Democratic Chairman White Expresses His Views Regarding the Action of President Roosevelt in Recognizing Panama.

BAKER CITY, Or., Nov. 14.-(Special.)on. Sam White, chairman of the Demo cratic State Central committee, returned today from Pendleton. When asked his opinion in regard to President Roosewelt's alleged responsibility for the Pana-ma rebellion and whether he thought the Democrats ought to make it an issue in the coming campaign, he said: "I will venture to say that the Ad-

ministration has recognized the inde-pendence of Panama, with such undue haste that all fair-minded people the world over will be perfectly justified in Baying that it has been actuated by selfish and mercenary motives, and in fact knew of and encouraged Panama in its rebel-

"I think Democrats should condemn the ministration in unmeasured terms for unwarranted interference in the family quarrel of a sister republic. We could have easily protected American interests in Panama without recognizing a N-hourold republic and denying to Colombia the right to land troops in Panama and fight for what was and is her own. We have no more right to deny her this right than England would have had in saying to us in 1861 that we should not

parch troops into the South to coerce be seceding states back into the Union. But the Administration has acted, and injustice and wrong has been done, while the Administration was hasty and ill-advised the question now is whether we shall uphold the hands of our President when he has placed us in a position which cannot be justified by the law of nations, or will we, in the event of war, fight among ourselves at home while a foreign foe is fighting

"As an American, I say no. I am for my country when she is right and for putting her right when she is wrong; but if our President has put us in a position where we cannot be put in the right, then I am for my country, and the great body of the American people, I believe, feel the same way. "The history of the past teaches us

that the American people can be trusted implicitly to stand by the Administra-tion, right or wrong, when involved in a quarrel with any foreign country. Therefore I believe it would be unwise for the Democratic party to attempt to make a political issue out of a question which is antagonistic to the patriotic ment of the whole American peo

"Such a course would be suicidal. The Democratic party needs less sentiment and more horse sense. It does not need any more issues, and especially thouse of fault-finding. If it will confine itself to the internal abuses from which we are suffering, such as an unjust and burdenme tariff which is daily, by a species class legislation, plifering from the ockets of the producers of the country to feed and fatten our so-called "infant industries," and to the highway robbery daily being committed by those gigantic aggregations of capital commonly known as trusts, it can safely appeal to the fair-mindedness of the American people and win in the next presidential cam-

The Democratic party does not need The Democratic party does not need to be hunting for issues; it has issues enough and good enough to win on if it will only get down to business. The President's unstatesmanlike conduct in induce them to leave town. this Panama matter is but an exemplifi on of his unfitness to hold so high and responsible a position

There is too much strenuousity and tiger-fighting in his disposition to consti-tute a wise, sage and business-like President to suit the thinking element of the American people. And unless I mistake my guess the business element of the try will thoroughly appreciate this fact before the next Presidential election."

SUNDAY ORDINANCE INVALID.

Rainler Council Passed Measure to Close Saloons That Is Ineffective.

RAINIER, Or., Nov. 14 .- (Special.)-The case of persons accused of violating ordinance 16, providing for the closing of saheard upon demurrer to the co plaint, before the Police Judge of Rainier at 2 o'clock today. After long argu-ments the demurrer was sustained upon the ground that the ordinance was void, having been passed at a special meeting,

illegally called, and for other defects.

This leaves the town without any ordinance for Sunday closing. There is talk of enforcing the state law for Sunday closing for all business. If this is done Bainier will be a closed town on Sunday.

SNOW IN BLUE MOUNTAINS.

Promise of Plenty of Water for Next Year--Big Price for Haystack.

BAKER CITY, Or., Nov. 14.—(Special.)
—More than three feet of snow has fallen in the mountains in this vicinity during the past three days. Such a heavy fall of snow this early in the season is unusual. and while it has its inconveniences on the whole the people regard it as a favorable condition, because it argues well for an abundant supply of water for mining and irrigation purposes next season.

INSANE MAN DENIES HIS WIFE

Mrs. Ollschlager Wants Guardianship

of Man With Whom She Lived. SALEM, Or., Nov. 14.—In County Court today Judge Scott heard testimony upon the petition of Mrs. Henry Olischiager for the appropriate of the county of the the appointment of a guardian for the estate of her insane busband. Objection was made by nephew and nieces upon the ground that the petitioner is not the wife of Olischlager, though she has been living with him as such for 16 years.

The wife testified she had no written

evidence of marriage, but that in Philadelphia 16 years ago she and Olischiager went through a ceremony in English which she, being German, did not un-derstand, but she was told she was mar-ried and had always been led to believe such was the case. Opposing testimony was that Henry Ollschlager had denied during the last seven years that the woman was his wife.

