FIGHT MOODY'S BILL

Minutes of Committee Against Checkerboard.

IN THE INTEREST OF THE FEW

Denounced as Class Legislation, Which Would Cost Government Millions and Foist Worthless Land Upon It.

OREGONIAN NEWS BUREAU, Washington, Jan. 10.—Three members of the House public lands committee, Jones of Washington, Shafroth of Colorado and Brundidge of Arkansas, will on Monday file a strong minority report protesting against the passage of the checkerboard land bill recently reported favorably to the House. They allege that the bill proposes an exchange wholly in the interest of specified settlers; that it is class legislation that will not benefit the Government or the public.

Under its provisions millions of dollars would have to be expended in making the exchanges, with no return to the Government. They assert that, despite its careful working, it would result in shoving off on the Government worthless lands in exchange for those of considerable value. Fraud under its provisions could not be prohibited.

Under the bill the lands returned to the Government must be acquired in not to exceed 160-acre tracts, yet the committee says, quoting Secretary Hitchcock, that small tracts of these lands are practically worthless. How, then, asks the minority, would the bill tend to develop the country?

The bill is held to be unjust in allowing holders of odd sections to make exchanges, while settlers on even sections within grants shall not enjoy the same privileges.

The minority says it will stoutly fight the bill, if it is pressed in the House, and hopes to be able to defeat it.

THEY ALL CRY FOR COAL.

(Continued from First Page.)

forced the laws by which, it was averred, redress could be secured.

There was much divergence of opinion at first as to the most effective method to pursue to obtain relief from the present price of coal. Suggestions were made that an open letter be addressed to President Roosevelt, that a convention be called at Detroit or Chicago, or that Congress be appealed to for action. The proposal to "move on Washington in a body," finally prevailed, it being agreed that the enforcement of existing laws offered adequate means of relief.

The permanent committee of the Detroit coal convention consists of W. S. Maybury, Mayor of Detroit; Rev. R. A. White, Chicago; E. M. Lahiff, Chicago; United States Senator Mason, Judge Edward F. Dunne, Chicago; Father R. B. Condon, Reedsburg, Wis.; T. E. Tarsney, Corporation Counsel of Detroit; W. C. P. Breckenridge, Kentucky; George W. Alexander, Providence, R. I., and Judge W. A. Babcock, Cleveland. All were present except Messrs. Breckenridge, Babcock and Alexander.

Following an executive session, Mayor Maybury explained the action of the conference in a formal statement.

"It was the order of the convention at Detroit," he said, "that this committee should call the convention to reassemble whenever such a course was deemed necessary. The decision of the committee is that the convention be reassembled. It was decided to select Washington as the place to meet, the gathering to assemble at the earliest practicable date.

"The convention will not be confined to the delegates who attended the Detroit session, though the gentlemen accredited to that meeting will be members of the convention at Washington by virtue of their credentials to the first convention. In addition, it is the purpose of the convention to ask the Chambers of Commerce, the Boards of Trade and other civic organizations of the country to send delegations in such numbers as they see fit. In addition the Governors of all the states and the Mayors of all the larger cities will be asked to designate representatives to attend the convention, it being the desire to make the personnel of the gathering as widely representative as possible."

In conclusion, Mayor Maybury explained that the date for the gathering at the National capital would be fixed according to the developments that telegraphic correspondence would evoke with relation to the convenience of those expected to take a prominent part in the convention.

The speeches made by Senator Mason, Mr. Tarsney, Rev. R. A. White and Mayor Maybury indicated that the convention at Washington would be devoted largely to the presentation of charges that Attorney-General Knox has failed to grant the relief that the laws make. In fact, more than three hours of speechmaking were consumed chiefly with arguments to that effect.

GRAND JURY INQUIRY BEGUN.

It Will Seek Evidence of Conspiracy Among Coal Dealers.

