Sultan of Morocco Loses 6000 Men in Battle.

REBELS ATTACK A SURPRISE

Prerogative of the Throne is as Yet Ignorant of the Great Victory Won by His Supporters.

MADRID, June 20.—The Correspondent's representative at Tangier telegraphs that the Benhaya and Ergunba Kavayes yesterday surprised the Sultan's army, inflicting a loss of 6000 men. The troops were under the command of the Moorish war minister. The pretender to the throne, the Correspondent's representative adds, is an ignorant of the victory of his supporters.

ITALY EXPECTS LOUBET.

If King Visits France, the President Must Come to Rome.

PARIS, June 20.—The officials here are not desirous of freely discussing the reports of complications arising from President Loubet's projected visit to Rome, owing to the delicate questions involved. When shown the Vienna reports to the effect that the visit had been given up because the pope would not receive the President, it was stated that it had never been officially determined that the President should visit Rome, the early reports being largely a deduction that King Victor Emmanuel's visit to Italy naturally followed by Loubet going to Rome. While this probability continues, no official decision has been reached, and no announcement made as to the time of the program.

SENIOR PRINCE VISITS FOREIGN MINISTER

He Said Afterwards That If King Victor Emmanuel Came to Italy, He Would Expect M. Loubet to Go to Rome.

It is to be distinctly understood henceforth that each time a King of Italy visits the chief of a foreign state at the capital that chief of state will return the visit at the Italian capital, Rome. The latter part of this statement apparently dismisses the reports that Loubet would avoid Vatican complications by visiting King Victor Emmanuel at a point outside of Rome. The official programme of King Victor Emmanuel's visit to Paris, given out, makes no mention of a return visit. The King will stay here from July 19 to 24, and will be entertained with elaborate dinners, receptions, state banquets, and a gala performance at the opera. He will occupy sumptuous apartments. The King will be accompanied by the Italian Minister of Foreign Affairs, which will be given political significance.

NAVAL EXPANSION BILL CARRIES.

Marquis Ut Wins a Great Victory at the Cost of a Few Votes.

TOKIO, June 20.—The term of three weeks of the present session of the Diet expired on June 1, but in view of the important bills the session was extended to June 4 by an imperial ordinance. The naval expansion bill was approved unopposed by both houses. Marquis Ut thus has created here a new promise with the cabinet has cost his party some 25 members who have seceded. Only four cases of plague have occurred at Yokohama in five weeks and there is no danger of its spreading in the face of the drastic preventive measures taken by the authorities. There were 113 cases of plague last week and 59 deaths in Hong Kong. The number of cases to date is 679.

THE URUGUAY DOCK COMPANY ON MAY 24

suspended the construction of the remaining guard boats for the United States Government and at present are doing a wholesale dismissal of employees at the Uruguay yard in a few days. The event is due to the fact that the first two vessels sent to Manila have been found defective by the civil government. The president of the Uruguay Dock Company, who went to Manila the other day, was told by the Government that the authorities would not take delivery of the boats unless the Uruguay Dock Company reduces the cost of the vessels by 20,000 yen apiece. A dispatch from Hong Kong says: The Chairman who was created here in the murder of young Kue Wan, one of the leaders of the reform party, in January, 1902, has been convicted and sentenced to death. The evidence revealed that the business manager, who was charged with the murder, was the order either to kill or kidnap the reformers. Young Kue Wan was then deliberately killed while teaching in a school near the Central Police Station. The murderer has been afterwards created Mandarins, received monetary rewards and given official position in Canton. The birthday of the Empress of Japan was duly celebrated on May 20.

OLD CABINET IS RECALLED.

Crisis in Italy Will Bring Old Two Changes in Ministers.

