappears completely and forever. The blood, the tissue, the flesh, the bones and the whole system are cleaned, purified and restored to perfect health, and the putient prepared anew for the duties and pleasures of life.

Rupture Cured to stay cured by our treatment without the use of the knife, and without detention from business.

Reflex Diseases Many ailments are reflex, originating from other diseases. For or stricture: innumerable blood and bone diseases often result from contagious blood taints in the system, or physical and mental decline frequently follow impotency. In treating diseases of any kind we always remove the origin—we cure the

CATARRH, BRONCHITIS AND DISEASE OF THE THROAT

Marvelous results of the new method of cure. Importance of attending to disease in the early stages. He furnishes inhalers and medicines for purifying the breath, imparting thereto a pleasant and agreeable odor. No more had breath,

Address with 10 2-cent stamps 2301 YAMHILL STREET, PORTLAND, OR.

CONSULTATION FREE And strictly private. If you are afflicted with any disease, no matter of what name or nature, go and let him see you. He will restore you to health if there is hope; if not, he will honestly tell you so. He takes no case that is not curable. All who are in need of medical aid are invited to call. The doctor's opinion costs you nothing.

SENDING MEDICINE We send medicine to every part of the Union, both by mail and express, ways desirable to see a patient, his thorough knowledge of the human body and its diseases enables him to send medicine to cure any curable disease if a description of the case is given by letter.

Money should be sent by postoffice order, registered letter, postal note or express. All letters of inquiry will receive prompt attention. Enclose ten 2-cent stamps. TERMS reasonable in all cases. Especially low to those getting small wages and of limited means.

Payments may be made in monthly installments if preferred. We have been established 39 years. All members of our staff are specialists-physicians who have spent many years in curing diseases and weaknesses of men and women. Our institution is the largest and best equipped and our practice the most extensive in America.

We never use anything of a dangerous nature, such as electric beits, mercury or other injurious medicine.

This is one of the oldest Private Medical Dispensaries on the Coast. Dr. Kessler has been manager of this institution for Il years, during which time thousands of cases have been cured, and no poor man or woman was ever refused treatment because they had no money. The St. Louis Dispensary is perfectly safe. We say to young men suffering from any private disease: "Go and consult this old doctor at once. Payments in small amounts easily enade. Cases, if taken early, are casily cured. Put off too long, they become serious."