CHICAGO, Jan. 10.—The prompt action of State's Attorney Charles Dineen upon information furnished him by the special committee appointed by the Illinois Manufacturers' Association resulted in the convening this morning of a special grand jury to inquire into the causes for high prices demanded for coal by Chicago dealers. Twenty Deputy Sheriffs worked almost the entire night to secure service of summons upon 75 veniremen, and of subpenas for the appearance of prominent coal dealers who are believed to be in a coal combination in defiance of the law. When court was called this morning a majority of the talesmen were on hand, and the work of impaneling a jury at once proceeded.

The formal order for the special grand jury was issued by Judge Willard McEwen yesterday upon a petition by the State's Attorney declaring his belief that there exists among certain coal operators, owners and dealers a combination "injurious to the public trade," and that in consequence "great distress and suffering prevail among the poor in the community."

Judge McEwen immediately suspended court proceedings while he issued the order for a special venire convening the grand jury. The order was taken at once to the Jury Commissioners, and 75 names were handed Sheriff Barrett for immediate service.

Attorney-General Hamlin, who was in telephonic communication with Mr. Dineen several times yesterday, arrived in Chicago today and will take an active part in the prosecution. It is also expected that the Retail Dealers' Association, the Building Managers' Association, and the committee of the City Council will assist in the proceedings.

Twenty-three jurors were quickly selected and the oath administered. Judge McEwen's charge was brief and confined largely to defining the duties of the jurors.

"It is not necessary to indulge in any language," he said, after reading to them the State Attorney's petition, "to impress upon you or upon any fair-minded man the crime and infamy of such a situation as is here set forth. Your duties with regard to the investigation are set forth in the oath you have taken."

The jury then retired to enter upon its investigation.

REPEAL DUTY ON COAL.

Milwaukee Appeals to Senator Quarles to Act Quickly.

MILWAUKEE, Jan. 10.—Following a meeting of business men here today to provide means for relieving the fuel shortage in Milwaukee, Mayor Rose telegraphed the following message to United States Senator Quarles, at Washington:

"The people of our city are confronted by a coal famine and it is working great hardship. We are endeavoring to arrange to purchase coal in Canada. The tax is 67½ cents per ton. Is it not possible to secure the immediate passage of a resolution through Congress, at least suspending the duty on hard coal? A bill ought to be presented putting hard coal on the free list. If we can get the resolution through it will work immediate benefit.

"I do not think the true conditions are realized. Great suffering is resulting from the famine and we look to the future with alarm. Will you take this matter up yourself, apply to the proposition the perseverance and energy that I know you possess, if it meets with your approval, and do what you can to relieve these conditions."

PRICE OF COAL STILL GOES UP.

Independent Operators Advance Anthracite to $10 50 a Ton.

NEW YORK, Jan. 10.—The combination of independent operators who have now control of the anthracite market in New York have advanced the tidewater price of anthracite to $10 50 a ton. This virtually means the minimum price, as the tidewater price will advance with increasing cold weather to any figure any independent operator can command for the coal. The quantity of coal controlled by the coal-carrying companies which is now coming to tidewater here at the rate of 35 a ton is so small that it has little effect on prices.

Mayor Low says he has already done everything in his power, personally and officially, to obtain a larger supply for the city, but expresses the hope that the resolution of the Board of Estimate and Apportionment instructing him to ask from the coal companies an additional supply of coal for the city would add weight to his representations.

FAMINE ACUTE IN KANSAS.

Poor Are Suffering, Riots Impending and Railroads Seize Coal.

TOPEKA, Kan., Jan. 10.—The coal famine in Kansas is taking on a more serious aspect. Dealers in Topeka announced today that they were practically out of coal with no immediate chance of getting more. The State Reform School has only two days' supply left. Two manufacturing concerns were compelled to close down this morning on account of a lack of fuel.

At Ottawa, Lawrence and Atchinson riots have been narrowly averted during the past three days whenever a car of coal arrived. Much suffering exists among the poorer class, because they cannot obtain enough coal.

