PROF. THOS. F. ADKIN. "My ambition in life is not money."

says Professor Adkin, the great healer, who is daily curing men and women of the very worst diseases after learned doctors have pronounced their cases hopeless. His method of treatment is somewhat mysterious, but the fact that he cures the sick when all else falls, when the doctors lose hope and science despairs, is demonstrated beyond controversy. No matter whether you have Consumption, Kidney Trouble, Rheumatism, Catarrh, Dyspepsia or simply an ordinary cold or fever, they are all alike to Prof. Adkin. He cures them all, he cures you quickly, painlessly, permanently, at your own home. He also tells you a secret method by which you may keep yourself in perfect health. Without exaggeration, it can be safely said that Prof. Adkin is the most interesting, remarkable and wonderful physician healer of the age. His only talk, his only thought, is How to cure Incurables, to bring hope to the hopeless, joy, sunshine and happiness to the miserable and suffering. He is truly carrying on a grand work. He is president of one of the largest healing institutions in the world. He employs twenty eminent physicians and specialists to assist him with his work. He spends thousands of dollars every year in giving free advice and help to the sick. No matter where you live, the services of the best specialists may be yours. All you have to do is to write a letter to Prof. Adkin describing your case, and he will immediately diagnose your disease and explain the proper home treatment for your speedy recovery. This will not cost you a single cent. No money is asked for this service, none is taken. If you are sick and want to make a donation for the purpose of carrying on the work, such be thankfully received. Prof. Adkin will also send every sick person who writes him, within the next thirty days, a free copy of his wonderful new book entitled "How to Be Cured and How to Cure Others." This book is highly indorsed by leading physicians; it contains invaluable information in regard to diseases and what to do in cases of emergency. It should be in every home.
