

PRIEST IN PRISON

Accused of the Murder of His Host's Sister.

WAS TRAILED BY BLOODHOUNDS

Father Reichlin Returns to Find His Beautiful Sister Dead and Suspicion Pointing to His Guest—Town in Indignation.

ELYRIA, O., May 1.—Rev. Ferdinand Waiser, assistant pastor of the Church of the Sacred Heart of Toledo, lies in the County Jail here tonight, charged with the murder of Miss Agatha Reichlin, sister of Rev. Charles Reichlin, pastor of St. Joseph's Catholic Church at Lorain, O. It is charged by the authorities that Father Waiser, who was a guest at the home of the latter, entered the young woman's room at the parsonage Tuesday night, during the absence of Rev. Charles Reichlin, and crushed her head with a big paving stone.

Bloodhounds were taken to the scene of the crime early today and given the scent of the murderer, and they persistently led the officers to the room occupied by Father Waiser at the Reichlin home on the night of the murder. Later they were struck another scent and went directly to St. Joseph's Hospital, where Father Waiser spent last night. The priest was taken into custody at the hospital and brought to the County Jail in this city. The officers admit that the evidence against the priest is purely circumstantial, but it is said the chain is unusually strong.

While the feeling was very strong against the priest at Lorain today and a big crowd gathered when the officers boarded an electric car with their prisoner on their way to the County Jail here, there was no demonstration against the priest.

Father Waiser, when seen by a reporter in his cell tonight and asked for a statement, said:

"All I have to say is that I am not guilty of any crime. I am innocent, and say that with a clear conscience."

Protests His Innocence.

"I am entirely blameless of any crime. There is an outrageous proceeding and a disgrace. It is a disgrace to the city and to the county. I am as innocent of the crime as a babe in its cradle. First, they had me tell my story, and I told it over and over again to them. Why did they not arrest Casimir Reichlin, who was also in the house? If I had been guilty of such a crime, I would have flown from this place and gone to some place of hiding. If a man is guilty of such a crime, it can be seen in the eye and face. Conscience tells its story on the face. My conscience is perfectly clear, and the end of this will show that I am entirely innocent. All will come out right in the end."

"There is a feeling against me, I believe, because I am a priest. There is always such a feeling. This is awful to be placed in a place of confinement. I have a little child with an eye glistening with moisture."

The C. P. P.'s, with headquarters at Chesham, Ohio, which I am a member of," continued the priest, "will go my bond for \$50,000, if necessary."

Arrested and Acquitted Before.

"Yes, I have been arrested before—it was in Clinton, Mo., during the A. P. A. Another party named had adopted a boy, and the A. P. A. had us arrested on the charge of cruelty and kidnapping the boy. We were discharged, and the complainants were severely lectured, and had to leave the court. This case will turn out the same way."

"It is stated that on the night of the murder Casimir Reichlin went out and got a jug of liquor at 1 o'clock in the morning. Is that true?" the prisoner was asked.

"No, that is not true. I will say that I sent him out myself, but it was between 2 and 3 o'clock in the morning. After the crime had been discovered. When men are nervous, as such an event must make any man, a stimulant is needed. I do not deny that I sent him for it."

Girl's Brother Thinks Him Innocent.

Rev. C. Reichlin, brother of the dead girl, expressed himself as being much more increased at the advancement of the thought that Rev. Father Waiser was under suspicion as the murderer of his sister. He says that the impression that the dogs were not worked according to their own instincts.

Casimir Reichlin, the brother, who was in the house when the murder was committed, said he would not believe that Waiser was as innocent as himself. Both brothers are apparently of the conviction that there is not a single bit of evidence which would show that the guilt was on Father Waiser.

Mayor King, of Lorain, expressed himself as feeling impelled to take the step he did in causing the arrest of Father Waiser, partly because of the feeling against the priest after the dogs had followed their scent to him.

The Precious Blood Fathers have engaged F. G. Johnson, an eminent criminal lawyer, as counsel for Waiser.

Another Suspect Arrested.

A man arrested here last night for carrying concealed weapons is now held on suspicion. His shoes were covered with blotches that a physician pronounced bloodstains.

ALL SUFFER ALIKE.

