"BUFFALO BILL," by Cody. Publisher's price 75c; our price 50c.

FANNED TO FURY

Forest Fires East and North of City.

DRIVEN BY EAST WIND

Flames Running From Gresham Toward Clackamas.

FLUME AT HOLBROOK BURNS

Barn, Cordwood and Timber Are Destroyed by Fire Which Yesterday Jumped Oregon Water Power Track at Hogan.

Held in check by persistent efforts because there was no wind, the forest fires which have been smoldering for the past day or two were yesterday fanned to greater strength than when first opposed.

After smoldering innocently for several days, a fire started two miles southeast of Gresham yesterday, and after burning a barn and 100 cords of wood, is now running absolutely unchecked toward the Clackamas River.

The fire near Holbrook, which have apparently been awaiting the coming of yesterday's east wind, were quickly multiplied in number and vastly increased in force.

Communication by telephone with Holbrook was cut off at 10 o'clock last evening, presumably by a burning tree falling in the place, and toasting its way through the dense timber toward the Clackamas River at a very rapid rate.

With a continuation of the heavy east wind great damage is sure to result within the next two days, as it is impossible to stop the headway of the fire.

Numerous farmhouses lie directly in the path of the flames, and in a continuous forest for ten miles, broken only by clearings.

Several important county bridges are in danger, but are being watched by the road supervisors.

With a continuation of the heavy east wind great damage is sure to result within the next two days, as it is impossible to stop the headway of the fire.

FIRES THREATEN RESERVE.

Northeast Wind Hurries the Flames Toward Fine Timber.

OREGON CITY, Or., Sept. 10.—(Special.)—Reports reached this city this afternoon to the effect that two fires that sprung up today in the vicinity of the Cascade Forest Reserve had been united by the northeast wind that was prevailing and threatened extensive damage to the reserve.

The location of the fires is in townships 3 and 4, range 6 east, and township 4, range 5 east. There is much valuable timber in that part of the reserve, in which the fires have already entered.

Lumber Yard Burned at Gebo.

BILLINGS, Mont., Sept. 10.—The lumber-yard of the Holland Lumber Company, at Gebo, was completely destroyed by fire at an early hour this morning, the loss being about \$15,000, partly covered by insurance.

BRIGANDS WERE VERY CRUEL

Banker Lived on What He Could Pick for Days After Making Escape.

FORT WORTH, Tex., Sept. 10.—A dispatch to the Record from Rowell, N. M., says:

Banker Eiland has returned to his home at Portales, N. M., and verified the story that he had been held by brigands in the State of Sonora, Mexico. He has lost 50 pounds in flesh. He is known as a conservative business man, and the story that he had fallen into the hands of brigands, who demanded ransom from his wife at Portales, N. M., is not doubted. He was forced by the bandits to write to his wife and to sign the name of George Reese. He said:

"I was captured by four men, and they robbed me of everything I had. I think it was in the State of Sonora, Mexico. They immediately carried me to the mountains and I was made to walk every day and was fed very little. At night I was tied with ropes. On pain of instant death the bandits made me write the letter to my wife demanding the ransom, compelled to sign the name of George Reese and made me misspell the name. The letter was mailed from the town of Oputa. They changed positions every day and marched me through the mountains until the night of August 30, when I made my escape. I secured a sharp rock and cut the ropes that bound me and left while they slept.

"For four days I wandered through the mountains in search of a road, living on berries, rabbits and young birds, and finally reached a railroad at a distance of 20 miles from where I started.

"I beat my way on a lumber train to Douglas, Ariz., and then went to El Paso, Tex., where I borrowed money on which to come to Portales."

Capture Only a Question of Hours.

NEW YORK, Sept. 10.—Three of the six men bandits who held up the paymaster of the O'Rourke Engineering & Construction Company for \$500 on August 24 on a lonely highway in New Jersey, are reported to have been traced to the Italian quarter of Paterson, and their capture is believed to be a question of hours.

