

TO PLAN FOR FAIR

National '05 Board Will Meet Tomorrow.

COMMITTEES TO BE NAMED

One for Allotment for Funds Is Necessary at Once.

SPACE MUST ALSO BE DIVIDED

Roosevelt Is Expected to Appoint a Disbursing Agent in the Near Future—Souvenir Coins Are Ready.

OREGONIAN NEWS BUREAU, Washington, Aug. 27.—The National Exhibition Board will hold a meeting Monday with a view to organizing formally and appointing committees. An executive committee will be elected, and Chairman Hill will appoint four other committees, one on the allotment of funds and space, another on installation and decoration, a third on freight and transportation, and a fourth on by-laws.

As the plans for the Government buildings are nearing completion and will soon be ready for advertisement, it is necessary that these committees be appointed, especially that on allotment of funds, which will have supervision of the payments for work on the Government buildings. This committee must also make known the space the various departments which are to exhibit in the Government buildings will be allowed.

The committee on freight and transportation will be charged directly with the removal of the Government exhibits from St. Louis and other points to Portland, and superintending their safe return after the close of the Exposition.

For the present, the committee on installation and decoration will not be called upon to act, but the committee on by-laws will at once frame general rules for the guidance of the Government board, which will probably prescribe regular monthly meetings until after the close of the Exposition.

It is expected that President Roosevelt will, before long, appoint a disbursing agent for the Exposition, through whose hands all payments for work on the buildings, transportation, installation and care of exhibits will be made. It is the present intention to combine the offices of disbursing agent and chief clerk, and appoint to this place Andrew Geddes, who is disbursing agent for the St. Louis Exposition. This office will carry a salary of probably \$2000 per annum.

The Mint Bureau was advised this morning that Philadelphia mint has completed the colage of the first 25,000 Lewis and Clark souvenir dollars. Immediately a telegram was sent to Director Goode notifying him that as soon as he deposits \$25,000 with the Treasury, these coins will be turned over to him.

GREAT NAVAL DOCK WANTED

Puget Sound Yard Is Again Finding Many Warm Supporters.

OREGONIAN NEWS BUREAU, Washington, Aug. 27.—A determined effort will be made again this year to induce the Secretary of the Navy to recommend an appropriation for the construction of a second dry dock at the Puget Sound Navy-yard, of dimensions greater than any other in this country. It seems to be the consensus of opinion among officers familiar with the conditions at Bremerton that within a year or two another dock will be necessary, in order to permit the yard to carry on all the repair work its plant can handle. It is the general belief that the new dock should be of masonry and of sufficient size to permit the docking of two vessels at one time. There is only one dock in the country today which can accommodate two vessels, and that is the private dock at Newport News. Already the Navy Department has received from Naval Constructor H. G. Wright, of Puget Sound, a recommendation that a second large dock be constructed at that yard, and similar recommendations have been made by other yard officials.

Admiral Endicot, chief of the bureau yards and docks in the Navy Department, strongly recommended this new dock in his last annual report, and says he expects to renew his recommendation this year. He believes the Puget Sound yard will be seriously handicapped, unless its docking facilities are increased immediately. It is his opinion that there is ample room for a new dock in the present yard, although a year ago Secretary Moody refused to recommend the new dock on the ground that there was no room, and urged the matter be set aside until such time as the yard were enlarged.

There is hope that Secretary Morton will be more generous than his predecessor in his treatment of Puget Sound, still it is expected that he will recommend the purchase of additional land for enlarging the yard. It was estimated a year ago that a masonry dock of the proportions favored by Naval officers would cost in the neighborhood of \$1,500,000.

cessor in his treatment of Puget Sound, still it is expected that he will recommend the purchase of additional land for enlarging the yard. It was estimated a year ago that a masonry dock of the proportions favored by Naval officers would cost in the neighborhood of \$1,500,000.