It is alleged that the railroads are confiscating a large part of the coal that is shipped. They are ready to reimburse the owners of the coal in a pecuniary way, but their action makes the coal famine much more stringent.

COAL TRAIN HELD UP.

Citizens Willing to Pay for Coal, but Will Have It.

SPRINGFIELD, Ill., Jan. 10.—Because there was a coal famine in the city and the dealers were unable to secure any coal, a large number of citizens of Arcola held up a coal train of 30 cars on the Illinois Central Railroad as it was passing through the town this afternoon and uncoupled the engine and refused to allow the cars to proceed further, despite the efforts of the trainmen, aided by the local police. At a late hour tonight the cars were still in Arcola.

The citizens are willing to pay the value of the fuel, but are determined to have it.

DETROIT BEGINS BUYING COAL.

Relief Measures Taken, Trusting to Legislature to Legalize.

DETROIT, Mich., Jan. 10.—The Municipal Coal Commission appointed by Mayor Maybury to begin the immediate purchase of coal commenced work today. J. L. Hudgins, who is president of the commission, said he would loan the commission $10,000 with which to purchase coal pending the passage of an enabling act by the Legislature to legalize the use of $50,000 of the city's funds for this purpose. The commission decided to use the yards of the Department of Public Works and the Water Board for coalyards.

PRICE ADVANCED IN KANSAS.

Leavenworth Mines Cannot Fill Orders—Miners Want Advance.

LEAVENWORTH, Kan., Jan. 10.—The coal mining companies here tonight announced an increase of 25 cents per ton in the selling price of coal. The companies have advanced the price of coal 56 cents within the last month. The demand is so great that the Leavenworth mines cannot fill half the orders which they are receiving.

It is said the miners will ask an increase in wages.

THOUSANDS OF MEN IDLE.

Pennsylvania Steel Works Closed for Lack of Fuel.

HARRISBURG, Pa., Jan. 10.—The Pennsylvania Steel Works, at Steelton, closed down indefinitely today on account of the lack of fuel, throwing several thousand men out of work. The company is crowded with orders.

Deep Snow in Kansas.

TOPEKA, Kan., Jan. 10.—Snow is falling in all parts of Kansas tonight. The temperature is higher than for several days past, but the snow will be the heaviest of the Winter. In the Western part of the state, the snow is drifting and the trains are being delayed to some extent. Telegraph wires are also suffering in different parts of the state.

St. Paul Is Coldest Point.

ST. PAUL, Jan. 10.—With only 4 below zero during the night St. Paul was one of the coldest weather stations in the Northwest, the same figures being reported at La Crosse, Wis., and Moorhead, Minn., while at Huron, S. D., it was 12 above and other Northwestern stations indicated a gradual warming up, with a possibility of snow for Sunday.

Low Calls for Coal Conference.

NEW YORK, Jan. 10.—Mayor Low today sent a letter to the presidents of the anthracite coal roads and to C. B. Markle, of Markle Bros., inviting them to confer with him on the coal situation. In his letter the Mayor tells of the difficulty in getting coal. The conference is proposed for Tuesday next.

Price of Anthracite Raised.

HAZELTON, Pa., Jan. 10.—The Lehigh Valley Coal Company today increased the price of all prepared sizes of coal for the local trade, 25 cents a ton. A. Pardee Sons & Co., independent operators, have advanced the price of coal for home consumption from 15 to 25 cents per ton.

Chicago Expects Milder Weather.

CHICAGO, Jan. 10.—The minimum temperature in Chicago was zero at 5 o'clock this morning, since which time it has been slowly moderating. The official forecaster says the present cold wave will give way to milder weather today, to be followed by snow tonight and tomorrow.

Snow in Topeka, With No Coal.

TOPEKA, Kan., Jan. 10.—A heavy snow is falling here, with the weather growing colder, and the city is out of coal. Not a dealer in town has a carload on hand, and none is in sight. It is expected that there will be suffering before the famine is relieved.

