Dr. J. R. Cook offered a resolution to appoint a special committee of seven to revise the rubrics of the ritual upon the administration of the sacrament. Dr. Cook said the language upon this im-portant paragraph in the church's disi-pline was not clear, and in discussing it Dr. wanted to know "how much more proxy worship is to be introduced in the church." The resolution was referred to the commit-

Among the other resolutions are those to change the reference of the subjects of to change the reference of unities on state amusements from the committee on state of the church to that on revivals; to appoint a special committee to hear all jucations pertaining to the work of the German branch of the church; to consid question of relation of superannuated sishops to the church and to define their duties and priviliges; to instruct the church publication to refuse to print advertisements relating to the sale of individual communion cups and to instruct the committee on piscopacy to allow other than delegates o attend its sessions. The last resolution, which was directed against executive sessions, was tabled. The other resolutions were referred to the proper committees. The conference adjourned at noon to meet next Monday morning at 8 o'clock.

All the protestant churches in Los An-geles and adjacent cities and towns will be occupied tomorrow by ministerial delegates to the general conference. There will be mass meetings at the conference hall tomorrow afternoon 'and evening, when addresses will be made by many prominent members of the conference.

There are now before the conference a sufficient number of memorials, resolu-tions and petitions on various subjects to occupy a session lasting twice as long as the present one is planned for. A favorite theme is the amusement para-graph, most of the memorials on this

abject being against any change. The state conference of Illinois appears to be supporting Bishop McCabe in his desire to open the American University, and has asked for the removal of the \$5,000,000 restriction clause against that institution. The temperance question is also up for

discussion. The Rock River lay conference petitions that the President and Congress of the United States be re-quested by the general conference to prohibit the sale of intoxicating liquors n, the territories, islands, District of Columbla and all other places where the Federal Government has political control. The minority report of the book comnittee, signed by five members, has been distributed among the delegates. It is a voluminous report, reviewing the history of the book concern and the present controversy, and seeking to show that money will be lost rather than saved by the

consolidation. A strong attack is made upon the corporation or trust idea.

Dr. Buckley, the celebrated leader in debate, was on a belated train, but he was present in the afternoon session of the first day and was the first man to get the floor when business was in order. His success elicited applause. He has the reputation of securing the attention of the chair oftener than any other member, with Dr. T. B. Neely as a good second. Random Notes.

The detention of Bishop Thoburn at a hospital in Vancouver, B. C., on account of a broken leg, is greatly regretted. Resolutions of sympathy were adopted.

The singing of a group of colored men rom Claffin University is a delightful feature of our gatherings. They can render "Swing Low Sweet Chariot" m the true Fisk Jubilee style.

The Chamber of Commerce is to be credited with the bountiful supply of fruit provided in the lobby. A great concert by 600 trained singers

and a fine band was given in the Pavilion on Tuesday evening. The reception on Monday evening was also a brilliant becasion. The hall, seating 3000, did not

hold all who sought admission. The bishop's address, a long and im-portant deliverance, requiring nearly two hours for its reading, occupied attention during the morning session of Thursday. We will cite more of its recommendations later on.

Among those who responded to the addresses of welcome by Governor Pardee and others, was Chief Justice Love, of the State of Delaware, a member of the body, who made a very able addres