FUNSTON ATTACHED TO WEST

He Would Remain at Vancouver Had Not Williams Sent His Goods On. OREGONIAN NEWS BUREAU, Washington, Aug. 27.—General Funston today notified the War Department that he would relinquish the command of the Department of the Columbia on October 1 and proceed to Chicago to take command of the Department of the Lakes, in accordance with recent orders. He says he would prefer to retain his present position at Vancouver Barracks, inasmuch as the War Department has given him preference, but he finds that General Williams, who was ordered to relieve him at Vancouver Barracks, has already moved his household effects to that post and he thinks it would be unjust under the circumstances to insist upon remaining at his present post.

New Northwest Rural Routes.

OREGONIAN NEWS BUREAU, Washington, Aug. 27.—Rural free-delivery routes were today ordered established October 1 as follows: Oregon—The Dalles, Wasco County, one route, area 24 square miles, population 472. Washington—Richardson, San Juan County, one route, area 16 square miles, population 544.

Improvement for Vancouver Post.

OREGONIAN NEWS BUREAU, Washington, Aug. 27.—The Quartermaster-General today authorized the drilling of a new well at Vancouver Barracks, also the construction of a Quartermaster's storeroom, Quartermaster's shop, and a tailhouse, all of frame, at Fort Lawton, Wash.

TRAIN RUNS INTO CLOUDBURST

Engineer Keeps Going and Succeeds in Crossing Flooded Section.

SAN BERNARDINO, Cal., Aug. 27.—The fourth section of the westbound Santa Fe train, running No. 5, which has been detained in rising water for the past four days, and had been switched to the Southern Pacific tracks via Deming, N. M., ran into a cloudburst again this morning between Beaumont and Hinda, Cal., east of San Bernardino on the main line of the Southern Pacific.

The train, accompanied by half and a staff of wind, came down in torrents, washing out bridges and roads and pouring rivers of water down the hills that flank the tracks and destroyed the telegraph lines.

When No. 5 encountered the flood, ten inches of water was pouring over the rails and the engineer was obliged to stop. He tried to back up, but the water was so deep that the engine could not get back. He then started forward, and succeeded in crossing the flooded portion of the track, but while he was doing so, all wires were down east of Hinda Junction.

TERRIBLY BURNED BY ACID.

Two Meet Death and as Many Are Injured by Falling of Elevator.

NEW YORK, Aug. 27.—Two men were killed and two fatally injured today by the falling of an elevator at the Babbitt Soap Factory.

On the elevator with the men when it fell were eight cases of muriatic acid, but while he was reaching the floor, the acid was spilled over the men. The dead men are Thomas Prince and George Bennett, and the injured are Louis and Harry Bennett.

Smoking in Bed Costs Her Life.

NEW YORK, Aug. 27.—Mrs. Nanna Clasp, 80 years old, was burned to death by the falling of an elevator at her son-in-law's home, in Harlem, as a result of her fondness for smoking a pipe. Many efforts had been made by the family to break the old lady's craving for tobacco, but while he was laughing at the young child were asleep and the son-in-law was absent, she lay down on her bed to enjoy a smoke. The son-in-law came in shortly and found the apartments in flames. With great difficulty he rescued his wife and baby. After the firemen had extinguished the flames they found Mrs. Clasp's body burned to a crisp. Apparently she had fallen asleep and let her pipe drop down on her bed.

Among Victims of Eden Disaster.

DENVER, Colo., Aug. 27.—Miss Mercedes March, 18 years old, was one of the probable victims of the Eden wreck of August 7. She is a daughter of Mrs. Caroline March, of Patoka, Ill., who has asked the Denver Police Department to aid in locating the missing young woman.

ROBBED ON THE DESERT.

American Student Loses Everything but His Suit in Land of Sahara.