Two Indianapolis Factories Close.

INDIANAPOLIS, Jan. 10.—Two Indianapolis factories, employing 500 men, were compelled to shut down today on account of lack of fuel. They are the Odell Works and the wheel department of the Parry Manufacturing Company.

Low Temperature at St. Louis.

ST. LOUIS, Jan. 10.—There was a decided fall in the temperature throughout the night, and at 7 A. M. the government thermometer registered 12 degrees above. A rise in temperature with rain or snow tonight are the probabilities.

Snow Expected at Kansas City.

KANSAS CITY, Jan. 10.—The temperature in this part of the Southwest fell an average of 16 degrees in the past 24 hours, the weather bureau reporting 11 above zero for Kansas City at 7 o'clock this morning. The weather is clear, with indications of snow.

Will Moderate in Ohio.

COLUMBUS, O., Jan. 10.—Zero weather prevailed in Ohio this morning. In Cleveland it was 4 above, and in Columbus 2. In the country district it was zero and below. The indications are for warmer weather, with snow Sunday.

Nearly Zero at Cincinnati.

CINCINNATI, Jan. 10.—The mercury reached a point as low as 3 above zero at some of the hilltops this morning, the coldest of the year. The government thermometer was 7 above.

Indianapolis Fears Coal Famine.

INDIANAPOLIS, Jan. 10.—The official temperature at 7 o'clock was 2 degrees above. The indications are for rising temperature and snow. The coal famine in this city is being keenly felt.

Peoria Sugar Refinery Cases.

PEORIA, Ill., Jan. 10.—The plant of the Peoria Glucose & Sugar Refining Company has been closed for want of coal, 800 employes being thrown temporarily out of employment.

Odell Is for Platt.

NEW YORK, Jan. 10.—In reply to questions as to his attitude toward the re-election of Senator T. C. Platt, Governor Odell made the following statement:

"I am unequivocally and unreservedly for Senator Platt's re-election to the Senate, and I believe that the Republican party offers him this renewed honor because of his service to it, and any rumors which may have been in circulation to the contrary are false and unreliable. I shall not only ask, but expect my friends to aid in this direction, and I shall do all in my power to accomplish this result."

Mrs. Coxe Must Stay.

WASHINGTON, Jan. 10.—Senator McLaurin, of Mississippi, today conferred with President Roosevelt and Postmaster-General Payne regarding the Indianola postoffice case. The present attitude of the Administration is that the postoffice shall be reopened and Mrs. Coxe reinstated as postmistress if the responsible authorities will furnish assurance of protection.

BUSINESS ITEMS.

If Baby Is Cutting Teeth,

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and diarrhoea.

ARE YOUR KIDNEYS WEAK?

Thousands Have Kidney Trouble and Never Suspect It.

To Prove What the Great Kidney Remedy, Swamp-Root, Will Do for YOU, Every Reader of "The Oregonian" May Have a Sample Bottle Sent Absolutely Free by Mail.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

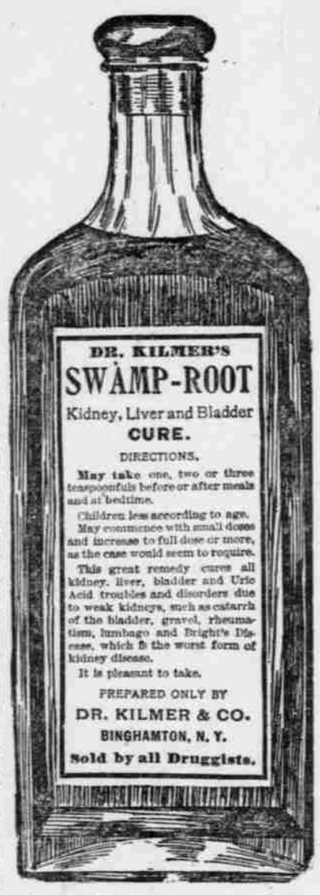
If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince any one.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering with fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; makes your head ache and back ache, causes indigestion, stomach and liver trouble, you get a sallow, yellow complexion; makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand 24 hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

Swamp-Root is pleasant to take, and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have kidney ailments, because they recognize in it the greatest and most successful remedy for kidney, liver and bladder troubles.



