THE PERFECT RANGE

Grand Exhibition and Sale of BUCK'S FAMOUS STOVES & RANGES

NEW YEAR GREETING
AND GLAD TIDINGS
FOR RANGE BUYERS

BUCK'S STOVES AND RANGES HAVE ARRIVED AT OUR STORE

For several months we have been informing our customers and prospective customers that with the first of the new year we would inaugurate our Range and Stove Department with an exhibition of the most perfect specimens of the stovemakers' craft. Today we make good our promise by inviting you to call at our store and inspect the FAMOUS BUCK'S STEEL RANGES and COOK STOVES which we have placed on exhibit on our first floor. The advent of these "Perfect" Ranges and Stoves marks a new era of comfort for the housekeepers of Portland. This may seem an arrogant assertion on our part—but we know whereof we speak. No greater truth has ever been told than the assertion "There is no range like the BUCK'S RANGE."

We feel that in our few months of prosperous business in this city we have won the confidence of the home-makers and home-furnishers. Our goods have always been just what we advertised. We therefore claim supremacy for the BUCK'S STOVES and RANGES with a confidence that our assertion will meet with approval. We do not, however, rest upon the assertion. These "full-of-merit" Stoves and Ranges will win their own way.

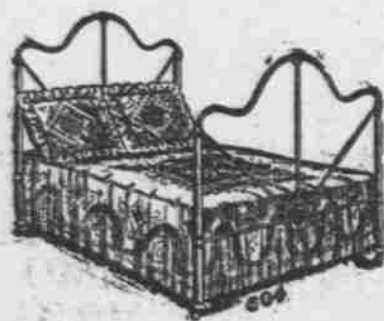

"Beauty is but skin deep," is an old saying—but not always true. Our Ranges are so handsomely finished that the purchaser falls in love with them at first sight. That's half the battle. The other half is expressed in another old saying: "Handsome is as handsome does." And it's in doing "handsomely" that these Ranges and Stoves excel. They are the result of fifty years' experience in stove-making. In them is incorporated every improvement and merit known to generations of experts. Every objectionable feature has been eliminated and improvement after improvement added until today they stand as a monument to XXth Century skill and enterprise.

The frames are made of solid, cold-rolled steel, and the oven and all removable parts of the finest caststeel, not an ounce of scrap steel or iron being used in the construction. The flues are lined with heavy asbestos-board and not an inch of sheetiron is used in the whole Range. The firebox is made of the best grade of gray iron and is fitted with the Duplex Grate, which can be changed from coal to wood by a "simple twist of the wrist." The dampers and checks are fitted accurately and insure perfect draft.

The oven is the "supreme test" of all Ranges, and there is no oven like the Buck's. Made of solid steel, it has a gravity-door and perfect circulation. It bakes and roasts evenly throughout. It is the cleanest and most sanitary oven known, for the door and racks are coated with a White Enamel that is indestructible. You can wash them like a plate, and grease or dirt never accumulates in the oven. It is by this coating that these Ranges are known as "THE GREAT WHITE ENAMEL LINE."

Buck's Stoves and Ranges are finished just as carefully inside as on the outside, making them absolutely perfect. The climax of construction.

YOU ARE CORDIALLY INVITED TO CALL AND INSPECT THEM