NEW YORK, Aug. 27.—Judson Paige, a graduate of the University of Chicago, who arrived here by steamship Saturday with a story of robbery on the Desert of Sahara which caused him to make one of the shortest customs declarations on record, in addition to his work in many of his possessions to be declared dutiable. Paige went to Africa in connection with the survey work of the Cape to Cairo railroad. In addition to his work he made a collection of curios from the various native tribes. He also got hold of a lot of rugs made by the natives, as well as a number of valuable objects, accompanied by several negroes, began the journey through Egypt and the northeastern part of the Sahara into Tripoli. It was while traversing the desert that he was robbed of his valuable collection and all his wardrobe except the suit he wore.

LOST 2500 MEN

Russians Give Cost of Liao Yang Battles.

VICTORY DEARLY EARNED

Japanese Fought With Their Usual Desperate Courage.

PROBABLY ADVANCING AGAIN

St. Petersburg Believes Attempt to Reach the Stronghold of Kuro-patkin's Forces Has Been Resumed.

LONDON, Aug. 28.—A Central News dispatch from Rome says that it is stated on good authority that Port Arthur has fallen. There is no official confirmation.

ST. PETERSBURG, Aug. 28, 3:30 A. M.

The report from Liao Yang of the successful check of the Japanese attack on General Kuropatkin's position was received here with the greatest satisfaction, and further details are anxiously awaited.

Reports already to hand make the Russian losses in maintaining the several positions in the neighborhood of 2500 men. A long official telegram has been received at the War Office, but it does not give a hint of what is transpiring now. It is more than probable, however, that the Japanese have resumed their attempt to reach Liao Yang. The silence on this point of the special dispatches filed at Liao Yang rather confirms this view.

The hottest fighting occurred in the valley of the Lan, a small tributary of the Taishan river, a place between An Ping and Liao-shan. General Kuroki's first aim apparently was to separate the two principal Russian positions as forecasted in these dispatches August 25. The Russians in the valley of Lan lost 1400 men.

General Kuroki's army advanced in three strong columns, one northward along the valley of the Shinshih, a tributary of the Tai Tse, as far as Liao-dintan, whence a portion of this force marched westward to Miao Pao, threatening Anshanshan, the other portion pushing up the ridge extending from Miao Pao to Liao-dintan, where it was stopped by General Kuropatkin's Cossacks. The second column marched along the high road and occupied Ershah, whence the Japanese batteries shelled Liao-dintan, a couple of miles north-west, until the fire of the Russian guns silenced them. Several Japanese batteries were completely dismantled and were abandoned by their gunners.

The fighting at Tagow was of the most desperate description. The Japanese had the advantage of mountainous country, advancing along a ridge extending from Taitlapraty to Sniolodry. The latter place is situated on the high road, 10 miles southeast of Liao Yang. Possession of this point would render Lian Dian and An Ping untenable. It is not improbable that General Kuroki will therefore, repeat his attack in this direction.

The Japanese attack was characterized by the greatest boldness and arouses the belief in military circles that either General Kuroki has received considerable reinforcements or General Kuropatkin has sent the greater part of his army north, leaving only a couple of corps at Liao Yang.

SAKHAROFF DESCRIBES FIGHT

Japanese Fought With Their Usual Desperate Courage.

ST. PETERSBURG, Aug. 27.—The general staff has received a dispatch from General Sakharoff, giving a long detailed account of the fighting of August 28. He says that on that day the Japanese took the offensive along the whole front of the Manchurian army. At an early hour the Japanese occupied the railroad at Hengshien, Tounant and Han Chuan Pu, repulsing the Russian advance posts. Toward noon the attack in that quarter ceased. Before dawn the Japanese were concentrated against the Russian advance detachments of the Anshanshan position. The Japanese force consisted of a division and a half, with artillery. The Russian advance guard retired on the main position. The Japanese attack there was not obstinate. The Russian losses on the southern front were 150 men.

Japanese Attacks Simultaneous.

