A FORTUNE IN MAY CORN-MAY CORN IS A FORTUNE IN MAY CORN—MAY CORN IS now selling 26 cents per hushel less than it was last year at this time. On account of the greater demand for export and manufacturing purposes, it should be selling considerably above. You never saw such a situation in your life, and those who take advantage of the opportunity offered by the low price of May corn at this time should soon double their money. We predict that May corn will sell for Oue in January and Toc in May. Large capital is not necessary to take advantage of this opportunity. Buy now and stand to make a fortune. \$25 will margin 1250 bushels, 2 cents; \$50 will margin 2500 bushels, and \$100 will margin 2500 Experience on your part is unnecessary. We bushels, and \$100 will margin 5000 bushels. Experience on your part is unnecessary. We will take complete charge of your account and charge but 10 per cent of the profit we make 10 r you. We devote all our time watching corn, and when we say buy May corn, we know what we are talking about and are confident corn will advance in ptice. Now is the time to make a purchase.
