AMUSEMENTS.
THE BAKER THEATER—Evening at 8:15.
"Madame X."
COURTNEY'S THEATER—This afternoon at 2:30, evening at 7:30, Edward Elkins' "Conte-ment of Vandewater."

YAMHILL COUNTY PIONEERS—The 11th annual reunion of the Yamhill County Pioneer Association will take place on Wednesday, June 3, at McMinnville. The exercises will be as follows: Prayer by the chaplain, Rev. J. M. Smith; address of welcome by Mayor Wortman; response by John T. Simpson; annual address by Hon. William Galloway, of Oregon City. This will complete the program for the afternoon, and will be followed by a picnic dinner and a general social reunion. The program for the afternoon will be as follows: Business meeting; roll call of pioneer dead; address, "What We Owe the Pioneer," by Mrs. A. Laughary; address, "Early History of Yamhill County," by George H. Himes, Portland, in which he will give a sketch of Ewing Young, the first settler in Yamhill County, in fact the first American settler on the west side of the Willamette River; address by Mrs. Edyth Tozier Weathered; reminiscences by pioneers. The compliments of the association will be given to the oldest married couple present who crossed the plains before 1850. Rev. A. J. Hunsaker, 1847, McMinnville, is president of the association, and Mrs. Mary A. Gilbert, 1846, Dayton, the secretary.

STREET-CAR SCRAMBLE BEING WAGON—The Portland-bound Vancouver car, No. 48, Carrie Nationalized one of Weinhard's beer wagons at First and Pine streets yesterday afternoon. It was the old story of an aggravating incident, an aggravated motorist. At a snail's pace the beer wagon moved across the track. Alas, it was too slow. Crash, bang, the car struck the wagon and both hind wheels were ripped off, both axles being broken off next to the hubs. Twenty kegs of beer went tumbling and rolling in different directions, but strangely, the driver kept his seat. When the track was cleared and the evidence removed by the conductor, the car proceeded while the unfortunate driver busied himself in collecting the kegs of brew that were scattered over a half a block.

Cool Air Over Forests.
Youths' Companion.
When a balloon passes over a forest it descends and ballast must be thrown out to keep it up. This is explained by Professor Moulliefert, of the French National Agricultural College of Grignon, as being due to the existence above every forest of a prism of cool, moist air, produced by the abundant transpiration of the trees and extending to a height of from 200 to 500 feet above the tree tops. Professor Moulliefert also says that while forests drain the soil underneath them they keep the upper layer to a depth of four or five inches moist.

FOOT CRUSHED BY FALLING TIMBER.—A. Sorenson, a laborer in the employ of Inman, Poulsen & Co., suffered a painful injury to his left foot while piling lumber yesterday morning.
