

TRAIN A WRECK

Chicago Passenger Piled Up at Crossing.

TWELVE PEOPLE INJURED

Railroad Men in Doubt as to Cause of Accident.

SOME TALK OF OPEN SWITCH

Others Declare Locomotive Jumped the Track Because of a Broken Flange—The Wreckage Then Takes Fire.

CHICAGO, Sept. 17.—A passenger train on the Lake Shore & Michigan Southern road was wrecked this afternoon at the crossing of the tracks at Root street. Accounts of the cause differ, some of the railroad people alleging that the train ran into an open switch, and others saying the locomotive jumped the track because of a broken flange. Twelve persons were injured, and some of them may die. Following is a list of the injured:

John Schuler, Elkhart, Ind., engineer, fracture of left leg and compound fracture of the right arm, not expected to live; J. P. Lane, Kalamazoo, Mich., fireman, head cut and internally injured, condition serious; George Lafert, Clayton, Mich., two ribs broken, left leg and right arm broken; Mrs. Susan Berdel, Chicago, spine injured and both arms paralyzed, condition serious; E. Plunier, Chicago, both hands mangled; C. F. Foltz, Chicago, leg broken; A. T. Rorog, Chicago, leg broken; A. J. Blasing, Chicago, head cut; J. J. Martin, Pasadena, Cal., badly bruised, not serious; Dr. L. H. Goodrich, Springfield, Mass., badly bruised; W. G. Weiss, New York, severely cut about body.

Going at High Rate of Speed.

The train was going at a high rate of speed to make up lost time. The tracks are elevated, and the accident happened just before the train reached the viaduct over Root street. The engine left the track, but the fore part of the tender struck the end of the viaduct railing and was torn to pieces. The engine plunged to the far side of the viaduct, where a rail torn from its fastenings rose on end and transfixed the rear of the engine cab and the fore part of the baggage car. It held the wreckage so firmly that several hours' work with cold chisels was necessary before the baggage car could be removed. The four cars behind the baggage car were piled in a heap at the north end of the viaduct, and all of them badly smashed. An overturned stove in the rear coach set fire to the wreckage, but was extinguished by the Fire Department before it had gained much headway.

HONOR ANTIETAM HEROES.

Survivors of the Great Battle Dedicate Monuments.

SHARPSBURG, Md., Sept. 17.—Survivors of the Pennsylvania campaign that fought in the battle of Antietam, today, on the 42d anniversary of the battle, dedicated monuments to the same number of regiments as members of the war of the same names. Prominent among the regiments who participated were Governor Samuel W. Pennypacker and General Robert Shaw Oliver, acting Secretary of War. Thousands of veterans attended the exercises.

Monument to Chilean Leaders.

SANTIAGO, Chile, Sept. 17.—A monument in honor of Manuel Montt, ex-President of Chile, and former Premier Antonio Varas, his colleague for a number of years, was unveiled yesterday with great ceremony in the presence of the diplomatic corps and the civil and military authorities. The event inaugurated a series of national festivities in celebration of the tranquility and progress of the country.

(Manual Montt and Antonio Varas in 1860-66 were the founders and leaders of the extreme Conservative party in Chile, now known as the Montt-Varas, and were bitterly opposed by the Liberals, resulting in two revolutions, in both of which the Liberals were beaten. Montt died in 1880 and Varas in 1886.)

Pushtark Peddlers Declare War.

NEW YORK, Sept. 17.—Trouble is again brewing among the pushtark peddlers of the East Side, who allege that they are being victimized by a recently formed combination of stablemen. The latter theory is applied to owners of pushers, who rent them out at a fixed daily rate, and maintain, underneath tenement houses, storage places for the carts, where they are kept at night. Sixty-seven stablemen, each owning from 20 to 350 carts, have organized, and according to the peddlers, have advanced rates from 10 and 20 cents to 50 cents a day. The peddlers declare they could make little profit at the old rate, and as they have no place to keep carts, they are compelled to pay the higher rates or quit. They are planning to ask the city authorities for a public place where they may maintain stables of their own.

FUNERAL OF REV. H. R. HILL

Friends Will See Last of Drowned Minister Tomorrow.

The funeral services over the body of Rev. Harvey R. Hill, who committed suicide Friday evening by drowning himself in the Willamette River, will be held tomorrow afternoon from Mr. Hill's home, 14 East Eleventh street. Mr. Hill was born near Salem 35 years ago. For nearly 25 years he was a resident of this city. He was a student at the old Portland University, and later attended Northwestern University, at Evanston, Ill., but was compelled to give up his studies as a result of falling ill. He had been in the ministry a little over a year, and was once prominent in Centenary M. E. Church. He was to have been married to a young lady of Portland last June, but his illness was of such a nature that the wedding was postponed. He left to mourn his loss a mother, a brother and a sister, Mrs. M. D. Brand, of Bellingham, Wash.

REACHES BAY CITY TO PRESIDE AT SOVEREIGN GRAND LODGE OF ODDFELLOWS

GRAND SIRE JOHN B. GOODWIN. SAN FRANCISCO, Sept. 17.—A special train bearing Grand Sire John B. Goodwin and other officers of the Sovereign Grand Lodge of the Independent Order of Odd Fellows, arrived tonight to attend the session of the Sovereign Grand Lodge, which will convene Monday.

