Fitting eyes properly with glasses is a science. It requires skill and painstaking effort. When you buy a hat or shoes YOU are the judge of the fit. Not so with eye glasses; here you must depend entirely upon the judgment of the optician. If he is incompetent your sight may be ruined. We have made optics a study, not merely a business, and our success is due to the fact that every patient we fit is a permanent advertisement for us. We don't have to experiment. Our new instruments detect the slightest trouble. We relieve the eye strain at once and don't ask you to buy glasses if you your-self can't see an immediate improvement. If you don't need any glasses we tell you so and make NO CHARGE for our services. No fancy prices when you buy, either. If your eyes trouble you, come and see us.

Rathbone, formerly director of posts at Havana, who was convicted of misuse of funds, but was pardoned under the gen-eral amnesty proclamation of President Palma when he assumed office, has made public a statement of his case. This made public a statement of his case. This state-ment was addressed to Senator Platt, of Connecticut, chairman of the committee of Cubas relations. Mr. Rathbone has confectated, chainman of the committee on Cubain relations. Mr. Rathbone has been earneedly urging that action be taken upon his case, and now that Con-gress has adjourned without such action he has decided to make public his state-ment. In it he says: "I was subjected to trial by arbitrary and unusual modes of trial, contrary alike to original laws of Cuba and the funda-mental laws of justice. "The proceedings which led to my con-viction were not a judicial proceeding, but was a special proceeding directed and con-trolled by the Governor of Cuba, who insued instructions and communications to the exigencies of the case. I did not have a fair and impartial trial. "I was convicted of conspiring upon the uncorroborated testimony of a co-conspira-tor. W H Beeven who was a defendant