ROME, June 20.—The Cabinet situation has developed many difficulties. Premier Zanardelli being unable to strengthen his position by the removal of the leaders of the reform party, the majority are already in power. Therefore it has been decided to recall the cabinet which was formerly constituted with the exception of Interior Minister Gioiotti and Marine Minister Rotondo. The Chamber of Deputies will reconvene June 25, when the government will ask for six months' extension of the existing credits, there being no time to discuss or approve the budget before the close of the fiscal year, June 30. This request promises to give the government only a month's extension, which it cannot accept because King Emmanuel has promised to resign July 28, and he does not wish to leave Rome until after the financial situation is settled.

RATON, N. M., June 20.—Five men were killed today by an explosion which completely wrecked mine No. 3 of the Raton Coal and Coke Company at Hobbsburg, N. M. The dead are: Joe Freenic, Tony Nation, Jack Holm, Tom Pester, Alfonso Dema. Jack Bell, fire boss, was badly burned and Harry Russell, suffered several broken ribs. LIGHTNING WORKS HAVOC

Six Men Are Killed, Many Injured and a Mine Shaft Destroyed.

CAMBRIDGE, O., June 20.—Lightning struck a house stored with 3000 pounds of dynamite at the new mines now being opened near Senecaville, 12 miles from the town of Cambridge, and killed six men and injured a score of others, besides ruining the mine shaft and breaking nearly all the windows in Senecaville, a mining town of 100 people, half a mile from the mine. The men killed and wounded were carpenters. When the storm came up the men took refuge in John Saltzburger's barn, some distance from the mine. In an instant the barn was demolished and the men scattered within a radius of 50 feet, over a score bleeding from lacerations. The men were killed from the earth and from the timbers from the blacksmith shop. The dead: WILLIAM MAHONEY, SAMUEL BARTUP, RUSSELL HARTUP, HIRSH WILSON, HAYES HINCHINSON, ROBERT WILSON.

TUNNEL CAVES IN.

One Pole Is Killed, a Second Is Injured, and Another Missing.

BOSTON, June 20.—A section of the East Boston tunnel, near the foot of State street, was caved in by the collapse of compressed air used in connection with the excavating, caved in during the night and one man, a Polish laborer, was killed and one injured. A second pole was missing, and it is feared he is buried in the tunnel. A force of diggers was put to work, but at 8 o'clock had not found any trace of the missing man. The tunnel was about 25 feet long by six feet wide, and will not seriously impede work on the tunnel. The tunnel between Boston and East Boston is a tunnel, and comprises the First and Second Wards of the city, it is about a mile long, and has been in process of construction for several years. It is to be used for passenger and vehicle traffic, and when completed probably will form a continuation of the subway system of the city. The only means of direct communication between Boston and East Boston is by ferry, and the tunnel is being built by the city as one feature of its transportation improvement program.

Louis Anderson, a farmer, was terribly burned. Several others were injured, and one killed. Later another car of naptia exploded, sending the flames hundreds of feet into the air. The cars were destroyed by fire.

SPREADS BIBLE TEACHINGS

American Tract Society Reports Its Progress in the Past Year.

NEW YORK, June 20.—The 78th annual report of the American Tract Society was made public today. It states that in this society a consensus has been reached as to what the Bible teaches on many, if not all essential points, as held in common by the several evangelical denominations, in printed form, and many languages and sending it to the people in all quarters of the globe. The new year begins with a revenue from recent years of \$1,000,000, which is a sinking fund toward removing the burden of debt. The society is now publishing several periodicals—four in English, two in German and one in Spanish. The average circulation of periodicals during the year has been 3,000,000.

THE PICKET WINS.

(Continued from First Page.)

Clay was easily the best of the other starters. He came fast into the stretch, but little John Daly saw he had no chance to catch The Picket, and also eased up, but almost too soon. Bernays, backed by Cincinnati enthusiasts, came on grandly from the center of the field, and hitched up in a drive with Savable for the shortest end of the purse. Bernays got it by a neck. Judge Himes, the horse that had jumped into popularity and been heavily backed within a week, failed to make a showing. The fast track was against him. He rapidly went to last position after the start and stayed there. He was 40 lengths behind when The Picket reached the wire.

Argentine Officer Expires While on a Yachting Trip.

