BISHOP LAWRENCE'S STUDY OF PHILLIPS BROOKS. A LIFE OF CHANNING & ANNOUNCEMENTS

NO MORE suitable book for Easter could be imagined than Bishop Lawrence's study of "Phillips Brooks," which Houghton, Mifflin & Co. have just published...

colored the proof with the amazing statement, "Barabbas was a ratter." Correcting it, he deemed it wise to see the printer through to a finish in print, and asked for another proof...

The Higher Criticism. A popular, a complete and a truly constructive work under the title and on the subject of "Old Testament Criticism and the Christian Church" is announced for Spring publication by Charles Scribner's Sons...

It is the Higher Criticism controversy in a nutshell and for lay as well as clerical readers, what the Higher Criticism is, in idea and in detail, just what it has accomplished and just what is "left" of the Bible, may be learned from Professor Hayden's pages as they can be nowhere else.

"OLD GRAMMERS' PHILOSOPHY."

Extracts From "Letters From a Self-Made Merchant to His Son."

The lady on the dollar is the only woman that hasn't any sentiment in her make-up. A sis clerk who owes for roses needs a lesson from the wife I want to say right here that there always comes a time to the fellow who blows \$2 at a lick on roses when he thinks how many staple groceries he could have bought with the money.

To marry for money or to marry without money is a crime. There is no real objection to marrying a woman with a fortune, but there is to marrying a fortune with a woman.

While you are at it, there's nothing like picking out a good-looking wife, because even the handsomest woman looks homely sometimes, and so you can get a little variety; but a homely one can only look worse than usual. Beauty is only skin deep, but that's deep enough to satisfy any reasonable man.

I've heard a good deal in my time about the foolishness of hens, but when it comes to right down plumb foolishness, gives a reason every time for the way she struts and stretches and crows and brags about things which he had nothing to do. When the sun rises, you'd think that he was making all the light, instead of all the noise; when the farmer's wife throws the scraps in the henyard, he crows as if he was the provider for the whole farmyard and was asking a blessing on the food; when the rooster crows, he crows, and when the other rooster licks him, he crows, and so he keeps it up straight through the day. He even wakes up during the night, and he crows by general principles. But when you hear from a hen, she's laid an egg, and she doesn't make a great deal of noise about it either.

Some men go through life on the sarsaparilla theory that they've got to give a hundred doses of talk about themselves for every dollar which they take in; and that's a pretty good theory when you are getting a dollar for 10 cents' worth of ingredients. But a man who's giving a dollar's worth of himself for 9 cents doesn't need to throw in any explanations.

Most men get crosseyed when they come home to see themselves up, and see an angel instead of what they're trying to look at. There's nothing that tells the truth to a woman like a mirror, or that lies harder to a man.

Hot air can take a balloon up a long ways, but it can't keep it there. And when a fellow's turning flip-flop up among the clouds, he's better off to have the farmers gawping at him. But in the end there always comes a time when the parachute falls to work. I don't know anything that's quite so dead as a man who's fallen 3000 or 4000 feet off the edge of a cloud.

The path isn't the shortest way to the top, but it's usually the safest way. Easy money never interest; easy borrowed dollars pays away.

Whenever any one offers to let you in on the ground floor, it's pretty safe to take the elevator to the roof earlier to see if there's no alarm clock in the room. There's no alarm clock in the room, and there's nothing breeds work in an office like a busy boss.

Some fellows can only see those above them, and others can only see those under them, but a good man is crosseyed and can see both ends at once.

Be slow to hire and quick to fire. A discharged clerk in the office is like a splinter in the thumb—a center of soreness.

"Reflections of a Lonely Man." The genial philosophy which you are before an open fire, and discourses amid wreaths of tobacco smoke on anything that comes to his mind, has always been a favorite with readers. Donald G. Mitchell was the first to hit upon this happy style, and many volumes of the same lines have followed. The latest volume, "A Coin of the School of Thought," as it has been called, prefers to conceal his identity behind the elusive initial, and "The Reflections of a Lonely Man" is a modest "A. C. M." on its title-page. Who else he may be, his publishers assert that he is a most delightful discovery and his book a very entertaining and original little volume. The "Lonely Man" is a treat to mingle humor and philosophy, and he is concerned with matters of immediate, every-day interest. Especially will his reference to the much abused habit of smoking appeal to masculine readers, as many new and ingenious arguments are advanced which will doubtless be of much service to those of us who have exhausted our own supply of conducting the side of an endless debate.

A Life of Channing.

The present revival of interest in "William Ellery Channing" makes very timely the biography of him by John W. Chadwick (Houghton, Mifflin & Co.) Mr. Chadwick's "Theodore Parker" will be long remembered as a biography of vital interest and of lasting value. The treatment of the life of Channing is similar, and will engage the attention of readers and students of the anti-slavery conflict. Channing's relation to this subject is abundantly in dramatic interest and had an individuality which is carefully brought out. Of more immediate importance is his prophetic attitude with reference to the liberality of the sects and the problems of the future, and his philanthropy. The main intention is to exhibit Channing's vital criticism of our present tendencies and his encouragement to our higher Channingism. The book is a contribution to the Nation, the New York Times, and the Christian Register have given him a host of friends among readers.

Was Barabbas a Publisher?

The recent news of the arrest at Budapest of a notorious gang of thieves, whose chief turned out to be a publisher, recalls the story of George Augustus Sala's presenting a Bible to a certain London publisher who had handled some of his books. The publisher was at a loss to understand just why he should have been singled out for this peculiar gift, until some time after he discovered a slight change in the wording of a certain passage in the phrase, "Now, Barabbas was a robber," was made to read "Barabbas was a publisher." When Miss Corbett's "Barabbas" appeared with this change in the page, a reviewer, quoting the words "Barabbas was a publisher," evidently indistinctly written, re-