Two hundred men have searched constantly for the highwaymen, but although they got so close to the gang that firearms and articles of clothing were found where they had been hastily discarded, they managed to reach town and a place of hiding.

Important Witness Missing.

CHICAGO, Sept. 10.—William F. McMullin, who was operator of the theater at the Iroquois Theater at the time of the disaster December 30, has disappeared.

Assistant State's Attorney Charles E. Quinn, at the opening of the September term of the Criminal Court began the preliminary arrangements to put Will J. Davis, manager of the theater; Thomas J. Noon, assistant manager, and Edward Cummings, the stage carpenter, on trial on a charge of manslaughter. It was then learned that McMullin had disappeared.

Marked for Death by Negroes.

ATHENS, Ga., Sept. 10.—According to a statement by two negroes today a "Bo for the Day Club," composed of 15 negroes from Kinney section, Clark County, Ga., marked six prominent white men for death. The Sheriff is organizing a posse to make wholesale arrests.

PICK CONFESSION TO PIECES.

Colorado Labor Leaders Declare Miner in Kansas is Only Working Scheme.

DENVER, Sept. 10.—The leaders of the Western Federation of Miners "speculate" alleged confession of Robert Romain, the ex-convict, now under prison sentence at Topeka, Kan., implicating union leaders in the Cripple Creek district, contains many allegations which can easily be refuted.

"According to Romain's confession," said William D. Haywood, secretary of the Federation, "Davis, Kenison and Parker, members of the Cripple Creek district union executive committee, were with him in Cripple Creek on June 6, when, as he says, the final arrangements were made for the Independence depot dynamiting. As a matter of fact, the three union leaders named were in Denver from May 10 to June 8 attending the annual convention of the Federation.

Romain says that McKinney was one of the leading conspirators. The absurdity of this statement must be at once apparent to any one who will consider that McKinney is the man who made a fake confession regarding the alleged conspiracy to wreck the Florence & Cripple Creek Railway.

Romain was either hired to make this confession, or he is working a bunco game on the Colorado authorities with the object of escaping a term in the Kansas Penitentiary for the burglary he committed in Topeka. I predict he will not be brought back to Colorado, but that our opponents will use his statement as conclusive evidence that the Federation planned and perpetrated the dastardly crime at Independence."

Much Ammunition Captured.

LONDON, Sept. 10.—A dispatch to the Japanese Legation from Tokio, timed 10:15 P. M. today, says:

"Native say enemy sent by train over 10,000 killed and wounded. We buried over 2000 Russians. Enemy burned magazines near station before evacuating. We captured, however, immense quantities of provisions and ammunition."

Battleship Ohio Transferred.

SAN FRANCISCO, Sept. 10.—The battleship Ohio was today finally transferred from her builders to the United States Navy, the Government being represented in the ceremony by Captain Leavitt C. Logan, who is her commanding officer. The Ohio will be for a time on the Pacific station, but her ultimate destination is thought to be China.

Big Fire at Spirit Lake.

OREGON PIONEERS HAVE NARROW ESCAPE FROM FLAMES.

SPOKANE, Sept. 10.—The fiercest forest fires ever experienced in that section are burning along the shores of Spirit Lake, Idaho, a summer resort 40 miles from Spokane. A number of summer cottages were only saved by days and nights of hard work and desperate backfiring.

Mr. and Mrs. Robert Robertson, well-known Oregon pioneers, had the closest call. One large fire traveled a mile in

NO BLAME TO IT

Land Office Discusses Oregon Filings.

WANTED TO HOLD LANDS UP

Letter of Governor Chamberlain Defeated the Policy.

SCRIP'S WORK NO SURPRISE

Report of Forestry Bureau That Portions of the Blue Mountain Withdrawal Were Very Valuable Attracted Attention.