NEW YORK, June 20.—The death of Vice-Admiral Daniel de Solier is reported in a dispatch from Buenos Ayres to the Herald. It occurred suddenly, while he was on a yachting trip. A wave swept the deck, carrying the body overboard, but after a three hours' struggle it was recovered and landed at Montevideo. (Vice-Admiral de Solier was the ranking officer of the Argentine navy. Since the Chilean-Argentine naval disarmament agreement he had remained in Buenos Ayres and has devoted much of his time to yachting, of which he was a fearless devotee, preferring small craft and cruising in the roughest waters.)

CATTLEMAN FIGHT DUEL

One Killed, the Other Injured, in Dispute Over Grazing Grounds.

HOLBROOK, Ariz., June 18.—News reached here of a desperate battle between cattlemen on the Apache Indian Reservation, 10 miles south of Holbrook, in which Thomas Barrett was killed and Prime Coleman was probably fatally injured. Both are prominent cattlemen, and have lived in Apache County for many years. Only money reports are obtainable, but it appears that the men became involved in a dispute over their respective grazing permits on the reservation, which are only issued at certain times of the year, and are of considerable value, only a limited number of cattle being allowed on the reservation. A duel with six-shooters followed, in which Barrett was killed and Coleman was injured, from which he died within a few minutes after the shooting. Coleman was shot through both thighs, and was so badly injured that he died of blood poisoning. Barrett's six-shooter, Coleman was still alive at the last report, but there is very little hope for his recovery.

Five masked men worked together, relieving Short of \$68, and Caulfield of \$2. Short telephoned the police station at the robbery, and said he would come this morning and give a description of the robber. Within the same hour, though several blocks away, Samuel Smith, of 21 Twenty-Fifth street, was held up by two men at the corner of Twenty-Fifth and Overton streets. The robbers blew him to the extent of \$5. He could give no other description of the robbery, and said the men were both young and wore masks. Pistols compelled their equipment.

Sickness Averted by Prompt Action and Sources of Disease Removed—Nearly \$8000 Added to Relief Fund.

(Continued from First Page.) Many workmen proceeded to speculate. "It's the body of his master under there," said the foreman. "Let's get it out." A moment more and the space was cleared. A man got down on his knees, and reaching far under, drew forth a bedraggled, mud-covered shepherd dog. The animal had unquestionably been under several feet of water for some time during the flood, though doubtless protected by the dense drift so as to breathe a little. After his five days' confinement he seemed a bit groggy when first brought to light, but presently pulled himself together, shook himself, wagged his tail faintly and trotted off up the street in the wake of his friend, the dog that dug for him. A live hen was also found by a gang of Portland workers yesterday. The bird was jammed under a heap of debris near the creek. It uttered a glad squawk when released. One of the men said that careful search was made, and it was found that the hen had neglected to lay any eggs while in confinement.

Humor and Pathos Mixed.

Tragedy and pathos drew attention in all quarters, and Mrs. Mary E. Britten first laughed and then wept as she told of two of the orphaned children yesterday. They had been sent to the Women's Relief headquarters for clothing. Mrs. Britten pointed them on the head after supplying them, and then asked what more she could give them. The elder replied: "I guess we did need these clothes, but that's all." The younger looked up wistfully at the lady: "If you could only give me my mamma," he said.

H. Brady, Mr. Calhoun and Mr. Kealey. These men left Prineville with a band of horses, and only left Heppner in time to be safe. This information was a great relief to the relatives and friends of Mr. Gray, who is the son of J. H. Gray, ex-sheriff of this county. Mr. Gray is now on the road across the country to Heppner, and so far has no knowledge of the safety of his son.

Dubuque Streetcar Strikers Must Quit Rioting.

LOCAL OFFICERS POWERLESS

Fear of a Monster Demonstration Causes the Governor to Reverse His Decision Not to Order Out Additional Militiamen.