Many Buildings Under Construction Not for Capitalists.

PORTLAND, April 27.—(To the Editor.)—The question of labor and capital, about which so much is said and written at the present time, requires much thought before one should make up his mind as to what is the proper thing to do. There are many sides to this question, but few seem to be able to see more than one or two of them.

The unions' cry here is: "The capitalists are trying to break up our unions." The builders, not capitalists, say: "We want the privilege of hiring whom we choose, be he union or nonunion." With an offer from both sides to arbitrate the wage question, it seems to an outsider that the other questions could be allowed to adjust themselves.

Attempts of the unions to say that an employer must hire union men or no one, put them in the position of dictators, and such a demand, if acceded to, would make a labor trust larger and more dangerous than any other trust on the face of the earth. It seems to the writer that the unions are unwise in making this execution. There is an old saying: "You can catch more flies with molasses than with vinegar."

In the present strike here, who are the capitalists that they, the unions, are fighting? For they all say it is capital against labor. Most of the buildings now going on here consist of dwellings being built by individuals for their own use, or for sale to men who work on salary or by the day. Are they capitalists? Are our builders capitalists? It is safe to say, no. Few buildings are being constructed purely for rent. There are the capitalists who are being fought? Isn't it mostly cheap talk.

It is asserted that carpenters get a minimum of \$4 per day of eight hours in Seattle. Perhaps the cost of living, including rent, is higher there than here. Certainly rents are higher. In the boom towns in Alaska, the minimum is probably three times higher than in Seattle. What makes this difference? Demand for labor, cost

of living, and a flush money market. When the demand for an article exceeds the supply, prices go up. So with labor. You cannot judge one locality by another. A man may be worth \$4 per day in Seattle, and not more than \$3 here, or at times, vice versa. Men are willing to pay large wages, when situated so that the labor is worth to them the larger pay. People pay liberally when they can see a prospect for large gains. Few business men put up for rent pay largely. The most of them show very moderate returns to the investor, above expenses and depreciation. It's hard to find men who will look at these matters fairly, from all sides. The correct way is to try and put yourself in the other fellow's place, and think what you would do under the same circumstances.

Some "arbitrate," and cite, as an example, the arbitration of the anthracite coal miners' strike. But there are some things you cannot arbitrate. For instance, you cannot arbitrate a man's liberty, nor his right to employ and discharge whom he pleases—union or nonunion. The arbitrators in the coal miners' strike, did not

KING EDWARD'S NIECE MAY WED GERMAN PRINCE.

PRINCESS MARGARET OF CONNAUGHT.

BERLIN, May 2.—The Morgen Post today declares on the best authority, that an engagement will shortly be arranged between the Crown Prince Frederick William and Princess Margaret, eldest daughter of the Duke of Connaught, and niece of King Edward.

The paper also announces that Prince Frederick Henry, heir to the Prince Regent of Brunswick, will shortly become engaged to Princess Alice, another niece of King Edward, and eldest daughter of the late Prince Leopold, Duke of Albany.

The choice of an English Princess for the Crown Prince, the Post asserts, will be most unpopular, and Margaret will have to face the same animosity which the late Dowager Empress Frederick had to encounter.

Princess Margaret was born January 15, 1882, while Princess Alice was born a year later, February 25, 1883. The Princess Alice is an orphan.

TO DESTROY WHOLE CITY

PLANS OF MACEDONIAN REBELS ARE REVEALED.

They Had Mined All Salonica and Had Bomb Factory—Turkey Accuses Bulgaria of Crime.

GERMAN CONSUL INJURED.

Narrow Escape at Salonica Explosion—Many Killed and Wounded.

CONSTANTINOPLE, May 2.—The Acting German Consul at Salonica had a narrow escape at the time of the dynamite explosion which destroyed the Ottoman Bank there. He was at an adjoining club, which was wrecked by the explosion. The Consul extricated himself, and was only slightly injured.

The German Charge d'Affaires here has made vigorous representations to the Porte on the subject and is also holding the government responsible for the damage done to the German school at Salonica. The Consul at Salonica reports that 50 persons were killed or wounded on both sides as a result of the bombthrowing, including three Germans and four Bulgarians wounded and one killed.