These denials were made since he suffered a paralytic stroke, which is alleged to have impaired his mental faculties. The case has not been decided. Governor Chamberiain and P. H. Darcy appeared for the wife, while Bonham & Martin appeared for the nephews. The contest is for the control of property, which amounts to several thousand dollars.

EGBERT BROUGHT TO BURNS.

Alleged Murderer Denies That Name Is Frost--Trial December 1.

BURNS, Or., Nov. 14.-Sheriff Allen this county, and Constable T. N. McCoy, of Elko, Nev., arrived here Monday night with Harry Egbert, the murderer of John G. Saxton and Jack West. McCoy came from Elko at the special invitation of Sheriff Allen, as he had been the chief factor in the running down of Egbert. Soon after arriving in Burns, Egbert was araigned before Judge Clifford, of the Circuit Court, to whom he denied the name of John Frost, asserting that his true name was Egbert. Asked if he had means with which to procure counsel, he replied that he had not. The court ap-pointed A. D. Leedy, of Canyon City, to defend Egbert, and he was remanded to jail. At 1:30 Tuesday afternoon the case was called up and the defense, before pleading, submitted a motion to dismiss the indictment as defective. The motion was argued and overruled, and Tuesday, December 1, at 10 A. M., was set as the time for bringing the case to trial

There has been no demonstration of any kind against the prisoner. There is general satisfaction that he is safe within the grasp of the authorities and that his trial at an early date is assured.

moved for a new trial, upon the grounds of new evidence, the manner of the selection of the jury and the conduct of the H. N. martin, one of the defendant's

lawyers, stated to a reporter that two men came to his residence after the jury went out Friday night, bearing conclu sive evidence of innocence of his client. Saturday morning the jury was admitted to the courtroom, asked if they could bring in a verdict of guilty and recom-mend to the leniency of the court. This gave an indication of what the verdict uld probably be.

They were instructed by Judge Neal that either a verdict of gullty or not guilty must be brought in. All during the 11 days of the trial the prisoner has shown not the slightest uneasiness. His elder brother, Frank, was present from the first, and during the last few days the prisoner's mother and father were in town, but being witnesses, were excluded from the courtroom. Neither was pres-ent when the verdict was brought in.

A TEST EXPERIMENT.

Peculiar Power Possessed by a New Medicine.

Of new discoveries there is no end, but one of the most recent, most remarkable and one which will prove invaluable to thourands of people, is a discovery which hour, with the bar very rough. The glass it is believed will take the place of all is still very low this evening, but has an other remedies for the cure of those comupward tendency, and the gale in the mon and obstinate diseases, dyspepsia and it is believed will take the place of all stomach troubles. This discovery is not a loudly advertised, secret patent medicine, but is a scientific combination of wholesome, perfectly harmless vegetable sences, fruit salts, pure pepsin and bis-

These remedies are combined in lozenge form, pleasant to take, and will preserve their good qualities indefinitely, whereas all iquid medicines rapidly lose whatever good qualities they may have had as soon as uncorked and exposed to the air. This preparation is called Stuart's Dys-pepsia Tablets, and it is claimed that one of these Tablets or lozenges will digest from 300 to 3000 times its own weight of eggs and other wholesome food. And this claim has been proven by actual experiments in the following manner: A a building, but Hurst sent men and tore hard-boiled egg cut into small pieces was it out. heated to ninety-eight degrees (or blood heat); one of these Tzblets was then placed in the bottle and the proper temperature maintained for three hours and a half, at the end of which time the egg was as completely digested as it would have been in a healthy stomach. This ex-periment was undertaken to demonstrate that what it would do in the bottle it would also do in the stomach, hence its unduestionable value in the cure of dys-pepsia and weak digestion. Very few people are free from some form of indigestion but scarcely two will have the same symptoms. Some will suffer most from distress after eating, bloating from gas in the stomach and bowels, others have acid dyspepsia or heartburn, others palpitation or headaches, sleeplesmess, pains in chest and under shoulder blades, extreme nervousness as in nervous dyspepsia, but they all have the same cause, failure to properly digest what is eaten. The stomach must have rest and assistance, and Stuart's Dyspepsia Tablets give it both, by digesting the food for it and in a short time it is restored to its normal action and vigor. At the same time the Tablets are so harmless that a child can take them with berefit. This new preparation has already made many astonishing cures, as for instance, the following: After using only one package of Stuart's Dyspepsia Tablets, I have received such great and unexpected benefit that I wish to express my sincere gratitude. In fact, it has been six months since I took the package and I have not had one particle

All they ask is a fair and reasonable trial of their means of cure.

