ARTISTIC PAGEANT AT OSAKA EX-HIBITION.

Commissioner Dosch Describes Ceremonies of Dedication by Emperor of Japan-Children in Force,

OSAKA, Japan, April 21.-(Special Correspondence.)—Yesterday Osaka was in gala array and she did herself proud, for it was the "formai" opening of the Fifth National Industrial Exhibition by the Emperor in person. The decorations of the principal streets, through which the Em-peror and suite passed, the triumphal arches at the railway station, and in front of the main entrance to the exhibition grounds were not only elaborate but very ndsome and artistic. The day was de clared a boliday and, if there is anything the Japanese enjoy it is a boliday. Hence the population of the city containing a million of people was doubled by outside visitors, just to see the parade and the much-beloved Emperor, for the Exhibition

grounds proper were closed to all visitors.

The distance from Umeda station to the main entrance of the exhibition is three and one-half miles, and this entire distance was finned with school children in double and quadrupse ranks. The boys, dressed in their nest blue uniform, on one side and on the other side the girls, attired in their new maroon "hakamas." a reform dress recently adopted, which is in the snape of a petticoat or rainy-day skirt, to take the place, in part at least, of the open "kimono." As the procession pussed through this living lane, all standing at attention, with eyes riveted on every carriage and jinrikahu, these thousands of bright and happy faces made a most pleas-ing and to me a touching picture. Every cross-street was thronged with people and the four rivers and canals we have to cross on bridges were filled with jinks and campaus for half a mile up and down stream, loaded with thousands upon thou sands of natives, all seemingly contented, just to see the carriage containing their ruler. This immense congregation of children may also be taken as an indication that, unlike some other nations, the popu-lation of Japan is not decreasing or stationary, and as there is no room for more, they must find homes elsewhere. There-fore here is a point to be considered by those who make sociology and migrations of nations a study.

The arrangement for the cerem

which had all been made by the Exhibi-tion Auxiliary Association, was most per-fect and there was not a hitch in the entire proceedings. The procession entered through the immense triumphal arch and proceeded to the ceremonial hall, which in itself was a bower of flowers, bunting and flags. In the center was a raised platform on which stood the magnificent throne in gold and scarlet. The guests were rapidly distributed by the ushers, we few commissioners being placed with the foreign min-isters, who had all come down from Tokyo, to the right of the throne, which gave us a perfect view of the vast assem-blage. All diplomats and attaches, naval and military officers were in gorgeous gold embroidered uniforms of many nations. We received the Emperor standing as he walked to the throne, and paid us another high compliment by also remaining stand-ing, facing the audience. Prince Kaw-in, president of the exhibition, then delivered a short address, to which his Majesty responded as follows, the entire assemblage bowing low and remaining in that attitude until he had concluded:

The completion of the Fifth Domestic Industrial Exhibition having been announced, we now perform the opening ceremony in person. We are pleased to hear that the number of goods exhibited is double that on the last occasion and an advance in the art of manufacturing the goods will undoubtedly be noticeable. In addition foreign manufactures and produse are displayed, which is entirely unpre-cedented. This will largely benefit the

"You, our officials and people, should cooperate more than ever before, and en-deavor to manifest the national glery and assist in the progress of civilization

The Emperor then proceeded to the front plazza of the Fine Art Building, flanked the troops. The Imperial Band first played the state of the state.

It is stated that an investigation or the alleged attempted bribery is being demanded by persons in different parts of the state. on either side by the guests, to review nial Exposition March." I had given the band a band score on its visit here six weeks ago. The peculiar "marchy" swing of this march seemed to give buoyancy and elasticity to the step and lend dignity to the bearing of the troops. Altogether the review of this entire garrison was a brilliant success.

After its conclusion, the Emperer re-

turned to Matko, and we attended a garturned to Maiko, and we attended a gar-den party given by his Excellency C. Ta-kusaki, governor of Osaka-fu. In the even-ing the Hon. T. Tsukuhara, Mayor of Osaka, gave a banquet to 2000 guests, in all of which we participated, special spaces being reserved for foreigners. After this we attended a special geisha dance, in which 48 maileo (musicians) and 50 of the best geisha (dancing giris) of Japan took part, the whole concluding with brilliafit ireworks.
Fortunately the director of the weather

bureau was very kind to us, for up to the evening before it had rained hard all week and we foured the ceremonies would have to be postponed, but yesterday it was ideal weather, though, alas, today, the rain is with us again.

It may be considered that this exhibi-

tion is now inunched-as had already been conceded—on a successful career, and no one will question the commercial benefits accruing, not only foreign exhibitors, HENRY E. DOSCH, Commissioner. accruing, noe only to Japan but to all

BANK CASHIER MISSING.

Experts Find His Accounts Short About \$80,000.