(Swamp-Root is pleasant to take.)

If you are already convinced that Swamp-Root is what you need, you can purchase the regular 50-cent and $1 size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

EDITORIAL NOTE—You may have a sample bottle of this wonderful remedy, Swamp-Root, sent absolutely free by mail, also a book telling all about Swamp-Root, and containing many of the thousands upon thousands of testimonial letters received from men and women who owe their good health, in fact, their very lives, to the great curative properties of Swamp-Root. In writing to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in The Portland Sunday Oregonian.

PLAGUE ATTACKS TWICE

CONVALESCENT VICTIMS ARE AGAIN SEIZED.

Stricken City of Mazatlan Has Furore for Sanitation—Business of Sinaloa Stagnant.

MAZATLAN, Mexico, Jan. 10.—The plague continues without material abatement. There are 43 patients at the Lazaretto, and the disease is now attacking people convalescing from previous attacks.

The city has been divided for sanitary purposes into four sections, and each section will be thoroughly disinfected under medical supervision. The sewers are to be cleaned and the streets paved. In short, a furore for sanitation has been caused by the appearance of the pest.

The Congress of the State of Sinaloa has been convoked in extraordinary session to consider questions arising by reason of the stagnation of business and to consider also the future of the port. Many people regard the situation as likely to improve, and feel that the plague is now under control.

YOUTSEY WILL TELL TRUTH

One of Goebel's Murderers Volunteers to Give Evidence.

FRANKFORT, Ky., Jan. 10.—Henry E. Youtsey, serving a life sentence in the penitentiary on a conviction for complicity in the Goebel murder, is today before the grand jury in the Franklin County Court. Youtsey recently made the statement that he would testify in the Goebel case, if called, and tell what he knew about the alleged conspiracy.

This is the first time Youtsey has been before the grand jury or testified in the cases, and it is believed he will be used as a state witness in the trials.

"I sleep well enough at night,
And the blamedest appetite
Ever mortal man possessed."

Riley's farmer is the very picture of a man advanced in years, yet in the enjoyment of perfect health. A good appetite, good digestion and sound sleep, are the chief factors in a vigorous old age. Life is sustained by food, when it is properly digested and assimilated. When digestion fails, there is a loss of nutrition which soon shows itself in physical weakness, nervousness, sleeplessness, etc.

Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It strengthens the body in the only way possible,—by enabling the assimilation of the nutrition extracted from food.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to 125 pounds, and was not able to work at all. Now I weigh nearly 160 and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

BANKER ACCUSED OF THEFT.

Charge of Stealing $100,000 Against Prominent Boston Man.

BOSTON, Jan. 10.—Edwin J. Dunning, a State street banker, with residence in Brookline, was today arrested, arraigned and held in $20,000 bail to answer a charge of larceny. It is alleged in the indictment that Dunning fraudulently obtained $23,000 from Francis A. Brooks, for years a leading member of the bar, who died last Fall.

Assistant District Attorney McLaughlin stated to the court, when Dunning was arraigned, that the counts of the indictment do not represent all the money obtained from Mr. Brooks, as Dunning received large sums within the past two years.

In default of bail Dunning was committed to jail.

It is claimed that, while the sum named in the indictment is only $23,000, the funds of Mr. Brooks' estate are involved to the extent of more than $100,000.

The accused man is very prominent in Boston business circles, and is regarded as being very wealthy. News of the arrest caused a sensation in the financial district.

Loving Cup for Captain Hall.