No other medicine than Dr. Pierce's Favorite Prescription could possibly win out as the saying goes, on such a proposition. But they know whereof they speak. They have the most remarkable record of cures made by this world-famed remedy ever placed to the eredit of any preparation especially designed for the cure of woman's peculiar ailments. This wonderful remedy, therefore, stands absolutely alone as the only one possessed of such unrivaled curative properties as to fully warrant its makers in publishing the remarkable offer above made in the utmost good faith.

Their financial responsibility is well known to every newspaper publisher and druggist in the United States, with most of whom they have done business for over a third of a century. ed in New York, November 5, before a Commissioner of Deeds for California. It revokes the powers granted of control over all property belonging to Mrs. Oel-richs in this city and the state generally. Mrs. William K. Vanderbilt, Jr., a ter of Mrs. Oeirichs, is also to revoke the power of attorney she gave Mr. Oelrichs on April 21, 1897. The document in which she revokes Oelrichs' right legally to represent her in business matters on the coast has arrived in San Francisco, but has not yet been filed for record.

According to Reuben H. Lloyd, who has been attorney for Mrs. Oelrichs and Mrs. Vanderbilt, the revocation of the powers of attorney to Hermann Oelrichs was a mere legal formality, marking the termination of the management of the Fair estate. For sometime that estate has been distributed and finally settled, and nothing more remained to be done in the matter, so the heirs formally revoked these powers, which were relinquished by him and sent to Mrs. Oelrichs and Mrs. Vanderbilt in New York by Attorney

Lloyd several months ago.

Amended Complaint Will Be Filed by State at February Term. THE DALLES, Or., Nov. 14.-(Special.)

PORTAGE CASE GOES OVER.

The Circuit Court of the Seventh Judicial

The change in plans as to construction of the road near Taft's cannery at Ceillo has made necessary a change in the plans of construction of the road wherein the O. R. & N. Co. claims an interference with its right of way. For this reason the state is to file an amended complaint in the proceedings and the case will be heard in the February term of court.

-W. S. Byers, the extensive flour manufacturer, has purchased within the past few days 150 000 bushels of choice wheat for milling purposes, paying an average price of 67 cents. The wheat was purchased directly from a few large farmers, and as soon as the fact became known

by local buyers the price immediately dropped to 64 cents.

As a result of this transaction there is little doing just now in the local mar-kets, and farmers who still have their crops will continue to hold until the price gets back to at least 67c. Buyers not appear to be anxious to purchase at the present time for export trade, and farmers are likewise unwilling to sell, and situation locally seems to be con-

ARE YOU SICK?

Do You Need a Friend?

To have a friend in the hour of illness, a friend on whom one can depend, is surely a blessing. "A friend in need is a friend in-deed." No more truthful saying was ever utdeed." No more truthful saying was ever ut-tered. Are you one of the many helpless sick who constantly doctor and doctor, loading your system with poisonous drugs that actually do nothing but eat away the tender organs and paralyze the nerves? Are you giving up to physicians the largest part of your hard-earned money, simply to find yourself growing weaker and getting worse from the effects of the soand gesting was a called topics, that perhaps temporarily case your sufferings, only to find that after the first effects of the 'drugs are gone that you are worse off thun before?"

worse off than before?

If you are one of those unfortunate victims, you need a friend. A friend who does not shirk his duty; a friend on whom you can depend in your hour of greatest need—in the hour of sickness. What more true and sincere friend could you have than one who keeps you in good health and happiness, who restores to you the vitality of youth, the clear eye and rosy cheek of health, and keeps your internal organs clean and healthy?

WHY DRUGS FAIL-Many Men Treated for Weakness Which Never Existed-Failure Due to Wrong Diagnosis

There is a tendency nowadays to ascribe cases of lost vitality to lack of nerve force and to treat them as such with tonics, electricity and stimulants, resulting in but the most temporary benefit, if at all.

As a result of observations and practical experience, I have been convinced that the nerves play but a subsidiary role in the production of disorders of men. It is very unusual to find any trouble in an otherwise strong man other than a damaged prostate or deep urethral inflammation, particularly in those whose disorders originated in the harmful influence exercised by an ill-treated contracted disorder, and if exhausted nerve force seemed to be present it is only as a concomitant, or perhaps we may say a complication, of chronic prostaitis, and disappeared with its cure. Still further these facts are verified by purely local treatment, for procedures directed toward repairing the damaged glands are always rewarded by the most brilliant cures.