TOKIO, Aug. 27 (P. M.)—It is reported here that General Oku commenced the attack upon the Russians at Anshanshan yesterday, at the same time that General Kuroki commenced to attack them at An Ping. (Anshanshan is midway between Hancheng and Liao Yang and An Ping is 15 miles southeast of Liao Yang.)

JAPANESE FORCED TO RETIRE

Russians Capture Position Once Lost After a Hot Fight.

LAO YANG, Aug. 27.—The action of August 28 at Tunshupu, four miles southwest of Liao-dintan, continued a half-day, with varying success. The Japanese occupied the Russian position, but were subsequently forced to retire. The Japanese batteries opened the fight at dawn with a furious fire of shells, which destroyed Tunshupu, believing mistakenly that the village concealed a large force of Russian reserves.

The Japanese column advanced under severe bombardment, but was checked by the Buriat Cossacks, who were concealed in the fields of Chinese corn. The Burials behaved splendidly, standing off the Japanese attack three hours, but then were forced to retire in the face of the strong Japanese reinforcements and the hot shells thrown by the latter's howitzers.

The Russian batteries then opened fire for the first time, and the Russian infantry supporting the Cossacks swept forward and recaptured the position, silencing the Japanese guns.

RUSSIANS ARE CHEERED.

Arrival of Reinforcements Make Them Anxious to Fight.

MUKDEN (Undated).—The Associated Press correspondent here made the rounds today of the Russian positions in front of Liao Yang just before the Japanese began their advance. The Russians, the correspondent says, have a semicircle of splendid positions from Anshanshan to Mukden. Fresh troops and guns are arriving continuously and the Russian force is stronger than it has been at any previous time since the commencement of the war. The arrival of fresh European troops has increased the enthusiasm of the men, who are tired of retreating.

The road and the railway between Liao Yang and Anshanshan are crowded with transports of all sorts. It is said that Chinese regular troops assisted the bandits in the fight which occurred north of Mukden, August 25.

It is rumored that Mraquy Oyama, Commander-in-Chief of the Japanese forces in Manchuria, arrived at Hancheng, August 25.

Fashionable Cloak Under a Ban.

ST. PETERSBURG, Aug. 27.—The Prefect of Police of St. Petersburg has forbidden women to wear naval cloaks, which have become fashionable since the Chemulpo fight.

MAN NOT ISSUE

Shaw Refutes Argument of Democrats.

PRINCIPLES ARE FIRST

Secretary of the Treasury Speaks at Walla Walla.

ROOSEVELT IS A SAFE MAN

Opponents Contend He Is Not Because He Does Things and Is Ambitious for His Country's Peace and Prosperity.

WALLA WALLA, Wash., Aug. 27.—(Special.)—Leslie M. Shaw, Secretary of the Treasury, spoke tonight to 300 interested citizens at the Courthouse Square upon the issues of the National campaign. He was greeted with great enthusiasm. The Walla Walla Military Band furnished music.

An informal reception tendered Mr. Shaw at the Hotel Decatur was attended by many business men. Secretary Shaw took dinner at Senator Ankeny's residence.

In discussing political topics tonight, Mr. Shaw said in part: "Perhaps few of us recognize the importance of a great political campaign. Neither mathematics nor science nor statistics are among the natural institutions of the human mind. They must all be acquired, and the only time that the American people study statecraft is during a National campaign. Self-government is the hardest task ever yet undertaken by man, and if the American people continue self-government it will be because the rank and file study the science of self-government."

"You insist that your representatives in Congress shall understand the propositions before Congress, and you demand that they vote as to best conserve your interests. I am here insisting that you at the polls shall vote as to conserve your interests. I am here to demand the same character, if not the same degree of statesmanship, at the polls as you demand on the floors of Congress and in the State Legislatures."

