THE SUNDAY OREGONIAN, PORTLAND, JUNE 7, 1903.

Thus far I have received from the War partment the muster rolls of all ten comparise of the First Regiment, Oregon panies of the Brattalion of Rangers, of all the companies of the Recruiting Battal-ted Volunteers, and of Companies A and by Second Oregon Mounted Volunteers, As I failed to that any caim which was for the purpose of avoiding delay to pre-pare new claims. To date I have prepared and forwarded for execution and verifica-tion of the science of avoiding delay to pre-pare new claims. To date I have prepared and forwarded for execution and verifica-tion of the science of avoiding delay to pre-pare new claims. To date I have prepared to reserve the science of all the above and to reserve to all the above and the Second Oregon Mounted Volu-

teers. Sixty-six of the claims have been re-turned property executed and verified, and vouchers have been prepared. Three vouchers, with the claims attached, have been malled to the claimants, with in-structions to execute and verify the vouchers, and to forward the papers to vou

they can be paid.

voice of the state of the state of the papers to you. These 56 claims amount to \$12,359.77, an average of \$157.25. The claims of the Sco-ond Regiment will probably average about the same, but those of the Ninth Regi-ment will be very much lower. Thus far 778 claims have been filed. The total number of claims filed will probably not exceed \$50, and the total number of claims allowed will probably not exceed 756. I estimate the average allowance of each claim at \$150. Colonel Wood, commander of the Indian War Veterans, claims to have made a careful estimate, and that they will not exceed an average of \$115.

Attorney-General's Opinion.

As it seemed apparent from this that there would be a deficiency in the appropriation, Secretary of State Dunbar sub-mitted to Attorney-General Crawford the question whether claims should be paid pro rata or in the order filed, and whether claims should be audited after the appro-priation is exhausted. In his opinion on the subject the Attorney-General says;

Frinky, S. P., M. Saturday, June 25-Alumni-College base-ball game, 2:30 P. M.; gymnastic drill by physical training department, 7:30 P. M. Sunday, June II-Baccalaureate services, President Edwin McGrew, II A. M.; ad-dress to Christian Associations, President A. Rosenberger, 8 P. M.

largely attended than anything ever at-tempted in this county and it has been a success in every particular. Satisfaction

Mayor, Treasurer and Police Judge-elect had filed their oaths of office within 10 days after receiving notice of their elec-

ing physicians by D. H. Gay, member of the Board of County Commissioners. The patient is the child of Mr. and Mrs. A. O. Hathaway. Several persons who were exposed to the above cnae have likewise been placed under guarantine.

the subject the Attorney-General says: The act, in the preamble thereof, ac-knowledges an indebtadness on the part of the state to the volunteers who served in the Indian Wars of 185-55; section 1 of the act appropriates out of the general fund in the treasury the sum of \$100,000, or so much thereof as may be necessary to pay such indebtedness; section 2 of the act provides that the Adjutant-General shall prepare, certify and file with the Secretary of State proper vouncers show-ing the amount payable to the claimant under the provisions of this act, there-upon the Secretary of State shall issue his warmant for the amount found due the claimant.

his warrant for the amount found due the claimant. The act misumes that the \$100,000 appro-pristed will be sufficient to pay all claims in full, and the Secretary of State is re-quired to issue his warrant to a chaimant whenever there is presented to him the proper voucher therefor. I find no war-rant of law for your decilining to issue a warrant on the Treasurer when such voucher is received by you, and for the full amount thereof; you have no author-ity to wait until all claims are in, and there is no date fixed in the bill within which claims must be presented; there-fore it is my opinion that you should draw a warrant on the Treasurer of this state in favor of the claimant for the full amount due him whenever you receive the proper vouchers duly certified by the Adjutant-General showing the amount due such claimant.

the proper vouchers duly certified by the Adjutant-General showing the amount due such claimant. The order in which they are filed with the Adjutant-General, and the proof certi-field by him does not govern your office in issuing the warrants, but the time the voucher is received in your office. As to the proper course to adopt should any claima be presented after the appropriation is exhausted. I would ad-what it is your duty to allow the claim upon proper vouchers being pre-sented, and issue to the claimant a cer-tificate as evidence of such allowance, un-der section 22% of B. & C. Comp. The amount is a debt due the claimant from the State of Oregon as soon as the proper proofs have been presented to the Adju-tant-General, and was incurred in pursu-ance of authority of law, and the appro-priation has been exhausted; therefore the claim should be sudited, certificate is-sued and the next Legisiture he asked to appropriate funds with which to pay the claims, the same as any other indebtedappropriate funds with which to pay th claims, the same as any other indebted ness against the state for which no appro printion is made

Since the Adjutant-General's letter way written Secretary of State Dunbar has re-ceived 98 vouchers, which evidently indude the 66 claims referred to. These vouchers aggregate \$15,656,64, or an aver-age of \$150.17 each. These figures seem to indicate that the Adjutant-General made his estimate low enough. The high-est amount allowed thus far is \$307.86, and the smallest \$15.62.

Care in Examining Claims.

Secretary of State Dunbar is receiving many letters from veterans urging the allowance of claims and the issuance of warrants at an early date. Several vet erans have urged as a reason for haste that they wish to use the money to attend the meeting of the Pioneer Association in Portland this month.

Adjutant-General Gantenbein has exam-ined and passed upon the ciaims as rap-idly as possible, and Secretary of State buy as possible, and secretary of State Dunbar will issue warrants as fast as the vouchers can be examined. Auditing Clerk S. A. Kozer, of the Secretary's office, does not take it for granted that anything is correct. He reads over every woucher and figures out each man's time and allowance to see that no error has and allowance, to see that no error has been made. This is a rule that is ob-served in the allowance of all claims, and those of the Indian War veterans are no meeption. This is the only method that will make errors impossible. In addition to this each claim and war-

rent must be indexed so that there will be a means of ascertaining at some future time whether centain claims have been allowed. This thoroughness in examinatime whether certein claims have been allowed. This thoroughness in examina-tion of claims will make but one days and it is expected that warrants will be would mean a horrible disaster.