Preparations are practically completed for the reception and entertainment of the Sovereign Grand Lodge. A committee of 100 citizens having the affair in charge will do everything in its power to make the visit of the Oddfellows as pleasant as possible. A feature of the convention will be a full military encampment of the patriars militant at the Mechanics' Pavilion, where all requisite arrangements of oats, tents and other camp equipment have been made for the reception of the delegates.

A number of entertainments have been planned for the visitors, and among them will be a grand concert and a full-dress ball on the closing night of the convention. The city is gaily decorated for the approaching convention, and street illuminations will take place nightly during the convention week.

SHOWERED WITH BLAZING PAINT

Three People Are Burned as Result of Workmen Dropping a Match.

NEW YORK, Sept. 17.—Showered with blazing paint, a man, a woman and a baby in a tenement house in East Twelfth street received burns today that will likely prove fatal. They were Isaac Schuster, a painter, Mrs. Lena Marks and her 12-month-old child. Schuster accidentally dropped a blazing match into a bucket of paint. Flames shot upward from the turpentine and Schuster started on a run for the stairs with the bucket. A gust of wind blew the flames into his face, causing him to pitch headlong down the steps. Mrs. Marks, with her baby in her arms, was coming up. The shower of fire fell over them and all were badly burned.

PARKER WILL COME AGAIN.

Candidate Will Meet Lieutenants Before Issuing His Letter.

NEW YORK, Sept. 17.—It was said at Democratic National headquarters today that Judge Parker will make another visit to New York within a week or before the publication of his letter of acceptance, and that the personal conferences between the nominee and his managers will be repeated as often as necessary. Just why Chairman Taggart of the National Committee, found it necessary to leave the city on the evening of Judge Parker's visit was explained today by Mr. Manning, Mr. Taggart's chief assistant at Democratic headquarters. Mr. Manning is vice-chairman of the Indiana State Democratic Committee. Some weeks ago, he said, he visited that state, and after a consultation with state leaders it was decided that a visit of the National Chairman to Indiana was desirable. He promised them to induce Mr. Taggart to go to Indiana, and on his return to New York placed the matter before the chairman in such a manner that the visit was arranged. Appointments were made at Indianapolis and French Lick Springs, and the date fixed. It was not until noon of the day on which he was informed by Judge Parker by telephone that the Judge intended to come to New York. Mr. Taggart explained the question to Judge Parker and suggested it would be impracticable to cancel the date to Indiana. Judge Parker assented to this, but saw no reason to cancel his own visit to New York City. On his next visit, it is said, Mr. Taggart will be in New York.

Roosevelt Not Subscribed. BINGHAMPTON, N. of the Hamilton Club. Senator Foraker, of Ohio, was the principal speaker of the evening, and his address provoked great enthusiasm. George A. Knight, of San Francisco, who seconded the motion, and President Roosevelt in the Republican National Convention, followed Senator Foraker.

Mr. Knight caused much laughter and applause by his address, which was filled with clever hits. Mr. Knight's address was almost wholly devoted to the Philippine question. He quoted and Judge Patton's speech, bespeaking the Democratic Presidential nomination on this subject and answered the various arguments. He denied the Administration had ever intimated that the islands were to be kept permanently as American territory, but he made an extended argument in favor of their retention as a part of American territory. He denied the fact that almost all the people of the tropics are governed by the nations of the temperate zone. The new policy of preferential duties between mother country and colonies, which is being given up, has created nations which would, the speaker declared, soon place the United States at a great disadvantage so far as Far East purchase of tropical products is concerned, if the Philippines were given up. He declared that the islands are being exploited by the Americans and declared, on the other hand, that the Government is expending money in the development of the country's resources and that it will finish its work by Wednesday night.

Made Well and Strong by Pe-ru-na.

MAMIE L. RAWLINGS.

Mamie L. Rawlings, No. 412 10th St., N. W., Washington, D. C., writes: "I took several bottles of Peruna, on the advice of our druggist, to cure me of catarrh in an aggravated form. This had taken such a hold on my system that I feared that I would never be able to rid myself of it, but I certainly have eradicated it from my system entirely, and this with the aid of Peruna."

"I consider it a very fine tonic, and shall always be pleased to recommend it to the many who suffer with this common trouble—catarrh. With the very best wishes and hearty thanks to you, I am, Mamie L. Rawlings."

Catarrh of the head is liable to spread to other organs. It is the direct cause of many severe stomach derangements. Catarrh of the stomach and nervousness go hand in hand.

Nervousness is a vague term which covers all of those ailments which result from a bloodless condition of the nerve centers. Systemic catarrh is very frequently the cause of this condition.

Every mucous membrane in the body is slightly deranged by systemic catarrh. This leads to a complete demoralization of the digestive and assimilating organs, and a bloodless condition of the nerve centers ensues. Nervousness is the result; fretfulness, irritability, worry, complaining—all of these mental conditions result from starved nerve centers.

The only cure is to remove the catarrhal condition of the mucous membrane. Peruna is the remedy that will do this.

Peruna is not a nerve or a quieting medicine. Peruna cures just the condition—catarrh.

Peruna cures catarrh of the internal organs, and the nervousness disappears. The more nervous one takes for nervousness the more nervous he is. There is always a cause for nervousness. This cause should be discovered and removed.

The Secret of Long Life and How to Overcome Waste.

To "know thyself" is to take advantage of life's secrets and equip one's self with an armor which will successfully resist the attack of disease in the battle of life. The old idea of fate is obsolete. It is a fact that a person always dies when his time comes, in new or old age. The secret of long life is to be found in the mechanism, whether made by God or man, has a definite limit.
