

PROMINENT PHYSICIANS WHO INDORSE PE-RU-NA

Dr. M. C. Gee, of San Francisco, Says: "Pe-ru-na Is of Especial Benefit to Women."

ROBERT R. ROBERTS M.D.

Robert R. Roberts, M. D., Washington, D. C., writes: "Through our own experience as well as that of many of my friends and acquaintances who have been cured or relieved of catarrh by the use of Hartman's Peruna, I can confidently recommend it to those suffering from such disorders and have no hesitation in prescribing it to my patients." — Robert R. Roberts.

Dr. M. C. Gee is one of the physicians who indorse Peruna. In a letter written from 515 Jones street, San Francisco, Cal., he says: "There is a general objection on the part of the practicing physician to advocate patent medicines. But when any one medicine cures hundreds of people, it demonstrates its own value and does not need the indorsement of the profession. "Peruna has performed so many wonderful cures in San Francisco that I am convinced that it is a valuable remedy. I have frequently advised its use for women, as I find it insures regular and painless menstruation, cures leucorrhoea and ovarian troubles and builds up the entire system. I also consider it one of the finest catarrh remedies I know of. I heartily indorse your medicine." — M. C. Gee, M. D.

Dr. E. W. McLewin, 57 Coburg St., Ottawa, Can., writes: "I have had ample opportunity to observe the curative value of Peruna, especially in chronic cases of catarrh of the head, respiratory organs or the stomach. Catarrh is, as a rule, simply a prolonged cold which affects the mucous membrane lining the lungs, or any organ affected. Peruna is an effective remedy, as it acts on the vaso-motor system of nerves with benefit. It increases the tone of the blood vessels and causes them to act in their normal healthy condition. I have been much pleased with the cures that have come under my notice, and am satisfied that you have placed a remedy before the suffering which is at once valuable, reliable and destined to become very popular with the great masses of the people who have small means and want to secure a remedy which they can depend on. I therefore consider it a household remedy of superior value." — Ernest W. McLewin.

Medical Examiner U. S. Pension Office Says "I Have Often Prescribed Pe-ru-na in My Practice—I Cheerfully Recommend It."

breath and frequent headache, or it would go to the lungs, causing inflammation and soreness, which caused me much suffering and anxiety. "I never found a remedy which would break up a cold as effectively as Peruna. Within a few days I noticed a change, and was usually well within a week or ten days. Three times within the last two years I have had reason to be thankful to Peruna. I now find that if I take a couple of doses when I have been exposed to inclement weather it prevents my catching cold." — Mrs. Dr. McLewin.

DR. JAMES CROZIER

JAMES CROZIER, M. D., formerly U. S. Pension Office Medical Examiner, formerly Medical Board of Referee, U. S. Pension Office, in a letter from Washington, D. C., says: "I have often prescribed Peruna in my practice for catarrhal troubles, and after giving it a fair test I can cheerfully recommend your valuable remedy for cough, colds and catarrh in its worst stages. It is also one of the best tonics I have ever prescribed." — James Crozier, M. D.

President of the Hartman Sanitarium, Columbus, Ohio.

DOCTOR S. B. HARTMAN

"Most Ills of Life Are Caused By Catarrh."

"Free From Catarrh No Man Need Fear Disease Germs."

Inventor of Pe-ru-na, the Greatest Catarrh Remedy.

"I do not believe in cure-alls, nor have I ever claimed that Peruna was a cure-all. Peruna cures just one disease—catarrh—but, as you well know, any organ in the body is liable to catarrh. Catarrh assumes many phases, is subject to many complications, and is consequently known by a great many different names. In claiming, however, that Peruna will cure these different conditions, I am only claiming that it will cure one disease—catarrh." — S. B. HARTMAN, M. D.

A physician of wide celebrity called upon Dr. Hartman one day and after the usual salutations had passed between them, the doctor suddenly remarked: "I have called to see you, Dr. Hartman, to satisfy my mind on some points. I have always been opposed to advertised methods and considered them all more or less frauds. But I have known you so long to be a renowned physician and an honorable gentleman, that I am puzzled to know which of us is wrong."

A Duty to Advertise Pe-ru-na. "Well, it may turn out that neither of us is wrong. We both are sincere in the matter according to our understanding. I have a good medicine; I want the people to know it. I believe it would be positively wrong for me to conceal the fact. I believe it not only to be my privilege to advertise Peruna, but my duty to do so."

Hartman Does Not Believe in Cure-alls. "Neither do I believe in cure-alls, nor have I ever claimed that Peruna was a cure-all. Peruna cures just one disease—catarrh—but, as you well know, any organ in the body is liable to catarrh. Catarrh assumes many phases and is subject to many complications, and is consequently known by a great many different names. In claiming, however, that Peruna will cure these different conditions, I am only claiming that it will cure one disease—catarrh. Can you find any fault with that, doctor?"

Pe-ru-na Enriches the Blood and Increases the Vitality. "Well, in the first place, nervous prostration and neuralgia are each directly dependent upon the blood and a low state of vitality. Now Peruna immediately enriches the blood and increases the vitality by producing perfect digestion. This it does in its action on the mucous membrane of the stomach and other digestive organs. If the truth were known in these cases I suppose we would find that catarrh of these organs was the first cause of the lowered vitality which brought on the nervous prostration and neuralgia. Thus you see it might be that Peruna will cure all such cases of nervous prostration and neuralgia simply because it cures catarrh."