SAN FRANCISCO, Jan. 10.—Captain A. L. Hall, the retiring master of the steamship Queen, was presented with a costly and beautiful loving cup today by the officers of the steamship. Captain Hall has accepted a position with the Pacific Packing & Navigation Company, of Seattle.

Patents to Railroad Land.

WASHINGTON, Jan. 10.—The Secretary of the Interior has ordered patented to the Northern Pacific Railroad Company, 8236 acres of land within the limits of its grant in the Roseburg district, Oregon.

WHY COPELAND TREATMENT CURES CATARRH

It Is the Only Combined Local and Constitutional Treatment.

To the inability and extreme reluctance on the part of the great majority of doctors even to undertake to cope patiently and intelligently with the ravages of Catarrh, is largely due the great avalanche of patent nostrums in the shape of liquids and tablets, every one brazenly claiming to cure Catarrh, but each with a radically different medicine.

A disease for which there is such a multitude of alleged cures is invariably one that can only be cured by the greatest skill, with the proper remedies prescribed and prepared under the direction of painstaking, careful and experienced physicians.

This is pre-eminently true of Catarrh, and the fallacy of undertaking to cure this widely prevalent disease by internal treatment alone cannot be too boldly exposed nor too emphatically denounced.

All persons familiar with the anatomy of the upper part of the throat, the back portion of the nose and the middle ear know how continuous is the delicate mucous membrane lining all the internal organs, and how inflammation of this membrane extends from one part to another. This inflammation, CATARRH, always starts at the junction of the back portion of the nose and the upper part of the throat, just back of the soft palate. If neglected it will extend upward into the ear cavity through the little Eustachian tubes, settling up buzzing, roaring and ringing noises, partial or complete deafness, earache or discharges.

Again, it will extend downward to the breathing tract, invading the larynx, or voice box, and down the windpipe into the bronchial tubes and thence to the lung cells, causing in its way, according to the parts affected, laryngitis, with its hoarseness and partial loss of voice, bronchitis or chronic cough, asthma or consumption.

It affects still another tract, the alimentary, consisting of the mouth, the oesophagus, or swallow, the stomach and bowels, producing a dry, fetid and fissured tongue and mouth, indigestion, the so-called dyspepsia, heartburn, water brash, heart palpitation, alternate diarrhea and constipation, loss of strength and flesh, etc.

As Catarrh, then, is found to affect at different times and in more or less aggravated and complicated cases the whole mucous lining of all the organs of the body, producing in turn a long train of symptoms, from the simple local annoyance of stopped-up nostrils to the complete breaking down of the system, as in consumption or nervous prostration from general debility—

The utter futility of any method of treatment other than a combined local and internal (or constitutional) one must be so apparent that even the most stupid can understand and be warned against this dangerous, almost criminal fallacy of claiming to cure Catarrh by internal treatment alone.

There is only one way to cure Catarrh, and that is by the method which has made the practice of Doctors Copeland and Montgomery world-famous. By their local treatment the seat of the disease, no matter what its location, is reached directly, and, being reached directly, the disease itself is attacked by gentle, soothing and healing medication; it succumbs in every instance, and is driven out, and the sore spots and ulcers that were secreting and giving off nauseating, poisonous mucous are closed and healed. The constitutional treatment soon restores the tired and jaded body to its normal condition, bringing about a feeling of buoyancy and energy because the brain and nervous system, out of their own wonderful vitality and tendency always to throw off disease, are again fed with pure blood, instead of the foul gases that had previously been offered them.

Mr. E. R. Krieger, 681 Tillamook St., Portland, Or.

INVESTIGATE OUR CURES

Another Well-Known Business Man of Portland Speaks in Warm Praise of the Copeland Treatment.

