## THEIR WORK IS OUTLINED

**Executive Committee Shocked** by Situation in Far East.

CONGRESS OPENS TOMORROW

Roosevelt Will Be Requested to Call a Secret Session of The Haque Convention-Use of Submar-Ine Mines is Deplored.

ST. LOUIS, Sept. 10 .- The powers of the world signatory to The Hague Convention will be asked by the Interparliamentary Union at its 12th conference to intervene in the Russian-Japanese War; President Roosevelt will be requested to call a second session of The Hague Convention; compulsory arbitration will be advocated; the use of submarine mines in time of war will be deplored, and many kindred resolutions will be presented during the deliberations of next week. This action was decided upon today by the executive council of the union. The council organized by the election of Congressman Richard Bartholdt, of St. Louis, as president. He will also preside over the conference itself.

The programme for the conference was definitely fixed by the council. Monday, the first day, will be devoted to prelimi-

The two succeeding days will be devoted to deliberations on resolutions prepared by the executive council. The first will deal with the Far Eastern War in the following language:

The Interparliamentary Conference, nocked by the horrors of the war that is being waged in the Far East between two civilized states, and deploring that the powers signatory to the conventions of The Hague have been unable to have recourse to the clauses thereof, which direct them to tender their mediation immediately upon the outbreak of hostilities, asks the powers signatory to the conventions of The Hague to intervene at the proper time with the belligerents in order to facilitate the restoration of peace, and instructs the Interparliamentary Bureau to bring the present resolution to the knowledge of said powers."

The other resolutions have to do with the calling of a second Hague Convention by President Roosevelt; the expression of gratification at the advances made by the cause of peace; the taking of steps to strengthen the outworks of the Interpar-Hamentary Union, the establishment of compulsory arbitration and the abolition of explosives which endanger neutral shipping in time of war.

The resolutions discourage the increase of the Army and Navy; the building of battleships for other nations and the unrestricted sale of firearms; also appeal for the merchant marine to take the place of battleships; and, in view of typeliums and race battered patty test. the Fillpines, for women and for all who are oppressed, to bring about a recognition of the law and the rights of all, frrespective of color, race, creed or sect.

## RUSSIAN PRESS IS PLEASED.

Appointment of New Minister of the Interior Heartily Approved.

ST. PETERSBURG, Sept. 10.-The Russian press unanimously approves the appointment of Prince Peter Svintopolk-Mirsky as Minister of the the appointment of Prince Peter Sviatopolk-hirsky as Minister of the Interior. All the papers spoke of the critical character of the present situation, and express the opinion that the selection of such as man as Prince Peter will do much to relieve the internal conditions. The Novoe Vremya in an editorial sums the general tone of the press as follows:

We are now passing through an his-torical crisis which may influence the destiny of the Russian empire. As the military situation in the Far East beat home, who are always quick to take advantage of any difficulties or reverses experienced by the Russian na-tional government. Therefore we must show hearty co-operation in the hour some. In order to accomplish the latwork independently. Decent relations must be the aim, and one of the first requisites, it is certain, will be liberty of the press and freedom of speech, which are the lightning conductors of The Novosti, a conservative Jewish

organ, says: gualnted with the needs of the nation, regardless of religion or race. Let us hope that the new Minister is destined to exert beneficent influence on the de-

velopment of the empire."

JAPANESE SPOILED PLANS.

Had Stakelberg Been Successful All

Would Have Been Well. TIE PASS, Manchuria, Sept. 10.-The breakdown of General Kuropatkin's strategic movement when he withdrew his main army to the right bank of the Taitse River after General Kuroki had crossed the stream above Line Yang is explained as follows:

The movement was beautifully planned. Kuropatkin intended to engage Kuroki, push a column up the right bank and com-pletely isolate him from Generals Oku and Nodzu on the other side of the river. Only accident upset this plan. General Stakelberg's corps, which was still on the left bank at the extreme right, falled to stand up against the superior force of the Japanese. When Stakelberg reported that he was retreating, it seemed to Kuropat-kin that a portion of his army, which he had faced eastward with the right resting on the river and the left unprotected, might be enveloped by the Japanese in pursuing Stakelberg. He therefore drew off and re-formed his front, and the re-treat from Yen Tal began and continued the rest of September 3, the Russians

eaching Shakhe September 4. The losses on both sides from August 26 to September 5 are estimated at from 60,000 to 70,000 killed and wounded. Many of the killed and wounded were left be-

hind in the Chinese corn.

