She was absent from her home on Bast Oak street, and when she came home the flag was there. It is supposed that the wretch who stole it became conscience-stricken and brought t back. She also says that she has made arrangements with Sepator George Brownell to be in Oregon City and start a club there. Mrs. Woodcock declares she does not expect to be appointed to a Cabinet position, but is working simply for the election of

THE NEWILL RIVERVIEW ACADEMY makes no promises that it cannot fulfill. A live teacher is animated by and at the same time cultivates in the student a vigllant attention to detail and an unflagging interest in each step towards the goal. Cadets at the N. R. Professor Newill's students have been admitted to Harvard, Columbia, Cornell, West Point, Annapolis, Georgetown, Ann Arbor, Golden, Stan-ford, Berkeley and many other institu-tions of less note. John Barrett Co. Shows Wonderful Glass Reflectors.

Come to us and we will teach you how to cut your light bill in half. We window (after Tuesday) and see the extraordinary glass reflectors that we show exclusively. These reflectors not only reflect light, but they refract it, and diffuse it. Have you heard of the wonderful prismatic light transmitters that convey light, to otherwise dark interiors? Well, these giass-reflectors of ours are made on the same scientific principles, ventilating them-selves and actually doubling the power of the light within them. Place an elec-tric bulb in one of these reflectors and the effect is marvelous. For the next 14 days we are authorized by the fac-tory to sell these reflectors at 25 cents each. No other glass reflector on the market sells for less than \$1. We offer a bargain in glassware, and this very latest and best money-saver combined. You can't get them anywhere else.
