THE WAR IN THE FURNITURE AND CARPET TRADE IS ON

For many years we have sold the bulk of the cheap furniture and Carpets used in Portland. We have sold these goods so cheap no other store could think of competing. Five years ago our Eastern buyer purchased an immense stock of the highest and best grades of furniture and carpets and each year since then we have secured the best in household goods. Every novelty, every new finish or shape, in furniture, every standard brand of carpet, in the newest and prettiest patterns, are found in our immense stock. We are forced to confess that the trade in our high-grade furniture has not come up to our expectations. The reason is simple. People knew we carried a cheap line of furniture at bargain prices, but did not realize that we also carried the highest grades of carpets and furniture at extraordinary low prices. So we have begun a great bargain war in medium and high-grade furniture and carpets, and have cut and slashed prices. We are going to get the furniture and carpet trade by offering such sensationally low prices that you cannot help but give us your trade. All we ask is that you give us a call, look over our carpets and furniture and you will then realize the great values we are giving.

Alaska and Sitka Refrigerators

The kind that uses little ice and keeps the food pure and wholesome. All refrigerators white tile finished, charcoal filled, made of best hardwood and warranted to give perfect satisfaction.
