County Clerk and Deputles Finish Tax Roll So That Tax Levies Can Be Made During Next January.

The total assessed value of property in Mulinomah County for the year 1963 is \$51,635,000, as compared to \$49,823,260 for the year 1962, an increase of \$1,215,000. The work of writing the tax roll was comsleted by County Clerk Fields and his deputies several days ago, and the re-capitulation showing the total figures was finished yesterday. Now that Governor Chamberiain has called a special session of the Legislature to straighten out the tax law muddle, everything will be pre-pared so that the tax levies can be made in January and the collection of taxes proceeded with as usual.

The valuation of the various classes of

property is as follows:

Be Notable Gathering.

The meeting of the Northwest Fruitgrowers' Association, to be held in this city January 11, 12, 13 and 14, 1904, bids fair to be the largest, most interesting and important ever held by that body. Following is a list of those who have been sent invitations by Secretary Lamberson, of the State Board of Agriculture, to de-liver addresses on that occasion: Dr. N. G. Blalock, president Northwest Fruitgrowers' Association; J. R. Anderson, Deputy Minister of Agriculture, British Columbia; Prof. J. M. Aldrich, entomolocolumbia; Prof. J. M. SALOON VERSUS CHURCH.

in Approaching Vancouver Election Defined.

VANCOUVER, Wash., Nov. 21 .- (Spe sial.)—Much interest is being manifested in the approaching city election to take place here on December 8. For the first time in ten years Vancouver is to have an exciting balloting contest. Heretofore there has frequently been but one ticket nominated, but this year there are two

factions fighting for supremacy, the sa-oen element and the church people. Vic-lory is predicted by both sides. As provided by the city ordinance en-acted some years ago, Mayor A. B. Eastacted some years ago, Mayor A. B. Eastlam called a mass convention, at which
the two tickets were nominated. A conlest at the convention caused the conjest at the convention caused the nomination of two tickets, it being decided that the two candidates receiving the highest number of votes for each office be nominated, those receiving the highest number to be known as the first-ticket minees, and the second highest to be nown as the second-ticket nominees. The result was as follows:

For Mayor-L. B. Clough. For Councilman-at-Large-C. W. Stew-For Councilman, East Vancouver-H. J. Deserting and S. F. Bodyfelt.

For Councilman, West Vancouver-W. E. T. Mattschas and Owen Mulligan. For Councilman, North Vancouver-C. P. McCarthy and J. L. Marsh.

For City Attorney-James P. Stapleton. For City Clerk-J. E. Harris and D. K.

For City Treasurer-G. W. Daniels

For Health Officer-Dr. J. M. P. Chal-mers and Dr. J. R. Smith. It is now presumed that the liquor dealers of the city met at some time previous to the convention and decided on nominees, for it is said that they hope to con-trol the Council without electing their entire ticket. The hold-over Councilmen are J. S. Padden, W. P. Crawford and E. R. Schoffeld, and of these two are known to favor the saloonmen. The first ticket is said to be the one nominated by the saloon men, who believe that they will elect all their candidates. For Councilman of West Vancouver it is believed that either Mattschas or Mulligan will stand with the saloon men and the fight is not so in-tense over this office. The contest this year has been brought about by the recent stringent enforcement of the Sunday clos-ing law and the increase of the saloon When the state gambling lav closed the games that were operated in many of the saloons, the city treasury was short of funds, and in order to keep up the revenue with which to defray the city's expenses the saloon license om \$300 to \$450. This was a de blow to the saloon-keepers. Then the Sunday closing law was enforced by the church people and the fight between the two factions commenced in earnest. The saloon men have taken precautions to slect a ticket they can depend upon in the future, and, while there is no probabil that the saloon license will be raised again, the liquor dealers are protecting themselves from any future infringement on what they deem to be their rights.

CONSUMPTION IS CONQUERED.

Finsen Rays Work Three Cures That Are Permanent.

CHICAGO, Nov. IL-The use of Finsen for the cure of consumption is said to have worked three cures that are permanent and further experiments are said to show the beneficial effects of the treatment. Dr. Mary E. Jackson, of Hammond, Ind., is testing the rays in a case of tuberculosis, and is said to have ended the disease in three putients.

Russian Remedy Not Yet Proven.

BERLIN, Nov. 2.- The claim made by Mamorek that Professor Milkulics, Breslau University, had experimented with the tuberculosis germ discovered by the former, with results proving the heal-ing powers of the serum, is incorrect. Breslauer Zeftung has interviewed Professor Milkulicz, who in the course of talk said he had been experimenting with Dr. Mamorek's serum for several weeks at the university surgery clinics on pa-tients having various forms of external tuberculosis, carefully following Dr. Mamorek's directions. Most of the cases treated, he said, showed no signs of improvement, though in a very few cases slight improvement was noted. The pro-tessor, doubts, however, whether this was fue to the serum treatment. The experiments will continue, as more time is tensidered necessary to prove the value or worthlessness of the remedy.

THANKSGIVING APPEAL FROM TWO SOCIETIES.

The Children's Home and the Baby Home Ask a Generous Portland Public for Ald.