Politics Not a Squabble for Office. "Politics is not a squabble for office. Politics is science of self-government. The issues of the campaign do not have their beginning and ending in the election of men to office. Candidates are usually acceptable men. A political party must be something more than an aggregation of office-seekers. A political party ought at least to represent some principle of self-government, and it ought to stand for the same principles of self-government continuously."

"I am not unmindful of the claim made by some of our Democratic friends that the issue shall be candidates. This is also welcomed. They will not attack the personal integrity of Theodore Roosevelt. They will not attack his patriotism. They will not attack his independence. They will not attack his wisdom, measured by the results of anything he has done or ought to have done. They will not claim that his Administration has been vacillating or disastrous. They will only express the opinion that the man who does things must, of necessity, think incorrectly, and that the man who is ambitious for his country's prosperity and for his country's peace and safety must be of necessity unselfish. The logic of their argument is that the only safe man would be some one who could be whipped into line so that whatever may have been his previous views, or whatever may be his present convictions, he is willing to acquiesce, for the time being, in anything he does not think expedient to oppose."

Party Principles the Real Issue. "Party principles are issues, not candidates. Grover Cleveland was so loyal to his party that he did not even oppose the cause of Mr. McKinley. He kept silent and remained away from the polls. He did not do this because he disliked William Jennings Bryan, or men who had secured his nomination, but he kept silent and stayed away from the polls because he would not vote for free silver. He did not vote for William McKinley, though I doubt not he personally admired the man, because he did not believe in protection. If there is any man who is not an independent voter, that man is Grover Cleveland. The personality of candidates has never been a factor in his political conduct. He has been as loyal to principle as any man I know."

"Loyalty to principle and statesmanship are not synonymous terms, however, though no man can be a statesman who is disloyal to principle. In this connection I wish to say that a man may be a statesman at the polls, as well as a statesman on the floor of Congress. You would not expect your Congressman to vote against a bill because he disliked the man who introduced the bill. You would not expect him to vote against the ratification of a treaty of peace because he did not like the Secretary of State who prepared the treaty. You would expect your Congressman and your Senator to vote for things that they believe right and true and beneficial to your interests, and I am insisting that the voter shall exercise the same standard of statesmanship at the polls as he expects his Congressman and Senator to exercise in the discharge of their duties."

Colfax Greets Shaw.

COLFAX, Wash., Aug. 27.—The citizens of Colfax were given a treat this morning in the way of a speech on the steps of the platform from Leslie M. Shaw, Secretary of the Treasury. Fully 500 people were present and the speaker, who was introduced by J. A. Perkins, received a warm ovation.

HIS WIFE DUCKY

Chicago Man's Saloon Is Entered by Mob.

WOMAN SHOTS TO KILL

Injures Leader of Crowd Chasing Alleged Nonunionists.

PURSUED SEEK FIRST REFUGE

Owner Promptly Barricades His Place, but Doors Are Broken—Arrival of Police Prevents a Second Assault.

CHICAGO, Aug. 28.—A serious riot in connection with the packing-house strike occurred tonight in front of a saloon on Ada street kept by Ignatz Hornatsky. Several men who were alleged to be non-union men were pursued along Ada street, and in order to escape the mob, which numbered several hundred and were pelting them with stones, they ran into the saloon of Hornatsky. The saloonkeeper barred the door after the men had entered and refused to admit the crowd. They at once smashed all the windows in the place and, breaking down the doors, rushed in and demanded that the saloonkeeper give up the non-union men. The saloonkeeper, who had managed to escape by the back door, and while the saloonkeeper barricaded himself behind the bar his wife, Mrs. Stella Hornatsky, ran upstairs and returned with a shotgun. She commenced to fire as soon as she entered the room, and her first shot took effect in the shoulder of Peter Wisor, who was leading the mob. The crowd at once fled from the place, carrying Wisor with them. Hornatsky then barricaded the doors and windows to the best of his ability, and the mob, after retreating a short distance, left two men to care for Wisor and returned to the attack.

Wife Waits for Mob.

