CHRISTMAS HEADQUARTERS

1903

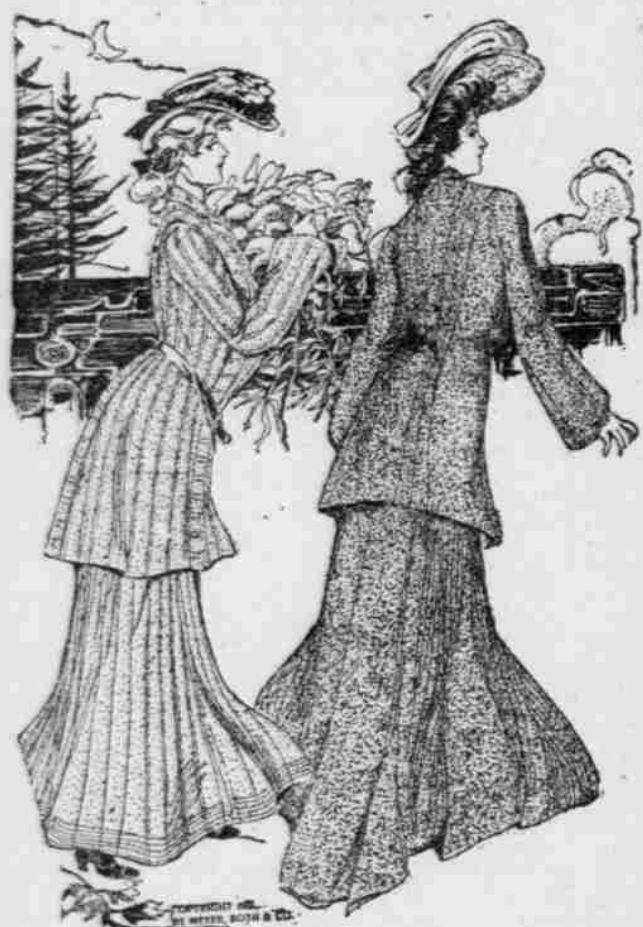

What a Christmas Store this is—Only took from Thursday till today to make this a Holiday Store from basement to roof—A wealth of interest from the little things which the child's penny can buy to convey the indefinable spirit of Christmas giving to that which costs hundreds of dollars and takes with it some token of remembrance—To prescribe would be treason, but Meier & Frank's is a warehouse of suggestions and there are prices tomorrow that are real revelations in merchandising—Do your shopping before the last few weeks, you'll find it ever so much easier

Never Such Toys—Never Such Prices

Build your anticipations as elaborately as you wish, you'll find them outdone at this congress of nations—Toys from Germany, Toys from Austria, Toys from England, Toys from Japan, Toys from China and a marvelous display of the genius of the Yankee. No other local store gives the toy business the expert attention it receives here—We go to first hands, buy huge quantities and vast assortments for our big wholesale business, which fact enables us to make an immense retail showing and at the very lowest prices—When you are eating your New Year's dinner our toy chief is already on his way East to prepare for the next Christmas—Purchasing at this early date permits time for all his domestic and imported goods to come to Portland by water shipment, a huge saving in the toy business—It's ridiculous to compare other local displays with the Meier & Frank Toyland—Outside of New York and Chicago this showing stands second to none—Make your money appropriations what you will, Meier & Frank will aid you to keep them within the limit—We again encourage the early-buying plan—it will save you much trouble and annoyance—We carefully pack and store all holiday goods free of charge and will deliver same any day you desire—Bring the children to Third Floor