Turkish official circles are inclined to advocate inflicting a sharp lesson on Bulgaria, which is considered to be responsible for the outrage, but they fear the powers would not permit it.

There have been no disturbances at Salonica since April 30.

Austria Sends Warships.

VIENNA, May 2.—An Austrian squadron consisting of three ships arrived at Salonica yesterday.

NEW MAP OF ALASKA.

Government Publishes First Contour Map With Recent Data.

OREGONIAN NEWS BUREAU, Washington, April 30.—A new map of Alaska on a scale of 40 miles to the inch has just been completed by the United States Geological Survey. It is the first contour map of Alaska yet made, the relief being shown by contour lines representing vertical intervals of 100 feet. In the construction of the map, which was prepared by E. C. Barnard, topographer, all available information was used. The maps of the United States Coast and Geodetic Survey, covering Southeastern Alaska and the coast were extensively utilized. Within the coast line the map is based principally on surveys and reconnaissance maps made by the Geological Survey. Other sources of information were the maps of the Army, the Navy, the Revenue Marine Service, and the British government. After all the authoritative data had been used there still remained large areas where the topographic features had to be based upon such general information as could be obtained.

The map will be printed in colors, the streams, lakes and glaciers being shown in blue, the culture features in black, and the contour lines in brown.

The characteristic features of Alaska topography are well shown by the map. At a glance one sees the deep, river-like gorges in the southeastern part; the bold, almost precipitous front presented to the North Pacific Ocean by the St. Elias range; the deep interior valleys, scarcely more than a thousand feet above the sea; the Alaskan range, with its culminating peak, Mount McKinley, 29,000 feet in altitude; the great valley of the Yukon, with its tundra sloping to Behring Sea; the Endicott range, dividing the Yukon Valley from the tundras sloping to the Arctic Ocean; and the great horn of the Aleutian Islands, reaching at Attu Island to the other side of the world, in longitude 172 degrees east, almost the longitude of Auckland, New Zealand, the latitude 53 degrees north, being about the same as that of Liverpool.

SCHOOL IS ALL RIGHT.

Chemawa Establishment Will Not Be Enlarged.

OREGONIAN NEWS BUREAU, Washington, April 26.—(Special.)—It is the opinion of Commissioner Jones, of the Indian Office, that the Chemawa Indian School has reached its full development, and that further attempts at extending either the plant, or the course of study, should not be made. The commissioner regards the Salem School as one of the best equipped in the country and that it does very efficient work. To increase the number of pupils would be to deteriorate the efficiency of the institution, as it would cut down the amount of personal attention that could be given to the individual pupil, and individual instruction is most essential in the education of the Indian youth. Therefore, says he, all future efforts should be directed at maintaining the school at its present size, maintaining the present attendance, and keeping the plant in good repair. The buildings for the most part, and require but slight repairs, such as can be made from the contingent fund.

At the recent session of Congress Commissioner Jones recommended against the appropriation of money for a new dormitory and other buildings at Salem, as proposed in amendments of Senator Mitchell. He said there was no necessity for the expenditure, and the commissioner told the committee that he wanted to maintain the Chemawa School as it stands today, the finest reservation school in the Northwest; that if appropriations for new buildings were to be made, they should go to localities where there is an urgent need for new accommodations.

A ROOSEVELT DEMOCRAT

He Lives in Kentucky and There Are Many Like Him.

Louisville Post.

Judge Sims, of Bowling Green, one of the ablest lawyers in the state, one of the most consistent supporters of what was once known as the principles of Jeffersonian Democracy, who refused to be arrayed against the financial integrity of the country in 1896, and declined to stand with one faction of the Democratic party in the state for the overthrow of the ballot box—announces that he is a Democrat still, but a "Roosevelt Democrat."

Between the Cleveland Democrats of 1892 and 1896 and the Roosevelt Democrats of 1896 there is very little difference. President Roosevelt stands for the single gold standard; for a sound system of currency; for merit as the test for public service; for the Jeffersonian principles of territorial expansion; for the protection property rights of individuals and of corporations; for the protection of personal rights whether the persons have or have not property; for the encouragement of industry, but for the restriction of power abused by monopoly.

