LAYS CRIME TO FATHER. Startling Confession of Boy Now in Jail With Parent.

CHICAGO, May 2.-A startling confes sion was made to Inspector Wheeler today at the West Chlcago police station by Julius Wiltrax, when the latter declared that his father, John Wiltrax, had shot and killed 6-year-old Paul Paszkowski. For nearly a week the Wiltrax hoy has been in the custody of the police, as has his father, whom he now accuses, and also his mother. The circumstantial evidence was so strong that a charge of murder was preferred against the man. The family maintained a stolid silence, notwith standing the repeated "Sweatings" they were put to. They at all times denied knowledge of the crime. Julius Wiltrax at one time, while being questioned, accused his parents with killing the boy. Later, however, he denied the accusation. This afternoon he was again subjected to the "sweatbox," and, after being que tioned, at length broke down. He said:

"Monday morning I was awakened be-tween 7 and 8 o'clock by the sound of a revolver shot. I jumped out of bed and ran to the kitchen, from where the sound came. The kitchen is in the rear of the saloon. There I saw Paul on the floor, with father standing over him. He had a smoking revolver in his hand. While I stood there father opened a door in the floor and let Paul fall into the basement. I don't know when the body was re-moved. Mother told me afterward that father had shot Paul because he had

broken the wagon."
Inspector Wheeler was satisfied with the boy's statements, and did not press him for more details. It is the belief of the inspector that the body of the boy lay in the basement several days before it was

ELDORADO, Kan., May 9.-The Morriever tried in Kansas. Jessie Morrison and Chara Wiley were in love with Olin Cas-tle, a clerk in a racket store, where Miss Morrison also was employed. Within a week after Castle married Miss Wiley week after Castle married Miss Wiley the women fought in Mrs. Castle's home with a razor, Mrs. Castle being slashed in a horrible manner, and Miss Morrison being cut badly. Miss Morrison, who at her three trials alleged self-defense, as-serted that Mrs. Castle had called her into the house and started a quarrel over a letter said to have been received by Castle from Miss Morrison. At the first trial the jury disagreed; the verdict of the second trial, which resulted in a five

years' sentence, was reversed.

CUBA PLAYING FOR GAIN

AMERICAN TREATIES HELD UP TO HELP RECIPROCITY.

Congress Feels That Promise of Mc Kinley Should Be Kept-Palma's Influence All Powerful.

HAVANA, May 9.-The disposition to delay action on the pending treaties, coupled with the fact that the Senate foreign relations committee still shows no indication of reporting the coaling and naval stations agreement made February 15. between President Roosevelt and Pres ident Palma, is causing increasing doubt as to whether all or any of the matters will be disposed of before the close of the present session of Congress. Congress is likely to adjourn within six weeks. The next session will begin in November, simultaneously with the spe

cial reciprocity convention of the United States.

President Palma is anxious to concluall treaties as early as possible, but he takes occasion to consult with Senators and Representatives at all stages, with the result that numerous objections and pretexts for delay are made. No real question is pending in connection with the other treaties. The placing of the Platt amendment in the form of a treaty is Cuba's own proposition, made with the purpose of taking the Platt requirements out of the constitution and out of pol-itics. The treaty conceding the Isle of Pines to Cuba causes no objection here. The only treaty in which there is room for discussion is that for carrying out the agreement of the Presidents, referring

the agreement of the Presidents, referring to the leasing of coaling and naval stations, which is strictly in accordance with the Platt amendment.

Some persons favor delay, now that Cuba is not bound to yield the concessions required by the Platt amendment, unless the United States grants reciprocity. This contention is based upon the allocation that President McKinley del allegation that President McKinley definitely promised reciprocity. It is also held that, since the United States is re-tarding reciprocity, Cuba has equal reason to retard other matters. Others assume that the amount of lands described in the neval and coaling agreements is unwarrantedly large. The leaders gen-erally, although disinclined to discuss the matter, appear to agree that there is no necessity for haste; that whatever Cuba gains will be through a waiting policy, Some Senators and Representatives who, as members of the constitutional conven-

as members of the constitutional conven-tion opposed the Platt amendment, say it would be inconsistent for the amend-ment to be accepted now.

Another potent reason for delay is found in the fact that elections for half of the members of Congress and all mu-nicipal officers are to be held in Decemnicipal officers are to be need in December, and polliticans are not inclined to speak in favor of carrying out the provisions of the Platt amendment during the campaign, and especially as it is anticipated that the House, as well as the Senate, will be required to act in authorizing the leasing of lands to a foreign government. President Palma's influence is generally

felt to be strong enough, if determinedly exercised, to carry these matters through the House, as well as the Senate. RUN ON A BUFFALO BANK False Report of a Defalcation Ex-

BUFFALO, N. Y., May 3.—There was a run on the Fidelity Trust Company today. The board of trustees of the institution has issued a statement which allides to rumors current during the last week that there was a large deficit in one of the banks.

On Thursday and Friday the rumor took the form of a statement that a large defalcation existed. It was said that the president had used \$400,000 of the money. The results thus far have been the with-drawal of some accounts, aggregating possibly 100,000. The bank has offered a reward for information disclosing the name of the person originating the rumor. RELIEF FOR PHILIPPINES Edna May, Miss "Billie" Burke, Marie Studbolme, Reginald Somerville and G. P. Commissioner Ide Says Removal of Tariff Comes First.

WASHINGTON, May 9 .- Henry C. Ide, of the Philippine Commission, in a statenent concerning the Philippines today, said:

said:
"I should say that the greatest heip that Congress can give us would be to relieve us of the heavy burdens imposed by the Dingley tariff from the exports from the islands to the United States. It is impossible for the manufacturer of cigars to send his goods to the United States without paying as a duty tariff amounting to 75 per cent of the Dingley, or 75 per cent of 44.56 per pound and 25 per cent ad valorem in addition."

The restriction which prevents the acquisition of more than 2500 acres of land

guisttion of more than 200 acres of land by one corporation, he says, has prevented the establishment of sugar industries. He thinks the limit should be 25,000 acres, in order to secure the opening of large plantations. Of the friar question, Mr. Ide

said: "The purpose of the insular govern ment is to acquire the land belonging to the friars and then to sell it to the pres-ent occupants on long terms of payment. The friars are, in a sense, noaresident owners, very much as are the landlords of Ireland, and the tenants hold that the difficulties are quite like those existing in Ireland. They are very much aggravated by the fact that the friars have exercised constitutional power."
"To what extent has the establishment

ndent Catholic church in the

or an independent Catholic church in the Philippines progressed?"

"It is impossible for an outsider to determine just how far that movement has progressed. On the surface, the schism would seem to be quite important, but the Catholic church is an institution that time counts very little with. The insular govcounts very little with. The insular gov-ernment takes no part in those controver-sies, and has no views except to maintain order. It is possible that had the vatican been able to meet Governor Taft's prop-osition for the sale of the friars' lands and withdrawal of the friars from the isl-ands, this achism might have been avoided."
