Conservative Leaders Hope That Out of the Ruins a New Central Body, With Less Radical Ideas, May Be Formed.

CHICAGO, Nov. 12 -(Special)-The total disruption of the Chicago Federation of Labor, the most powerful local labor body in the country, is threatened as the result of the withdrawal of its charter. Out of the ruins is expected to result : new central body, more conservative in its nature.

Like a pack of cards, the Federation will fall to pieces, say the most conservative labor leaders, unless the order te withdrawn. The charters of labor bodies in four other cities have also been cancelled by order of the American Fed-

Over two weeks ago, Samuel Gompers, Over two weeks ago, Samuel Gompers, president of the Federation, wrote to the Chicago officials, saying the charter would be withdrawn, unless orders received from the parent body were put into effect. Those orders were to seat delegates from the regular press-feeders and plumbers' unlons, and to oust the delegates from the Franklin Union of Press-Feeders and National Steam Fitters, both independent and "wildcat" organizations.

Much pleasantry followed this threat.

Local labor celebrities laughed loudly at what they called a joke of President Gempers, and said the local body was able to stand alone.

able to stand alone.

The executive board of the American
Federation met in Chicago Wednesday
and investigated the rebellion. Nothing
was done, and the local men breathed treely, saying the matter would be left to the convention which opens in San Francisco Monday. Now the blow has actually fallen. Speeding on the train to California, the executive members held continuous sessions, and it was decided that the life of the parent organization would be imperiled if discipline were not

#### NO HOPE FOR MEDIATION. Russia's Best Friends Well Realize She Is Set on Fighting.

PARIS. Nov. 12.-The reports of con plated mediation in the war in femplated mediation in the war in the Far East have again made it plain that France does not consider the time opportune to exert influence singly or jointly to induce Russia to make or accept terms. At the same moment that the rumors were circulating in various capitals that France intended to act, M. Delcasse, the Foreign Minister, was pointing out to diplomatic callers that efforts at media-tion would be futile. Following is the ac-

The paper also asserts that Count Lamsdorff, the Russian Minister, under-stood that the American proposition ex-cluded the idea of a meeting pending the

war, and is surprised to learn that a meeting is contemplated during the war. On the other hand, the Agence Russe, claiming semiofficial connections, says Russia has accepted the American propo-sition in principle.

To the Japanese the highest honor attainable is to die on the field in the service of his country. Such a death places him ever before his townsmen as a hero and raises his family to added distinction. It is not a spirit of fanaticism that actuates the Japanese mind, but it is loyality run mad.

Spring and Fall.

It was the universal Spring and Fall
"blood purifier," tonic and cure-all, and
mind you, this old-fashioned remedy was
not without merit.

The idea was good, but the remedy was
crude and unpaintable, and a large quan-

tity had to be taken to get any effect.

Nowadays, we get all the beneficial effects of sulphur in a nalatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years, research and experiment In recent years, research and experiment

bave proven that the best sulphur for medicinal use is that obtained from Cal-cium (Calcium Sulphide) and sold in drugstores under the name of Stuart's Cal-cium Wafers. They are small chocolate-coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form. Few people are aware of the value of this form of sulphur in restoring and

maintaining bodily vigor and health; sulphur acts directly on the liver and ex-cretory organe, and purifies and enriches the blood by the prompt elimination of

waste material.

Our grandmothers knew this when they dosed us with sulphur and molasses every Spring and Fall, but the crudity and im-purity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafers is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipa-tion and purify the blood in a way that often surprises patient and physician alike.
Dr. R. M. Wilkins, while experimenting

Dr. R. M. Wilkins, while experimenting with sulphur remedles, soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria. I have been surprised at the results obtained from Stuart's Calcium Wafers. In patients suffering from boils and pimples, and even deep-seated carbuncles. I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article. skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article, and sold by druggists, and for that reason tabooed by many physicians, yet I know of nothing so safe and reliable for constlpation, liver and kidney troubles, and especially in all forms of skin disease, as this remedy."

At any rate, people who are tired of pills, cathartics and so-called blood "purifiers," will find in Stuart's Calcium Wafers, a far safer, more palatable and effective preparation.
