NAU'S DYSPEPSIA CURE

STOCK NOW ON SALE AT NAU'S PHARMACY.

An Opportunity Is Offered for the Investment of Capital That Will Bring Handsome Returns.

It will be an impossibility to call on all those who desire to invest in this stock, as we expect to close the books March 12. We therefore kindly request those wishing to invest to call at Nau's Pharmacy, Portland Hotel, during the day or evening. This company is incorporated under the laws of Oregon for $200,000. The stock will be sold for $100 a share, payable all at once, or $50 when subscribed and $5 a month until fully paid. Only a limited amount will be sold at present—when this amount is subscribed the secretary has authority to close the books.

The profits on this stock can hardly be estimated. The former owner of this cure started to introduce it 3½ years ago, and on a capital less than $200 did $33,000 in that time. Study out the results of an investment of large capital for manufacturing and advertising, and you will find that this stock will pay a large dividend every year, and the value of stock increase in proportion. There are many reasons why Nau's Dyspepsia Cure will be one of the greatest money-makers.

It is the only cure in the market today for chronic stomach trouble. It has no competition. It has more true merit, and is recommended more from mouth to mouth than any preparation of its kind, and for that reason is selling all over the United States, Canada, etc. Hundreds of testimonial letters and original orders can be seen at the above address, to verify anything that has been said.

The meritorious patent medicines in the market today pay a dividend all the way from 20 per cent to 75 per cent, and stock sold for $100 a share or less cannot be bought for $500 a share. We predict a like success for this stock.

What druggists say:

Rose & Hoskins, Butte, Mont.—Selling more Nau's Dyspepsia Cure than any other on the market.

F. J. Hill Co., Salt Lake, Utah.—Phenomenal success through the state and city. Customers report having effected a cure after failure of many others. They are loud in their praises.

Druehl & Franken, Salt Lake, Utah.—It certainly has merit, as every bottle will sell another.

Ballou, Latimer & Co., Boise, Idaho.—The sale is wonderful and most satisfactory. Never heard of case that was not benefited if not entirely cured.

C. L. Joy & Co., Boise, Idaho.—Most satisfactory patent we have on our shelves. One who tries it will never rest until he has told a friend, and so it goes the rounds.

Smith Drug Co., Anaconda, Mont.—It sells through the recommendation of customers who have used it.

Lee's Pharmacy, Seattle, Wash.—Best remedy we have ever handled. Every one using it makes it his personal business to recommend it to others.

Many more letters like these.

Those that have used it:

Nathan Falk, Boise, Idaho.—Troubled for years. It cured me.

Thomas B. Gess, Boise, Idaho.—Mr. Falk recommended to me; cured me after years' suffering.

E. D. Stair, Lyceum Theater, Detroit, Mich.—Extraordinary stomach remedy. Cured me, cured my brother.

Orin Stair, Grand Rapids, Mich.—Had nervous dyspepsia for years. My brother recommended it to me. I am cured.

Hap Ward, of Ward & Vokes.—The first bottles I bought I never took; gave them to E. D. Stair. He reports a cure, so does his brother. I now am going to take it myself.

These are only a few samples of letters out of the hundreds we have. Shows how it's recommended from one to the other.

The F. Nau Company is controlled by Mr. Frank Nau, president and manager, and Mr. Ed L. Estes, secretary. No large salaries will be paid to the officers. All the profits will be used to make the stock as valuable as any patent remedy on the market.

Checks and remittances can be made payable to Mr. Ed L. Estes, secretary, Sixth and Morrison streets, Portland, Or.

THE F. NAU COMPANY.

ANOTHER BIG PRODUCER

Not a Has Been Nor a Will Be, but a Genuine "Iser."

Mr. L. C. Beckwith is down from Sumpter to visit with his brother, Mr. Beckwith has charge of the work at the Orleans mine, owned by the Golconda Extension Gold Mining Company. He says that they have driven 400 feet of tunnel and crosscuts on the vein. The last 100 feet has been in ore that makes a fine showing. We expect, said Mr. Beckwith, to extend the tunnel and block out the ore. The company has arranged for electric energy and is now selling some stock at the low price of 15 cents per share, to raise the money to install an up-to-date plant for electric hoist, drills and mill, and will be ready to hitch on as soon as the current is delivered, which will not be later than August. This is no longer a prospect with a chance for a mine, as we have opened three veins of ore, all of which will pay to work, and can assure those interested that handsome dividends will soon be on record from the Orleans. The Portland people have been liberal in the past in buying the stock for the reason of its location and close proximity to the many other paying mines in this famous Cracker Creek district, and they may now congratulate themselves for taking a chance as they will reap a big harvest and every one that can spare a little money should not hesitate to at once invest it before the stock goes up another notch. This property is not a has been nor a would be, but a genuine "Iser." The company has contracted with the Union Investment Company, 513 Commercial building, corner Second and Washington streets, for the sale of their treasury stock, where anyone interested can call and see some of the ore I brought down, also maps showing location and other information. I expect to return Sunday evening and push the work of development as rapidly as possible.

Spring

Dress Fabrics

Fabrics of the lighter order are favored by fashion for Spring wear. Veilings, Crepes, Eoliennes, Wire Cloths. A decided innovation is the popularity of Mohair. Clever loom artists have added the charm of beauty, of color and design to this silken and durable wool of the angora goat. In addition to the above we are making a very complete showing of the more staples such as Lansdownes (W. F. Read's), Nuns' Veiling, Cheviots, Broadcloths, Kerseys, Venetians, etc., whose presence here is a matter of course.

New Petticoats

Will enjoy prominent display tomorrow. This most important part of the wardrobe receives an unusual amount of attention here. Hundreds of the new Spring styles are ready for your choosing. The Bulletin Board

THE automobile veil of white or black chiffon with graduated border of ribbon in self or contrasting colors is having a large sale. A similar veil has a clustered border of warp-printed baby ribbon.

—

Embroidered French knots form almost the only ornamentation of some of the prettiest tailor-made stocks, and these knots and embroidered dots are much used in handkerchiefs.

—

The success of the embroidered and appliqued silk glove is assured. Those with self-colored floral, fruit and scroll effects on the back of the hand and on the arm are best. A new four-button length shows a gauntlet effect of embroidery or appliqued lace. This is good in self-colors or in black on white and in white on any color.

—

Deep capes in pelerines and long lace and embroidered collars that accentuate the sloping shoulder effect are to be leaders in such goods.

—

A pique suede, with self-colored stitching, plain points and an English thumb, is one of the latest novelties in women's gloves.

—

The round models in broad lace collars are declared passe. The square or Van Dyke shapes with stole ends are the mode.

—

Real and imitation lace and ramage veils, 18 to 22 inches wide and two yards long in white and black, are becoming popular as a head covering for evening wear. They presage the return of the mantilla.

—

The scarcity of more popular heavy laces is stimulating demand for Irish crochets.
