Can Be Secured With Proper Advertising.

It Will Cost a Large Sum to Place the Oregon Product Properly Before the People of the East.

SALEM, Or., May 7 .- (Special.) - Discussing the object of his recent Eastern trip, H. L.

the interest of advertising Oregon prunes went directly to St. Louis and first spent ne time with the advertising concern which andled the advertising campaign for Callcampaign so late in the Spring would

several causes of the low prices? several causes. Trade is freaky, be reason that the wisest traders smit to explain, there has been as well as producers, a fair return for their

Another reason is the poor quality of cur-ing and packing of many Oregon prones. Im-press, if you can, indelibly on the mind of every Oregon grower the moessity of drying Oregon prones perfectly dry. We must get away forever true the idea of half-drying and depending upon the process to equalize them. Every prime should be thoroughly cured Every prune should be thoroughly cured through to the pit. We have been injured insettlemably by the reports in the East that great quantities of Oregon prunes were spoiling in the bins. This report, of course, was greatly exagneented, but the experience of past years leads buyers to take it more seriously than it deserves. Oregon prunes will keep as long as any prune in the world, if they are properly cured and properly packed."

Itulian vs. French Prunes. The California Fruit Grower, of a recent date, donless that there is any competition between Oregon and California prunes. That

There is an impression, both in California chere is an impression, both in California and in the Northwest, that the Oreson prime competes largely with Californiae, and vice versa. This is a mistake, and if understood and taken into consideration by growers and shippers in Oregon and Washington, would prove a distinct benefit. There are, of course, prove a distinct benefit. There are, of course, some few French prunes grown in Oregon, and these appeal to the same taste and trade as the California French prune, but by far the greater part of the prunes grown in the Northwest are of the Italian variety, and are tart or acid in flavor, whereas the French prunes to some people, the great difference in flavor and taste between the sweet French prune and the tart Italian is such that those who prefer the one do not care for the who prefer the one do not care for the other, the choice depending almost entirely on

tasts. Now, with this understanding of the situation, if would appear that Oregon Italians would do much better if marketed as such and on their own account, in markets established for that particular prune, than to enter the general competition with the Callfornia French series."

Stock Trading at New York Verges on Stagnation -- Dissatisfaction With Iron and Steel Outlook.

week has been the abundance and cheapness of money, and the neglect, verging on stagmation, of the market for securities. Intermittent ad-vances and declines from day to day have not been sufficient to carry the level of prices as much as a point away from last week's level at any time except for a few stocks. The effect has been so discouraging to operators that even the professional traders have almost absoluted their efforts.

the centand was strong and took up all offering. Frites at the opening of the coming

Dally Treasury Statement. WASHINGTON, May 7.-Today's statement of the treasury shows:

NEW YORK BANK STATEMENT. Still Higher Records for Loans and Deposita.

NEW YORK, May 7.-The Financier says: The striking features of the statement of the New York associated banks last week were still higher and most remarkable reclarge reduction in surplus reserve. Loans were vious weeks, extensive corporation and syndiwhich was transferred hither from Sar Fran-cisco list week. Deposits were increased by \$17,345,000, which amount is \$2,005,000 greater than the sum of increase in loans, less the decrease in cash. The required reserve was augmented through the increase in deposits by \$4,336,250, which sum, added to the loss of eash, makes \$10,420,000 as the increase in surplus reserve to \$22,728,200. Computed upon the basis of deposits, less those of \$55,007,400 public funds, the surplus is \$35,748,550. The daily averages of clearings were \$216.

public funds, the surplus is \$39,748,550.

The daily averages of clearings were \$216,000,000, or \$33,000,000 greater than in the
previous week, reflecting operations incident
to the expansion of leans. It may be noted
that that portion of the Panama money which
was withdrawn from the depositary banks
throughout the country under the Treasury
call of March 3, will be turned over to the
Sub-Treasury Monday by the Government.
This, however, will probably not directly affect the \$32,000,000 of public funds in the 10
specifically designated depositaries for trans-

Yesterday. -Receipts at the Portland Union Stockyards yesterday were 525 cattle, 400 sheep and 94 noge. The following prices were quoted at

CATTLE-Best steers, \$4.75; medium, \$4;

ONLY TWENTY CARS PEACHES REMAIN IN CALIFORNIA. Outlook is for Small Output of Orled

Apricots--Prune Yield Will

Also Be Lighter.

GAN PRANCISCO, Mus 7 - (Reselet) - An anthority on cured fruits says only 20 carload of dried peaches remain unrold in the state and prices have advanced ic. Prunes and raisins are plentiful, quiet and weak, but everything else, except apples and pitted plums, are practically exhausted. Indications eeason, and the prune yield will be lighter than expected. Raisins do not move well, as there is no guarantee on present quotations. that the Government is in the market for 5000 tens for shipment to Manila. The contract will undoubtedly be awarded in the North, as oats are source and high here. The hay award will probably be made here. Millstuffs are

fresh fruits. Oranges cleaned up well at firm-er prices. Lemons were firmer. Cherries and

except fancy Oregon Burbanks. Old onlors are firm. New red are weaker. Asparagus, peas and tomatoes are firmer. Other early Butter is easy. Cheese is unchanged. Eggs are weaker. A carload of Bestern is offering

at 20c. Receipts, 76,000 pounds of butter, 15,

EXPECT BULLISH REPORT.

Shorts Cover Freely in Chicago Wheat Pit Yesterday.

CHICAGO, May 7.-A fair degree of firmthe aiready bagkward seeding operations. On the small initial advance, local longs took profits, and in consequence the market developed an easier tone. There were plentiful rains throughout the Winter wheat country, the effect of which was to encourage cales for short accounts. Prices held about steady until late in the session, when renewed profit-taking carried July down to 85%c. Shorts covered quite freely on expectations of a builtan Government crop report Tuesday. As a result, part of the loss was regained. The market closed steady with July at 86986%c.

The easier tone in the wheat market had a depressing effect on corn prices, but there was sufficient support from pit traders to provent any loss. The close was steady, with prices at about the lest figures of the day. July opened unchanged to a shade higher at 48%c to 48%c, sold down to 48c and 48%c, closing at the top.