Mrs. Hornatsky, with her shotgun, reloaded and took position in the doorway and stood waiting for the mob, when a wagon-load of police came around the corner in response to a riot call that had been turned in. The officers at once charged the crowd and dispersed it, capturing nine members of the mob, who were taken to the police station. Wisor is seriously hurt, but not fatally. The meeting of the executive council of the Butchers' Union has been set for tomorrow night. It is denied strenuously by all officials of the local unions that the strike will be called off.

Deported Colorado Lawyer Returns.

CRIPPLE CREEK, Colo., Aug. 27.—Edward J. Hanger, ex-attorney general of the state, one of the men deported last Saturday night by a mob, led by mineowners, returned to this city early today. He had walked over the hills from Cameron, carrying a gun, and he would protect himself to the best of his ability. He has not been molested. Frank J. Hanger, attorney for the Western Federation of Miners, who was also run out of the camp a week ago, has announced his intention to come back. Sheriff Edward Bell says he will endeavor to prevent any more deportations.

OREGON DELEGATES ARE NAMED

List for General Episcopal Convention is Given Out.

BOSTON, Mass., Aug. 27.—(Special.)—A full list of the delegates appointed from all parts of the world to the great Episcopal General Convention, to be held in October was given out today by the convention committee, and includes the following from Oregon: M. J. Morrison, D. D., Portland; Rev. William S. Short, Astoria; G. R. Van Waters, D. D., Portland; Rev. J. E. H. Simpson, Portland; Alternates: Rev. P. K. Hammond, Oregon City; Rev. William Conroy, Salem; M. J. E. Ewart, Sumpter; Rev. W. A. Breck, Portland.

CAMPAIGN AGAINST PROFANITY

Young Women in Pennsylvania Town Will See Law is Enforced.

BERWICK, Pa., Aug. 27.—A campaign against profanity in the streets here has been inaugurated by the Young Women's Christian Association. Copies of an ordinance recently enacted by the Town Council have been posted conspicuously about town. It forbids the use of profanity on penalty of \$10 fine or three months' imprisonment. Members of the association propose to secure the strict enforcement of the law, and have called on all good citizens to help them.

OREGON BANKS PREPARED.

They Can Easily Meet the Demand for Cash Incident to Crop Time.

WASHINGTON, Aug. 27.—For the purpose of ascertaining the ability of the National banks to meet the demand upon them incident to the annual movement of crops, the Controller of the Currency, August 4, sent to the National Bank Examiners, with the exception of those whose districts are comprised within the New England States and the City of New York, a circular letter of inquiry as to whether the demand in their respective sections would be greater or less than last year, and whether it would come earlier or later than last year, and whether the banks are better prepared to meet the demand on them from their own funds, and if there would be any increase or decrease in the amounts the banks will have to borrow.

Belated Trains Arrive.

LOS ANGELES, Aug. 27.—The first of the belated and stormbound passenger trains which started for this city over the Santa Fe line through Arizona, but which were forced to turn back to Albuquerque, N. M., owing to washouts, and make a detour via the Southern Pacific from Deming, arrived in Los Angeles tonight, five days late. It carries a party of 300 Canadians en route to San Francisco, and was known as the Cuthbert Special.

Will Christen Battleship Nebraska.

LINCOLN, Neb., Aug. 27.—Governor Mickey has named his daughter, Miss Mary Nain Mickey, to christen the battleship Nebraska, which will be launched at Seattle, October 7. Miss Mickey is 22 years of age and is the Governor's second daughter. The Governor and party will go to Seattle probably in a special train. A silk flag will be given to the ship by the Sons and Daughters of the American Revolution and citizens of the state have been asked to subscribe for the purchase of a silver service.

Baltimore Will Sail for China.

GIBRALTAR, Aug. 27.—The cruiser Baltimore, of the United States European squadron, will sail for China as soon as she has coaled.
