SINGING CLUB CONCERT. New Organization Presents an Enjoyable Programme.

Good singing and well-deserved applause marked the initial concert of the Swedish Singing Club Columbia at the Hibernian Singing Club Columbia at the Information Hall last night. That much interest is being taken in the work of this new organization was evident by the large attendance, the auditorium heing taxed to its capacity with music-loving people. The programme opened with a selection by a string quartet, composed of the Messrs. Syrene, Nordberg, Noren and Linde, members of the club, after which followed a few introductory remarks by the director, C. E. Holt, through whose effort the club has advanced sufficiently to make it eligible to membersehip in the National organization known as "Swenska.

SMITES THE PRESIDENT.

Smasher Sald to Be Imported by Employers in Leatherworkers' Strike.

Rather an unusual turn has been taken by the Leatherworkers' Union strike, which has been in effect for some time past. The statement is made by the unic men that the employers, who are under boycott, have imported smashers to adorn the features of union pickets with odds and ends of welts and bruises. The first union man to suffer from the alleged smashers is E. M. Hogue, president of the union, Hogue has had one May Schul. the union. Hogue has had one Max Schul battery. The warrant was issued by stice Reid. Hogue said that he was doing picket duty near First and Washing-ton streets several evenings since, when the defendant approached and swatted him in the face without a word of warn ing. There was no other way to explain the affair, in Hogue's opinion, than that the employers had hired ruffians to ad-

minister thrashings. Schulpius was arraigned on the charge yesterday morning, entering a plea of not guilty. His case was set for tomorro morning at 9:30 o'clock

OUT OF TUNE.

Some Ways of Plano Selling Entirely Out of Harmony With Legitimate Methods.

Attention is called to the schemes of a gang of plano swindlers who are operating in this city. Advertisements appear in the newspapers of great bargains in planos by parties who are leaving the city, etc. These planos almost invariably prove to be of the chcapest kind, the price asked being really double their value. Exposures of these "fake" sales have been made in a number of the larger cities, among them Minneapolis, Minn.; Chicago, Ill.; Philadelphia, Pa., and San Francisco, Cal. There may be an occasional genuine sacrifice of a good plano, but in the majority of cases "there's a darky in the woodpile." It will pay you to telephone or call for one of our experts, who will make careful examination and give accurate estimate of an instrument's value and condition, and also make report as to title.
