VIEWS OF CONSTANCE S. TITUS, CHAMPION OARSMAN. -From the Illustrated Sporting News.

Constance S. Titus, the champion oarsman, expresses the following forcible views on rowing as a means of physical training, in an article in the Illustrated Sporting News: If those wealthy men who are in the habit of donating a public library or two before each breakfast, or who endow a few beds in their favorite hospitals every other day, would pause a moment to consider the inestimable blessings of physical culture, and especially rowing, they would, I venture to say, found a few boat clubs during the course of each year. Exercise means physical culture, and physical perfection reduces to a minimum the necessity for hospital beds. Libraries are all right to train the mind and improve the idle hour, but the mind can never be healthy without a healthy body. There will always be many opinions as to what is the superior method of training the body and acquiring a desirable degree of gymnastic perfection. But neither the sprinter, nor the wheelman, nor the walker, nor the golfer can say that rowing has an equal as a generous distributor of exercise. It has somewhat of a rival in swimming, which really brings every muscle into play, but which is too exhausting to the vitality; and boxing, too, is a sport to send the blood through every vein. But rowing, above all, and by rowing I mean the correct way of manipulating the sliding seat and the oar, benefits legs as well as body, arms as well as mind. The millionaire who will remember rowing in his gifts will be the world's surgeon, and will straighten crooked spines and deformed limbs, and reconstruct puffy frames that even the public reading-rooms and private hospitals, with all their salubrious effects, cannot remedy or make right.

MEN SPEEDILY CURED CONTRACTED DISORDERS. We have reduced the time required for curing contracted disorders about one-half. This is an important achievement. It replaces danger with safety, and restores chronic complications. It removes the infection and inflammation before that vital center, the prostate gland, becomes involved. To many men it means the difference between perfect health and a lifetime of misery and functional weakness. Our method is safe, and in accordance with the latest scientific discoveries. It resembles the ordinary. In its chief essentials it is different, because it is entirely different. It is safe, prompt and thorough.

Dr. W. Norton Davis. "WEAKNESS". We not only cure "weakness" promptly, but we employ the only treatment that can possibly cure this disorder permanently. It is a disease of the system, and is not cured by any physician other than ourselves. This may seem a broad assertion, but it is just as substantial as it is broad. So-called "weakness" is but a symptom of local inflammation or congestion, and a radical cure is merely a matter of restoring normal conditions throughout the organic system, and this accomplished thoroughly and with absolute certainty.

Specific Blood Poison. Until the perfection of our system of treatment, specific blood-poison was commonly regarded as incurable, and the limit of medical aid was to keep the case dormant by the use of strong mineral drugs. We use a method of drive the last trace of virus from the system. Our cures are absolute. Every symptom vanishes to appear no more. We use harmless blood-cleansing remedies, only such as were never before used in the treatment of this disease.

Our Practice is the Largest Because We Invariably Fulfill Our Promises.

Painless Cure For STRICTURE. Without cutting or dilating, and by mild and absolutely painless treatment, we cure this disease completely. The inflamed membrane is dissolved, all inflammation is irritation removed, and every membrane of the system involved is thoroughly cleansed and restored to a healthy state. No failures—a perfect cure in every instance.

VARICOCELE. Many who are but slightly afflicted with varicocele believe that the trouble is of but little consequence. The opposite is true. Varicocele is a disease of a progressive nature, as it advances nervous complications come, power diminishes and the general health is impaired. We cure varicocele without knife, ligature or caustic, without pain and without detention from business.

PILES. Quick Cures. Certain Cures. We cure the worst cases of piles permanently without the use of cutting, without pain, cutting or detention from business. In from two to three treatments. Our treatment is entirely new and peculiar to ourselves. Remember, no matter who has failed before in your case, we will cure you with mild methods, and without danger, or else make no charge whatever for our services. Should you live at a distance, we can treat you successfully at home.

WE ARE ALWAYS WILLING TO WAIT FOR OUR FEE UNTIL A CURE IS EFFECTED.
