## ACCEPTS PROMISE OF PORTE.

United States Deems Them Sufficient for the Time.

WASHINGTON, Aug. 20 .- Inquiry at the State Department confirms the Con-stantinople advices that Mr. Leishman has taken the method of recording the promises of the Turkish Government to him in the shape of a formal note reca-pitulating those promises, and stating that the United States accepts them as sufficient for the time and is fully con-fident that they will be redeemed. Having saved the principle in this case

of recognition of equal rights for the American citizens in Turkey, it is fully expected here that some time will be oc-cupled in settling the details, particu-larly as Turkish diplomatic methods are

otorionsly alow. The department notes with gratification that the permits already asked for by American educational institutions in Tur-key have been provisionally granted by the local authorities, enabling them to continue their business; but it will take some time to secure action on the additional list applied for, no less than 300 m number. Altogether the State Depart-ment officials express their satisfaction with the status of the Turkish negotia-tions on this point.