CONCILIATION BOARD MEETS.

Arguments of Iron and Steel Men Regarding New Wage Scale Heard.

CHICAGO, Sept. 10 .- A board of conciliation selected by the Republic Iron & Steel Company and 20,000 of its employes has met here to fix a scale of wages for the coming year. Today arguments of employers were heard.

The dispute which the board is to set tle arose over the desire of the company to reduce the wages of its skilled "mer chant" ironworkers from 5 to 15 per cent. As provided in the working agreement which has been in force since 1901, con-

lynchings and race hatered, petty jeal-ousies between governments and the withholding of the liberty of the new zerritories, it is considered desirable for tinuation of last year's wage scale. These claims were met by the steel-workers' ropresentative with the contention that the number of employes has been reduced in several plants, thus comparatively lightening the expenses.

The Steel Company was represented in the arbitration proceedings by Colonel G. Watson French, chairman of the executive board; James H. Nutt, head of the company's labor department; and S. K. Corans. On the side of the steel-workers were John Williams, National secretary of the Amalgamated Association of Iron and Steelworkers; W. M. Gibson

HER MAIDEN PLUNGE

Cruiser Milwaukee Is Launched at San Francisco.

LARGE CROWD IS PRESENT

Christening Ceremony Is Performed by a Daughter of the Late Senator Mitchell, of Wisconsin-Keel Laid in 1902.

SAN FRANCISCO, Sept. 10.-The new SAN FRANCISCO, Sept. 10.—The new cruiser Milwaukee was launched successfully today from the ways of the Union Iron Works, in this city. The tide served at 11:30 A. M., and by that bour a large flotilla of small craft, steam and sall, had taken up position to greet the latest-addition to the American Navy, when she took her maiden plunge, and the yard was packed with an immense crowd to witness the ceremony, including a large witness the ceremony, including a large number of Knights Templar and visitors attracted to the city by the grand tri-

ennial encampment of that body.

The mechanical arrangements were completed early in the morning and completed early in the morning and everything was in readiness to speed the powerful-looking warship on her first journey to the sea, when Miss Lilly Jeff-rey, a daughter of California, gave the signal to release the massive steel hull from its berth on the stocks. The christians of the christian of the stocks are the christians of the christian of the stocks. tening ceremony was performed by Miss Janet Mitchell, of Milwaukee, daughter of the late United States Senator John Mitchell, who was surrounded by a party of visitors from Milwaukee, including Mrs. John Mitchell, Judge Paul D. Carpenter, representing Mayor Rose, of Mil-waukee: S. M. Becker, an Alderman of that city; Mrs. Becker, Miss H. Mitchell, Mrs. W. Martin, Miss Martin, Mr. and Mrs. Longhoff, Miss Cohen, Mrs. Singer, G. D. Wilkinson, M. Mackie, Philip Jung and Mrs. Morrison.

and Mrs. Morrison.

Not a hitch occurred in the proceedings and the Milwaukee gracefully moved down the ways and into the waters of San Francisco Bay, as the customary bottle of champagne, released by Miss Mitchell, broke upon her bow.

The keel of the Milwaukee, the last of the warships lately resting on the ways of the local shipbuilding works, was laid on July 30, 1902. She is a protected cruis-er, and with the exception of her two sister ships, the New Charleston and the St. Louis, is the largest vessel of her class in the United States Navy. Her length is 424 feet; extreme breadth, 66 feet; mean draft, 22.6; displacement, 8700 tons. She is designed to maintain a max-imum sea speed of 22 knots, with 21,000 indicated horsepower. When completed she will carry a battery consisting of 14 6-inch and 18 3-inch rapid-fire guns; 12 3-pounder semi-automatic guns, 4 1-pounder automatics; eight 1-pounder rap-id-fire guns, four 4-inch field pieces and ten 3-caliber machine guns, eight of which will be automatic. She will carry 49 of-ficers and 631 men. The cost of the Milwaukee's hull and nachinery is \$2,85,000.