DES MOINES, Ia., June 20.—Governor Cummins, upon receipt of advice that a crisis was approaching in the street-railway strike at Dubuque, issued orders today mobilizing three additional companies of the Fifty-third Regiment. Governor Cummins' action was based upon numerous messages from the Mayor, Sheriff and leading citizens of Dubuque, expressing a grave fear that tonight would witness an outbreak on the part of the street-railway strikers and their sympathizers that might culminate in setting fire to some of the leading places of business. The Waterloo, Independence and Maquoketa Companies, which with the Dubuque Company constitute the First Regiment of the Fifty-third Regiment, I. N. G., were ordered to Dubuque under the command of Major Allen, of Dubuque, who will later be superseded by Adjutant-General Myers, of this city. The strike was instituted May 7, since which time all efforts to operate streetcars in Dubuque have precipitated rioting. Early this week a determined effort was made to operate the cars, but a serious outbreak, resulting in the destruction of much property and serious injury to a number of persons. Since then repeated efforts have been made to the Governor to send additional troops, the Sheriff and Mayor declaring that the local police and Sheriff's forces, even with the aid of the local company of militia, was helpless in the face of the mob of strike sympathizers. The Governor refused to do more than to order out the Fifty-third Regiment, the rush to Dubuque upon demands of a fresh outbreak. Today, however, alarming advice concerning a secretly planned outbreak in the city, has caused the Governor to send additional troops, the Sheriff and Mayor declaring that the troops are not there for the purpose of assisting the fight against the strikers any more other than to preserve peace at all hazards.

Demotion Does Not Occur.

DUBUQUE, Ia., June 20.—Militia companies from Independence, Waterloo and Maquoketa arrived today, and are guarding the property of the street-car company against any attacks by strikers. Operation of cars will be resumed tomorrow. The Governor has not yet received word that there was no demonstration. Great Textile Strike Nearing End. LOWELL, Mass., June 20.—The great textile strike, which began here three months ago, is nearing its end. The leaders of the striking textile workers admit a letter containing a proposal for a conference, with a view to ending the strike. The strikers are sent to the mill agents. Meetings of every union will be called before Sunday to take action upon the question of returning to work. Negroes Take Places of Strikers. KANSAS CITY, Mo., June 20.—Railroad officials declare that the freight-handlers' strike is at an end, and that they are concerned in the freighthouses of the Santa Fe, Rock Island, the 'Prisco and the Missouri, Kansas & Texas, 300 negroes, most of whom have been brought from the outside, are working in the places of the strikers today, and 100 more negroes are expected by tomorrow. Want Laborer Presidential Candidate. CINCINNATI, O., June 20.—The convention of the International Pressmen's Union adjourned today, to meet next year in St. Louis. Among the resolutions adopted was one commending the committee of nominees to all labor organizations "that the masses shall have a proper champion in the next Presidential campaign." This vote on the resolution is claimed as a victory for the Socialists.

Medal for Matlock.

ASTORIA, Or., June 17.—(To the Editor.)—The catastrophe at Heppner recalls to my memory the Fifty-third Regiment, in Massachusetts, in 1874, when by a bursting dam the towns of Williamsburg, Haydensville, Florence and Leeds were nearly all destroyed. The loss of 160 lives was lost. This flood occurred at 3 or 4 o'clock in the morning, and a young farmer lad, just starting out on his daily milk route, started in the morning, the people to flee for safety, thus saving hundreds of lives. The attention of Congress was called to his noble work, and a magnificent gold medal was prepared for him and presented to him by Congress on behalf of the United States. You probably have in your books of reference an account of the incident; and of the young man's name, which, unfortunately, I have forgotten. I call your attention to this instance because Heppner had his hero as well as Williamsburg. Heppner's hero was a man of mind should not be permitted to pass unawarded. All honor to him, say we all. I trust our Oregon Matlock may be honored in a similar manner. It is my hope that this letter that attention of our representation at Washington may be aroused and that they will look up the Williamsburg hero, and award to him the gold medal which is so richly deserved. The picture and description of the above-mentioned medal was printed in Harper's Weekly at the time of the presentation, probably in the year 1875.