In conformity with a custom in vogue for more than a quarter of a century, the Ladies' Relief Society come before a generous Portland public this week with a Thanksgiving appeal for The Children's Home, the oldest of Oregon's charities. This is the Home on Corbett street, South Portland. These articles are needed: Money, wearing apparel for children of both sexes, and food. Almost everything necessary to the conducting of household will be welcome, and will be quite as acceptable as cash. As the Children's Home receives nothing in the way of appropriation from state, county or city, it must depend on the friendship of all well-disposed men and women. For the information of new residents of Portland be it stated that the Ladies' Relief Society during the past generation has conducted a home for orphans in most commendable fashion, never losing hope even in times of great financial stress

IN NEED OF DONATIONS.

Boys' and Girls' Aid Society Issues Appeal to Public. The Boys' and Girls' Aid Society has is

sued the following appeal:
"The Boys' and Girls' Aid Society sin-cerely trusts that its friends will remember it liberally this Thanksgiving. During the coming week its wagon will call at the business houses of its friends, who usually donate provisions and other use-ful articles to the society. Persons wishing to leave any packages for the society can do so at the City Board of Charities, which has recently removed its office to 36 Jefferson street, where the superinten-dent or his representative can be found from 3 to 5 daily, but packages can be received at any hour, or will be called for omptly by notifying the management by ephone East 5.

The work of the Boys' and Girls' Ald Society is rescuing homeless, neglected or abused children of the state, and caring for juvenile offenders. In this last mentioned branch of its work it resembles very much the work done by the juvenile courts or probation system in large East-ern cities. It has a perfect parole sys-tem established, and a number of boys eport weekly to the superintendent. The Boys' and Girls' Aid Society receive

commitments from all parts of the state, and does not refuse admission to any child, no matter from what county committed, provided they are sound mentally and physically, and therefore it has a just claim on the entire state.

It is the aim of the management to keep as few children on hand at the Receiving Northwest Fruitgrowers' Association: Dr. Home as possible, but so many children N. G. Bialock, president, Walia Walia, are being committed at this the that it is almost impossible to keep the number on hand below 40. At the present writing there are 39 children at the Home, halling from the following counties: Baker : Benton 1, Claskamas 1, Clatsop 3, Coos 1 Douglas 1, Josephine 3, Lane 2, Marion 1 Multnomah 16, Umatilla 1, Union 3, Was

CRITICS NOT SATISFIED.

Plane for Morrison Bridge Do Not Please Everyone.

Gritics of the new Morrison-street bridge have already raised their voices. The specifications announce that the tracks of the City & Suburban Railway company on the structure are to be inclosed in "guards" and that delay of the traffic of the railway for more than the traine of the railway 100 and 100 per day indemnity from the contractor.

If there is any indemnity, say the critics, it should be paid to the city, or at least not all to the railway company. These same persons insist that inclosure of the tracks will give the street car company exclusive use of that part of the bridge traversed by the cars.

At the City Engineer's office yester-day the complaints were held to be groundless and without reason. The "guards" are not to be high fences but longitudinal timbers several inches high upon the deck of the bridge. They will be such that vehicles can cross them if necessary. The city has already contracted with the railway to afford such protection. In the new franchise granted to the company, the city "agrees to construct a new bridge of sufficient width to lay a double track thereon, separate and protected from other traffic."

In the same franchise the city agrees to stipulate in the building contract that the contractor shall pay a penalty to the company for a longer interruption of car traffic than 30 days. The Executive Board has fixed the penalty at \$200 per day. At the City Engineer's office yesterday it was announced that an additional indemnity for the city will be stipulated in the build-

ng contract.

Bids will be opened next Wednesday afternoon at 3 o'clock. Sixty days after the contract is let, construction must begin and 12 months thereafter must be of approved modern design and bidders will submit their own detail plans and specifications with proposal. The draw span is to be 384 feet long, and the entire bridge 1130 feet long. Two thousand tons of steel will be used. The roadway is to be 36 feet wide be-

tween the trusses. The present roadway is nearly 24 feet wide. A space 15 feet wide in the middle of the bridge will be occupied by railway tracks, thus leaving 10½ feet on each side for vehicles. The sidewalks outside the roadway are to be 7½ feet wide. Navigation must not be obstructed dur-

ing construction.

COULDN'T CORRAL CARRIE.

Miss Elwert Refuses to Sign Lease Under Coercion.

"I said that they might corral sheep, and they might corral cattle, but that they couldn't corral me; not much!" Thus did Miss Carrie M. Elwert, known as Carrie Nation around the courts, tell a story of an attempt to make her sign a lease in Justice Reid's Court yesterday.
It appears that Miss Elwert, acting for her brother, C. P. Elwert, in whose name the suit was brought, wished to force Mrs. Eliza Leezer and her husband from a lodging-house at 387 Yamhill street owned by Elwert. The Leezers had rent-ed the lodging-house, and they stated that Miss Elwert had gone so far as to post notices in the neighborhood warning the public from renting rooms from the Miss Elwert's astonishing tale was that