SOUTHPORT, Conn., May 16.—A warrant was issued tonight for the arrest of Oliver T. Sherwood, cashler of the Southport National Bank and son of E. R. Sherwood, president of the bank, who disappeared from here last Thursday. Sherwood is charged with the defalcation of between \$50,000 and \$50,000 of the bank's funds. Because of the disappearance of Sherwood a meeting of the directors of the bank was held here, and Frank Sherwood, a brother of the missing cashler. wood, a brother of the missing cashler, was elected to fill his position. Experts were then called in and an examination of the books made, which resulted in the discovery of the shortage. Sherwood was president of the Wilbur Camp Mining Company, of Colorado, and the executor of a number of estates in this county. It is feared that the mining company and

the estates may have suffered loss also.
Friends of Sherwood say his disappearance was brought about by insanity induced by overwork. The bank officials are authority for the statement that the books show evidence that the overwork was due to his fear of discovery and an attempt to fix the books so that the shortage might not be discovered.

MACHINE NOT LOADED.

Dynamiters Box on Steamer Would

Not Have Exploded. CHICAGO, May 18.—Destruction of life or property was never intended by the "maker of the infernal machine" on the wilarf of the steamer Umbria in New wharf of the steamer Umbria in New York, according to a statement made to-day by Detective Sergeant Carey, of New York. He also said that Russell, who made the device, did not live in Chicago. Detective Sergeant Howe, of Chicago, who is working on the case with Detective Carey, said a new clew was in sight that might develop tomorrow.

There never was any danger from the machine," said Detective Carey, "In the first place, there were no cape on the fuses, and the dynamite could not have exploded. In the second place, the device never would have been placed on the Um-bria, because no property is ever taken aboard an ocean liner unless some one claims it before the vessel salls. In the bext place, the fake dynamiter wrote to the police telling of the device and of its harmless nature, and has since done several things to keep the affair before the public. A discredited note in French was folsted on the press by this man to lend the impression that he had sunk the Naronic. Then an alleged warning was sent to the expressman who took the box to the Cunard wharf.

"I am not wholly in the dark as to who ent the dynamite to the wharf. I do not care to say what I think of the motive."

NEGRO RIOT IN SIGHT.

Whites Are All Armed and a Pitched Battle MayBe Expected.

LOUISVILLE, May 16.—A special to the Courier-Journal from Owensboro says: One hundred and fifty sullen negroes are grouped about the alleyways of the town of Hartford tonight. Andrew Render, one of their number, was shot down tonight by Marshal L. Paris. Paris is being guarded at the Sheriff's objec by 60 depu-ties, who have been sworn in tonight. Probably 50 more of the most prominent citizens of the town have given their services to Sheriff Owen and are patrolling the streets. Both sides are armed with rifles, shotguns and pistols. An outbreak on the part of the negroes can be expected at any moment. The white citizens syear that if a movement is made to take Paris, every negro in Ohio County will be

HARRIMAN HOME AGAIN.

His Threatened Illness Will Not Prevent Trip to Europe.

NEW YORK, May 16.—E. H. Harriman arrived here at 10:40 o'clock. He walked from the train to his automobile and in an interview given from his vehicle said he had suffered from a slight attack of appendicitis, but had received the best of attention and expected to sail for Europe May 26. Mr. Harriman continued: "I have not been compelled to undergo an operation and scarcely think one necan operation and scarcely think one nec-essary. I had the services of three of the very best doctors in the West. I ex-pect to be at home for several days and I do not anticipate that my proposed trip to Europe on the 26th will be interfered

of scariet fever."

Mr. Harriman concluded his talk by saying that he would not attend to business for several days. The railroad magnate was accompanied by his daughter, Miss Mary, and was met at the Grand Central Station by his wife and Dr. L. R. Morris. Dr. Lyle, the family physician, awaited Mr. Harriman's arival at the lat-ter's home. Several friends were also at the depot.

Dr. Lewis R. Morris, Mr. Harriman's atending physician, said tonight:
"Mr. Harriman had a slight attack of appendicitie, very slight, indeed. He will not be operated upon, and I expect that he will have entirely recovered his health in a few days. The woctors were called into consultation on Mr. Harriman's condition to the state of dition today, and they all decided that there was no need for an operation. Some persons afflicted with appendicitis do not consider themselves cured until the appendix has been removed, but Mr. Har riman is not of this way of thinking, and there is no necessity for an operation in his case."

PORTLAND IN THE LEAD. Its Chances Are Bright for Getting Conductors' Convention,

PITTSBURG, May 16.—The convention of the Order of Railway Conductors to-day began the third and final readings of the measures providing for changes in

the laws of the order.

The fight for the next convention has The fight for the next convention has practically narrowed down to Boston and Portland, Or. As the East has the convention this year, Portland's chances are considered the brightest. The Boston delegation is letting no grass grow under its fest, and the fight on the floor of the convention promises to be a very interesting one. This will be the last question settled before adjournment on Thesday. Tuesday

While the women have no voice in the selection of a city for the next convention, the prevailing sentiment seems to be in favor of Portland.

COUPON CERTIFICATES OF DEPOSIT.

There are many people who would like to buy railroad bonds or municipal bonds, but they have not sufficient money on hand for investments of this kind. To all such we office our coupon certificates of deposit, which they can procure from us for any sum not less than \$500, and on which we pay interest semi-annually at the rate of 4 per cent per annum, as per coupons attached.

We issue these certificates of deposit for one, two, three, four or five years. They make a very safe and convenient form of investment, and have the advantage that they are always ready upon application, and consequently there is no occasion for you to lose interest upon your money even for a single day.

day.

We shall be pleased to show you these certificates and give you any further information, if you will call upon