One might take up the first inaugural address of Thomas Jefferson and, applying its requirements to the Administration of President Roosevelt, decide that, allowing for the changed conditions following 100 years of territorial expansion and industrial progress, the Administration of 1896 is following in the footsteps of 1800.

Roosevelt Democrats are supporting the President not because of any party loyalty, but because of their devotion to principles. They are supporting him because they believe in his policy, or, at least, because that best promotes the welfare of the whole country. They support him because his Administration is not a sectional but a National Administration.

They support him because, reviewing his recommendations and influence that he has had in Congress, they believe that under his direction it will be possible to restrict within reasonable bounds the power of aggregated capital without destroying the benefits that come from the principle of co-operation applied to great industrial enterprises.

THE DAY'S DEATH ROLL.

Death of Charles Hardy.

CHICAGO, May 2.—Charles Marvin Hardy, for many years a prominent lawyer in Chicago, is dead of heart disease, aged 69 years.

Atlanta Banker Dies in New York.

NEW YORK, May 2.—James Swann, a member of the cotton brokerage house of Inman & Swann, of this city, and president of the Atlanta Ga., National Bank, is dead at the Buckingham Hotel here. The body will be taken to Atlanta for interment.

Waiting for Men From Puget Sound.

ASTORIA, May 2.—(Special.)—The four-masted schooner Eldorado, with a cargo of lumber for China, which arrived down the river today, will not be able to get to sea for a couple of days, as her crew is not complete and men are to be brought here for her from Puget Sound.

A Tip to Bridegrooms.

Philadelphia Record.

The bridegroom's eyes were inflamed. He was pale and nervous. Plainly at the dinner which he had given to his ushers the night before he had had too much to drink. Now he had no appetite. He regarded the breakfast card with disgust. But the intelligent waiter said: "A tomat-

Mr. Rockefeller says his sailing on the Pacific Coast has done a world of good. He claims he is a new man, and that golf fits it.

GOADED TO MURDER.

Negro Waiter Takes Blood Revenge on New York Policeman.

NEW YORK, May 2.—Policeman E. J. Peters was shot and killed tonight in a saloon known as the Black and Tan at Sixth Avenue and Third Street, by Jefferson Sanders, a negro, ex-convict. Sanders also shot Sergeant Thomas Gilhooly, who will die, and Policeman Joseph Russo, who will recover.

The policeman, according to many witnesses, spent the greater part of the night in the saloon in which Sanders is employed as a waiter. According to witnesses, the three policemen teased the negro until a fight started, when they seized him and pounded him on the head with the butt ends of their pistols. Sanders broke away, and drawing a pistol, fired and killed Peters. Another policeman ran from the street and attempted to arrest the negro when he opened fire again, hitting Gilhooly and Russo, both of whom ran to the door and sank to the sidewalk. When his pistol was empty Sanders was clubbed in submission by other policemen who arrived on the scene.

All the witnesses whom the police succeeded in finding agreed that the three officers began the trouble and the first blow was struck by the policeman who ran from the street and attempted to arrest the negro when he opened fire again, hitting Gilhooly and Russo, both of whom ran to the door and sank to the sidewalk. When his pistol was empty Sanders was clubbed in submission by other policemen who arrived on the scene.

Postal Collision on Railroad.

SOUTH NORWALK, Conn., May 2.—Two dead and five seriously injured in the result of a collision between a westbound passenger train and a freight train just east of the New York, New Haven & Hartford station early this evening.

The dead: Eugene Cavanaugh, Baltimore. Unknown man, laborer.

The injured: George A. Davis, Stamford, Conn.; R. Sheehan, Bridgeport; both legs broken; M. C. Orden, Bridgeport, ankle crushed; T. F. Andrews; Harry Seaton, slight.

Shaw Is Going South.

WASHINGTON, May 2.—Secretary Shaw, who has returned from Iowa, will leave Washington tomorrow for a visit to New Orleans and the State of Texas. He expects to be gone ten days.

Test for Yourself the Wonderful Curative Properties of Swamp-Root

To Prove What Swamp-Root, the World-Famous Kidney, Liver and Bladder Remedy, Will Do for YOU, Every Reader of The Oregonian May Have a Sample Bottle FREE.

