MALE FISH IN THE RACKS.

Females Prevented From Reaching Ontario by Small Mesh Nets.

ASTORIA, Or., Nov. 5.—(Special.)

Master Fish Warden Van Dusen returned last evening from an inspection trip to the state fish hatchery at Ontario, and while he found there was a great shortage in the take of eggs, the conditions are not quite so bad as has been reported.

Mr. Van Dusen says he found everything at the hatchery in good order excepting the one essential, the fish to work with. Up to November 3 a total of 5,000,000 eggs had been taken, and the work was in progress at the rate of about 100,000 per day, with the prospect of continuing for ten days longer, so that the final output of the hatchery will be in the neighborhood of 5,000,000 chinook fry.

While the contention may explain in part the condition that exists at the Ontario hatchery, still the "egg" theory has something more than tradition behind it. Several years ago representatives of the United States Fish Commission explored the Snake River for the purpose of ascertaining its suitability as a site for a hatchery.

RECORD AN ANSWER

Roosevelt Has Made Himself a Terror to Lawbreaker.

EQUAL JUSTICE IS HIS MOTTO

Senator Knox Discusses the Charges Made by Judge Parker in a Speech at the Pittsburg Rally.

PITTSBURG, Nov. 5.—One of the quietest campaigns of recent years closed tonight with a large and enthusiastic meeting at Old City Hall, which was addressed by Senator Knox.

The exigencies of a losing campaign have driven our adversaries substantially to abandon the attempt to convince the people that they stand for anything better in the way of governmental policies than we do.

There are those who would pull down the flag in the Philippines and abandon the archipelago. There are those whose indecision and lack of international sense would have prevented them from seeing and doing their duty by this country and the world in the Panama affair.

There are those who would have been too timid, or too politic, to have challenged the men behind the Northern Securities Company. There are those, and many of them, who would receive the attack upon our financial policies, and in respect to all these matters, their views are entitled to respectful consideration and temperate reply.

But when it is said of Theodore Roosevelt, a man who has concededly kept the terms of his honor pledge, that he is guilty of "compromising with decency in order that sums of money can be gathered together," or "levying contributions in Wall Street upon timid and grasping industries," then it is indeed time to call his slanders to account as in ordinary cases.

The man who made those charges, and I have used his words, is the candidate of the Democratic party for President of the United States, Alton B. Parker, a hitherto respectable and respected Judge and gentleman, but as a candidate, he has proven to be a compromise between Tammany Hall, William R. Hearst, David B. Hill, W. J. Bryan, the South and the worst elements in Wall Street.

Does not every man in America know that the bold that Theodor Roosevelt has upon his countrymen is largely because of his love of fair play and his courage to see that there is fair play; because neither threats nor coaxing could prevent him from enforcing the law when the lawbreakers were the richest and most influential?

Should Produce the Proof. "Judge Parker says he makes these charges with reluctance, but because he knows them to be true."

The President has met these monstrous accusations with the dignified scorn becoming a man respected and honored enough to receive the unanimous nomination for his exalted office. It is a matter of common notoriety that the chairman of the Democratic National Committee was chosen because it was hoped to carry Indiana for Judge Parker by the very methods he now affects to deplore.

FIRST AND SECOND BEST SHOTS IN OREGON NATIONAL GUARD

SERGEANT ROGERS.

CORPORAL MATSON.

It is highly gratifying to Portland and the members of the Third Infantry, Oregon National Guard, in particular that two Portland men, both belonging to Company E—First Sergeant Joseph M. Rogers and Corporal John Matson—won the first and second places, respectively, in the recent three day shooting match of the Oregon National Guard, held in this city.

First Sergeant Rogers, who was born on a farm at Mount Zion, November 18, 1890, notched 122 points by his fine shooting, winning the gold medal, besides the proud title of champion rifle shot in the Oregon militia. Corporal Matson, who was born in Finland, and has since made his home here, scored 121 points, defeating three other competitors who had the same score, by his superiority in rapid-fire work.
