MURDERER IS A BLIND MAN

Husband Is at Bedside of Dying Woman, Who Repents of the Past and Wants to Live Now for Her Children.

WALLACE, Idaho, Feb. 21 .- (Special.)-Incensed by jealousy, John P. Bjerkens, who is totally blind, mortally wounded Mrs. Hugh Smith, of Blickbear, by firing two shots into her breast, and then took his own life by blowing out his brains with a third bullet. The tragedy occurred at his room in a lodging-house of this city. The woman was in the habit of visiting him each week; she missed coming occasionally, and the man grew angry. He received his blindness by a faulty blast in the Standard mine a year ago. He is 35, while she is 30. She has a husband and four children.

The woman, with her husband at bedside, lies at the point of death at Magee's Hospital, and the last report from the physicians was that she was not expected to live until morning. The woman, who says she had been in the habit of going to the man's room at least once a week went to call on him today as usual. She went to his room about 11 o'clock, and at the time the desperate deed was ensoted she was about to leave to catch the up-canyon train to return to her family of four children.

When Mrs. Smith arose to go Bjerkens ing around, said: "Had you known what kopf. Inland Improvement Company, of Deswalked to the door, locked it, and, turn-

During the struggle Bjerkens groped blindly under the bed C. Sullivar covering and at last brought the weapon Wheeler from its hiding place,

When Mrs. Smith saw the revolver she ried: "Jack, don't do it; don't do it!" But it was too late. The next instant the fatal shot was fired. He pressed the gun close to her breast. The bullet entered the left breast near the heart, passing completely through the body and Chase.

The above is as related by the woman reelf, and her story is believed to be. M. Dexter and J. R. Peters. a straightforward one. In addition to this, the unfortunate roman, who is in great pain, between la-

porious breaths, said:

"He had threatened to do such a thing several times, but I was never afraid. I was in the habit of going to his room once a week. I missed last week, and when I came down today he told me there must e some one else that I liked better than n. He expected too much. It seemed to jealousy that caused him to do it. be jealousy that caused him to do it.

"I do not know what my husband will think. I am going to get well. I have lots to live for if I get well, for I have my husband and four little children. If I get well I am glad that Bjerkens is where he is."

CRITICISES LAND AGENT.

Joint Committee Docan't Approve His Business Methods.

SALEM, Or., Feb. 21.—(Special.)—The report of the joint committee appointed to investigate the affairs of the State Land Agent's office criticises the management of the business of the office. Not much that is new or that was not already known was developed by the investigaown was developed by the investiga-n. The report states that State Land cent L. B. Geer did not comply with the law in selecting lieu lands, and justi-fies his failure in that respect on the ground that there was no appropriation for the work, and that he had never been required by the Governor to comply with the law. Among others things, the report

"It is an admitted fact, found in the evidence of W. H. Odell, that he sold base for lieu land selections to private parties during the term of L. B. Geer in parties during the term of L. B. Geer in office amounting to 50,000 or 50,000 acres at from 75 cents to \$1.75 per acre; that he made such sales while occupying the office of L. B. Geer, State Land Agent.

"There is evidence submitted to the effect that, had available timber lands been selected by the state, as required by law, such lands could now be sold for \$80,000 or more."

or more. The report also states that, while oc-cupying a part of the office of the State Land Agent, Odell was acting as attor-ncy for the state in the selection of ney for the state in the selection of swamp lands, and during a part of the time he was commissioned as attorney for the state in the adjudication of miperal base. While in that office he prepared a book of descriptions of lands lost to the state, which book he offered to produce, but afterward declined to do so.

The effect of the proviso in the Hunt Extra special discount on a few oak planos, being a little lighter than the popular shace, and radical reductions on second-hand instruments.

Our prices are always way below those of other dealers. Our progressive business methods, our immense volume of business, which gives us extra factory discounts; our own patented, money-saving shipping devices, all save money on the cost of a plano. Our small-profit policy is widely known and well understood. These enable us to sell planos cheaper than the same grade can be had elsewhere. Price only is lower. Grade and quality, the highest standard always. Our present low pricemaking, however, outdoes even ourselves. We are obliged to do it to reduce the immense accumulation of second-hand planos that during the past month we have taken in exchange for new instruments. They are all thoroughly repaired and in perfect condition, perfectly true in tone, and will serve every purpose for learning the radiments of music. bill is to declare that if a voter casts a blank ballot, or marks both "yes" and "no," or in any other way marks it so that the meaning is uncertain, he shall Under the law as it prevailed before the initiative and referendum amendment went into effect, every defective or blank ballot was counted against the measure submitted to the people. Planos With Defective Cases Reduced.

This is a rare opportunity. Any one securing one of these Hobart M. Cable planos at the discount we are now making will have no reason for dissatisfaction, so far as his plano is concerned. These planos came to us with slight blemishes in the varnish, caused by extreme cold weather while en route from factory, and although the defects are scarcely discernible, we are making a very liberal discount on them. They are this year's latest shipments, and in tone are perfect. At the price no other plano equals them. The Epileptic or Those Having Fits or Falling Sickness Are Never Safe When Alone.

A Remedy Has Been Discovered That Quickly and Permanently Cures This Dangerous Discuse.

Full 16-oz. Bottle Free.

Coming with the suddenness of the light-ning's stroke, epilepay strikes down its victims wherever they may be. The epileptic cannot even go upon the street and feel that he is safe, for he may be stricken down and fail be-

neath the wheels of a car or wagon. A woman residing in a Missouri town was burned to death the other day while preparing dinner. Being attacked spodenly while standing by the stove, she fell across it and was literally socked to death, being unable to make the slightest move or sound. Thousands of accidents in every way as horrible as this have befallen the victims of epilepsy. Dr. F. E. Grant a well-known specialist, has discovered a certain cure for epilepsy, and hundreds have been permanently cured of this dreadful disease by it. Geo. H. Newell, of Burlington, Kan., says in regard to this remarkable remedy: "I was a victim of epilepsy for over twelve years—had three or four fits a week and my mind was giving way. I tried the best physicians, but had given up hope of heling cured. I began taking Dr. Grant's treatment, and felt better within a week. Continued taking the medicine until cured, and have nevel had even a symptom of epilepsy since—now over ten years ago. I can heartily recommend Dr. Grant's remedy, for I know of others beside myself whom he has permanently cured. It is beyond my power to repay the debt of gratitude I owe bim and his medicine, as mine was termed a hopeless case. I can say to all who suffer as I did, do not lose courage, for I am sure that yon can be permanently cured." To prove to all applications that he can cure them. Dr. Grant will send a full 19-oz. bottle of his remarkable discovery ABSOLUTELY FREM. If you are a sufferer, simply send your name and address and the medicine will be sent free. Dr. F. E.