Gentlemen—Some two years ago I was so run down that I lacked strength, had no appetite, and could not sleep nights. Sometimes it seemed as though my back would break in two after stooping. I had to get up many times during the night to urinate, and go often through the day. After having the best physicians prescribe for me without relief, I decided from my symptoms that the medicine I needed was Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. After trying a sample bottle with good results, I purchased six bottles of the regular size, and after taking them was entirely cured. Swamp-Root is a wonderful remedy when a man is not feeling well, after exposure or loss of sleep and irregular meals. It is also a great medicine to tone up a man's system. Other members of the police force are using and recommending Swamp-Root. They, like myself, cannot say too much in praise of this great remedy.

The officers (whose signatures accompany this letter), as well as myself, thank you for the good you have accomplished in the compounding of Swamp-Root.

We remain, yours very truly, William Moore, Chief of Police. John W. Heath, Patrolman.

If you are sick or "feel badly," begin taking the famous new discovery, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone. Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Make you poorer after through the day and obliges you to get up many times during the night. EDITORIAL NOTICE.—Swamp-Root, the great Kidney, Liver and Bladder remedy, is so remarkably successful that a special arrangement has been made by which all of our readers who have not already tried it may have a sample bottle sent absolutely free by mail. Also a book telling all about kidney and bladder troubles and containing many of the thousands upon thousands of testimonial letters received from men and women cured by Swamp-Root. In writing, be sure and mention that you read this generous offer in The Portland Sunday Oregonian when sending your address to Dr. Kilmer & Co., Binghamton, N. Y. If you are already convinced that Swamp-Root is what you need, you can purchase the regular 50-cent and \$1 size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root—Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

"Washington" Ice Cream

MADE FROM PURE CREAM. Shipments by Express a Specialty. THE WASHINGTON CREAMERY COMPANY. PORTLAND, OREGON

to omelette, sir. I insist on bringing you a tomato omelette." And this omelette had, on its arrival, a marvelous effect on the young man. The first mouthful, with its sharp, wholesome taste, gave him an appetite. His aspect brightened. He ate heartily, and soon the omelette was all gone. "By Jove, George, I feel like a new man," he said to the waiter. "It was the tomato that did it sir," the other answered. "There is nothing like tomato as a tonic—as a stimulant. They who have been obliged to drink too much the night before should always take tomato for their breakfast. It is, believe me, much better than a cocktail. The best way to take it is in an omelette, for then you get the substance of the egg. For a bad case, though, I advise tomato juice, highly seasoned with tabasco, salt and red pepper. This would put you on your feet even if you were suffering from the effects of six quarts of champagne."

ABOLITION OF THE CANTEN

What Major Blunt Says of the Effect at Rock Island Arsenal.

From a report by Major Stanhope E. Blunt. The post exchange, occupying rooms in the barracks, is attractively fitted up, and upon the occasion of some inspections I was very much impressed with the appearance of the men, in particular with their orderly and quiet deportment. I found them sitting around tables playing games of checkers, dominoes, etc., and, with a pipe and a glass of beer, taking the same rational and respectable enjoyment in life that a man does in his club or in his own house. After a hot day's work very many of these men desire their glass of beer, and to obtain it now go about two miles to some saloon, and, having been at such trouble to get it, frequently take more than the one or two glasses which formed their usual custom at the post exchange. The total amount of drunkenness has recently been great, and in comparison with its almost total absence prior to last February the contrast appears very marked. Since the middle of last February, when the general order went into effect, there have been 11 court-martial cases in which former officers of the post exchange were found guilty of drunkenness or other offense incident thereto, as compared with only 13 trials during the five years prior to last February. The post exchange, with its sale of beer and light wines under the regulations in force to last February, was, in my opinion, the greatest influence for the promotion of sobriety and discipline

Ayer's Sarsaparilla

If you feel run down, are easily tired, if your nerves are weak and your blood is thin, then begin to take the good old standard family medicine—Ayer's Sarsaparilla. If constipated, use Ayer's Pills. Two grand family medicines. Sold for 60 years.

Dr. W. NORTON DAVIS & CO. 145 1/2 SIXTH STREET. Cor. ALDER PORTLAND.