Mr. E. R. Krieger, 681 Tillamook street, Portland, was one of the large number of persons in this climate who suffer with throat trouble. Several years ago, upon the advice of friends, he placed himself under the care of the Copeland physicians. They not only cured him, but he became greatly interested in their practice and its wonderful growth, regarding which he said in an interview:

"Yes, I have been familiarly acquainted with the Copeland practice for a number of years, and have watched its growth from a mere handful of patients to its present large patronage of nearly

One Hundred Patients

a day, with great interest. What has impressed me most is their plan of treating patients at a

Fee Rate of $5 a Month,

which not only includes all medicines and appliances, but the most careful treatment of the patient in the office for one month's time. This low fee-rate makes the Copeland practice little short of

A, Public Benefaction,

for it places the treatment within the reach of the laboring man and his family. And while it places the treatment within the reach of the masses of the people, from the

Number of Cures

that have come under my personal observation I am convinced that it is the most scientific and well-managed treatment that can be had at any price, yet I feel sure that there are a great number of persons in Portland who are not familiar with the treatment or the physicians themselves, and who do not recognize the good that is being done. Probably I

Can Say Nothing Stronger

in their support than that if I were suffering from a chronic disease of any kind, and especially from a catarrhal condition of the mucous membranes, I would as a matter of preference place myself under their care and treatment. I am so

Thoroughly Convinced,

of the good they are accomplishing that I do not hesitate to recommend their treatment to my personal friends, and in fact to any one in need of treatment."

HOME TREATMENT.

Doctor Copeland requests all who are ailing, all who feel a gradual weakening, or all who realize that their health is being undermined by some unknown complaint, to cut out this slip, mark the questions that apply to your case, and he will diagnose your case for you:

Is your nose stopped up?
Is there pain in front of head?
Is your throat dry or sore?
Have you a bad taste mornings?
Is your cough worse at night?
Is your cough worse mornings?
Is your tongue coated?
Is your appetite failing?
Is there pain after eating?
If you get up suddenly are you dizzy?
Do you have hot flashes?
Do you have liver marks?
Do your kidneys trouble you?
Any pain under shoulder blades?
Do you wake up tired?
Are you losing flesh?
Is your strength failing?

DEAFNESS AND HEAD NOISES

If catarrh has extended to the ears, mark the questions below with an X and send in for the free diagnosis.

Is your hearing failing?
Do your ears discharge?
Is the wax dry in the ears?
Are the ears dry and scaly?
Is there a throbbing in ears?
Sounds like steam escaping?
Is there a buzzing sound heard?
Are you gradually getting deaf?
Do you have ringing in the ears?
Roaring like a waterfall in head?
Do you have earache occasionally?
Are there cracking sounds heard?
Ears hurt when you blow the nose?
Hear better some days than others?
Noises in your ears keep you awake?

For this Doctor Copeland's services are free. It means no charge will be made, not a penny will be received. It means no promises to pay—no future obligation is implied or demanded. It means what it says. To one and all it is unequivocally and absolutely free.

YEARS OF TORTURE FROM INDIGESTION AND STOMACH TROUBLE

Mr. L. Burstad, Oneida, Wash., until recently residing at Astoria. "Before my treatment at the Copeland Institute I had not seen a well day in eight years. I had no strength or energy to do anything and

Suffered All the Time.

My stomach was in very bad shape. I had a fair appetite, but nothing I ate agreed with me. Food fermented in the stomach, causing

Gas, Bloating and Belching.

I was troubled with dull headache and dizziness. My skin was very yellow and I looked tired and haggard. I was so weak that the lightest work wore me out completely.

I also

Suffered Terribly With Piles.

I had tried a great many remedies, but only got a little temporary relief, and did not have much faith in any treatment. I had

Read and Heard

so much about the Copeland treatment in these chronic troubles that I concluded to try it. It has made

A New Man

of me. My stomach does not give me any trouble and my piles have been

Completely Cured.

I have gained about six pounds and feel better than I have in years.

I can cheerfully and conscientiously recommend the Copeland treatment to all sufferers.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking, or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Absorbent Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Absorbent Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Absorbent Lozenges than in any of the ordinary charcoal tablets."