"In can see the force of your reasoning in these two affections, but how about malaria? Surely malaria is not caused by catarrh?" "Are you quite sure of that, doctor?"

How do the malaria germs find their way into the system? "They enter with the food, water and air which we consume." "Enter where, doctor?" "Why they enter through the mucous membrane, of course—of the lungs, stomach or bowels." "Well, now are you perfectly sure doctor, that they would be able to enter through these membranes if they were perfectly healthy, or in other words, perfectly free from catarrh?" "I suppose, of course, that health would be a protection, if not an absolute barrier."

The Pe-ru-na Buildings.

"But are not my claims valid? Are not my arguments logical? If they are not, show me my fault. If they are, you ought to accept my conclusions." "I will think this matter over before attempting to make you any reply. It doesn't seem possible that all this can be true; but now as to heart disease. What are you going to do with the claim that Peruna will cure heart disease?" "Heart Disease Often Due to Dyspepsia. "If you mean by heart disease, inflammation of the covering or lining of the heart (pericarditis and endocarditis), then I agree with you that Peruna will not cure heart disease. Neither will any other medicine. But you know, doctor, that there are thousand and one functional disturbances of the heart caused by irritation of the pneumo-gastric nerve, which the people call heart disease. These disturbances of the heart are even more difficult to bear than organic disease of the heart, and Pe-ru-na will cure them simply because it cures any catarrhal affection of the digestive tract. Most of the so-called heart disease is dyspepsia at bottom, as you know."

"Yes, I grant you that, but I have heard it frequently stated that Pe-ru-na will cure organic diseases of the heart." "Enthusiastic Statements Concerning Pe-ru-na. "But, of course, I am not responsible for all the statements that the people make, yet even this proposition will bear a little scrutiny before it is set aside as being wholly false. Now, doctor, tell me what you would do if you had a case of organic disease of the heart?" "I would do all I could to equalize the circulation of the blood, sustain the vital powers and keep up the nutrition of the patient."

"Is that all you could do for your patient?" "Yes, that is all I could do."

"Well, Pe-ru-na will do exactly that, whether a person has heart disease or not. It will regulate the circulation, it will increase the vitality and assist nutrition. According to your own statement that is all that can be done. Why not use Pe-ru-na then as well as anything else?" "I think I will have to give up beaten today, but I will have to study up these questions and get some of your Pe-ru-na, so as to make a thorough test of your claims. Then I am coming to see you again, when I think I shall be able to break down some of your conclusions."

Dr. Llewellyn Jordan is the Medical Examiner of U. S. Treasury Department, Washington, D. C. Dr. Jordan is a graduate of Columbia College and served three years at West Point.

Dr. Llewellyn Jordan, Medical Examiner of the U. S. Treasury Department, Washington, D. C., graduate of Columbia College, and who served three years at West Point, has the following to say of Peruna: "The Peruna Medicine Co., Columbus, Ohio: Gentlemen: "Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change and I now consider myself a well man after fifteen months of suffering. Fellow sufferers, Peruna will cure you." — Llewellyn Jordan.

Dr. Leland Williamson, Yorktown, Ark., writes: "Having used Peruna both personally and having prescribed it for my patients for many years, I thought it would not be out of place to write you a few lines of my experience with same. I have taken Peruna as a tonic and catarrh remedy, and have used it in my practice, with always the same result, benefit to the patient. It tones up and strengthens the various organs of the body, breaks the catarrhal mucous membranes, and is a boon to suffering humanity. It is a fine Spring tonic, and a splendid remedy to ward off the distressing effects of grippe, a good tonic after pneumonitis or malarial fever—in fact, an all around tonic and builder. It is a splendid remedy for weakly, broken down women, and a remedy that should be used by any one needing a good strengthening tonic and blood purifier. I could say much more, but any one needing such a remedy, a trial will convince of its true merits." — Leland Williamson, M. D.

DOCTOR ENSOR, Supt. South Carolina State Institution, indorses the Catarrhal Tonic, Peruna. Dr. J. F. Ensor, Postmaster of Columbia, S. C., late superintendent and physician in charge of state insane asylum at Columbia, S. C., writes: "After using your Peruna myself for a short period, and my family having used and are now using the same with good results, and upon the information of others who have been benefited by it as a cure for catarrh and an invigorating tonic, I can cheerfully recommend it to all persons requiring so effective a remedy." — DR. J. F. ENSOR.

Dr. G. B. Crowe, a Physician of Prominence, and a Very Influential Man in Alabama.

Dr. G. B. Crowe, a physician and a very influential man in Alabama, is chairman of the Populist State Committee. In a recent letter to Dr. Hartman, of Columbus, O., he says: "Peruna is a most valuable medicine. It affords me unlimited pleasure to testify as to the merits of your remedy as a catarrh cure. I have used it as such and find it is of very great benefit when my nervous system is run down. I heartily recommend Peruna to all whose nervous systems are deranged." — G. B. Crowe.

J. W. Hamilton, M. D., Sheltonville, Ga., writes: "I have used Peruna in a great many cases of debilitated conditions of females and also in many cases of catarrh with good success, and can recommend it. I shall always recommend Peruna in all such cases and also as a tonic." "J. W. H. HAMILTON."