OREGONIAN NEWS BUREAU, Washington, Sept. 10.—"If fraud has been perpetrated in the filings upon the 800 or 900 acres of lands recently eliminated from the Blue Mountain forest reserve withdrawal in Oregon, the blame cannot be attached to the General Land Office," said the official in charge of forestry matters when advised tonight that 5000 acres of this land had been taken with scrip, and 3500 acres under the timber and stone act.

The Land Office was not in favor of restoring any of those lands to entry at this time, for we could not see that there was a demand for it from intended home-owners. When Governor Chamberlain, however, wrote to the President urging that the reserve be created and the surplus lands be restored to entry, we had specific instructions to restore to entry those lands which, according to the Bureau of Forestry, were not desirable for forest reserve purposes. The Forestry Bureau is supposed to have examined all portions of the Blue Mountain withdrawal for it submitted to the Land Office a detailed statement showing the character of each quarter section of that vast area. We recently restored to entry lands reported by the Forestry Bureau to be agricultural in character or lands less valuable for timber than for other purposes, which we took to mean either grazing or barren lands. From official advice in our possession—and we have to rely entirely upon the Forestry Bureau for this information—we assumed we were restoring only non-forested lands. If we threw open lands that would attract speculators under the timber and stone act we did so unadvisedly. For this, we can hardly be held responsible."

This official added it was not surprising that the best of those lands were taken up with scrip. The Forestry Bureau requested some very attractive agricultural lands lying along the several streams, probably as good land as remained vacant in Oregon, and the fact it was being restored to entry after being held up under withdrawal for two years naturally attracted the attention of the holders of scrip. This official went on to say: "Governor Chamberlain's main object in writing to the President, as we understood it at the time, was to have the Blue Mountain reserve created so that the state school lands in our possession—and we have converted into base, and the state be enabled thereby to get out of its embarrassment growing out of double sales of base lands. If the Governor was a tool in the hands of persons who have gobbled up what would seem to be valuable lands, we are not advised, and could not say. But so far as the Land Office is concerned, we are free from all blame, for we advised against restoring these lands to entry, and what lands we did restore, were selected upon the report of the Forestry Bureau. We were compelled to act against our judgment, and on facts of which he had no certain knowledge."

CANADIAN TRAIN HELD UP.

Six Masked Men Make a Haul of \$7000.

VANCOUVER, B. C., Sept. 11.—(Special.)—The transcontinental express, due here at 7:45 last night, was held up 25 miles from Vancouver by six masked men and 2000 taken. The train was dugged and some of the men got on the tender with rifles. At the point of guns the engineer and fireman were compelled to take the baggage and express cars two miles away where they were rifled. The train arrived at 12 o'clock. A special train with a large posse of policemen immediately left for the scene. This is the first hold-up in Canada.

It is supposed that the trainrobbers expected to intercept the clean-up from the Consolidated Cariboo mines, amounting to \$90,000 and which was expected to be sent here about this time. It is said a cipher telegraph message was sent to the express messenger telling him to have his safe open, to be searched by an inspector, and that thereafter he was off his guard. The authorities are now investigating this rumor.

Egan Wins Golf Championship.

SHORT HILLS, N. J., Sept. 10.—The amateur championship tournament of the United States Golf Association, which began last Tuesday and ended today on the links of the Baltusore Golf Club, was won by H. Chandler Egan, of the Exmoor Country Club, Chicago, eight up and six to play. He defeated the young Brooklyn player, Frederick Herreshoff, who attends school near Potomac, Va., and who was entered from the Elkwood Country Club of Manchester, N. H.

Breaks Weight-Throwing Record.

NEW YORK, Sept. 10.—At the track and field games that marked the opening of Pulham Bay Park, the new city athletic grounds, today John J. Flanagan, broke his own world's record of 36 feet 9 1/2 inches, by throwing the 56-pound weight from a seven-foot circle a distance of 36 feet 7 3/8 inches.
