RUSTLERS IN TRAP

Camp in Grant County Mountains Surrounded.

ONE SUSPECT IS CAPTURED

Sheriff's Posse is Augmented by Angry Stockowners, and Short Sheriff May Be Given the Thieves When Caught.

LONG CREEK, Or., Nov. 12.—(Special.)—The first suspect of the gang of stock thieves has been arrested, and a dozen armed men have surrounded the camp in which the other members of the rustling band are believed to have hidden. Jim Male is the man arrested by Deputy Sheriff Coffey. The posse came upon him last night while he was sleeping in a cabin in the mountains several miles from here. A large reward has been offered for the leader of the gang, whose identity is yet kept secret. The deputy and his posse feel confident that once the gang in the mountain camp is captured the work of the rustlers who have raided Northern Grant County for years will be in a fair way to receive their deserts. That the rustlers will put up a determined fight for their freedom the pursuers are well aware. But the depredations of the rustlers have become so outrageous that the ranchers are desperate, and a lynching is not unexpected at this place. News of the mission of law officers traveled fast, and many armed citizens had joined the force on the way from Canyon City. A large number of determined men have since announced their attention of repairing to the rendezvous of the rustlers, and there will undoubtedly be a large number of witnesses at the finish.

DISTINCTION THRUST UPON HIM Democratic Father of Twins Elected, Though Not Nominated.

CHELSEA, Wash., Nov. 12.—(Special.)—A most remarkable situation has developed in Chelan County over the results of the County Commissioner's vote from the Third District. The man who was nominated by the Republican County Convention seems certain to lose the office although a majority of the electors tried to vote for him. His Democratic rival, Charles Colver, who received a smaller vote, is probably entitled to the office under the law, and he also became the father of twins on election day. The man on the ticket, although he had no thought of running for office, claims the election. Rev. J. A. McArthur, of Entiat, was

the Republican of the County Convention, but when the names of the nominees were printed on the official ballot an error was made and the line on the ballot read, "For County Commissioner, Third District, A. H. McArthur." By an overwhelming majority the nominee was chosen for the office, and there is an A. H. McArthur at Chelan Falls, who now claims he has been elected County Commissioner and is ready to qualify for the office. The law requires that only regular nominees of a political convention or persons nominated by petition may be placed on the Coroner's investigation of the Weber tragedy. Adolph Weber, the surviving member of the family, testified that his father got very angry when crossed, and had often said serious things, but had never acted, and was over his anger in a few minutes. There had been no quarrel on the day or evening of the murder. When in San Francisco this summer his father had a dispute, in which the mother asked for a division of the property. Nothing was said further, and the matter was dropped. To offset the murder and suicide theory,

HEARD SCREAMS OF WOMEN. Testimony Introduced in Weber Tragedy in California.

AUBURN, Cal., Nov. 12.—Nothing new of importance has thus far been developed by the Coroner's investigation of the Weber tragedy. Adolph Weber, the surviving member of the family, testified that his father got very angry when crossed, and had often said serious things, but had never acted, and was over his anger in a few minutes. There had been no quarrel on the day or evening of the murder. When in San Francisco this summer his father had a dispute, in which the mother asked for a division of the property. Nothing was said further, and the matter was dropped. To offset the murder and suicide theory,

"77" Cures Grip and COLDS

While Dr. Humphreys' "Seventy-seven" is a specific cure for Grip and serious Colds that "hang on." Its widest sphere of use is to "break up" a common, every-day Cold, beginning with the sniffles and ending on the chest. "77" cures by restoring the checked circulation of the blood to all the vital organs, that they may perform their functions naturally, without unnecessary effort. At Drugists, 25 cents each, or mailed. Humphreys' Medicine Co., Cor. William and John Streets, New York.

the bullet wound in Mr. Weber's body took a downward course, which would indicate that it was not fired by himself. The 22-caliber pistol with which the victims were killed has not yet been found.

Other witnesses testified that the elder Weber had a violent temper. Mrs. Potter, a neighbor, testified that she saw two women in the window upstairs in the room above the kitchen in the Weber house and heard them scream: "Save me! For God's sake, save me!" Her father-in-law says he heard the same words. This was after the fire alarm had been turned in.

SEAL CATCH VERY POOR.

Fewer Animals Taken Than at Any Time in Company's History.

VICTORIA, B. C., Nov. 12.—(Special.)—This season's work by the schooner fleet of the Victoria Sealing Company has produced the poorest results since the company was incorporated in the '90's. The aggregate number of skins taken this year from all sources, Behring Sea, California coast, Cape Horn and elsewhere, totals only 12,900, as compared with last year's catch of 20,470 skins for 16 schooners, and the catches from 1892 are as follows: 1892 25,471,1901 24,160 1890 23,548,1900 24,302 Strangely enough the most valuable furs were most plentiful, compensating somewhat for the meager total. The company now freely admit the loss of their two largest schooners, the Triumph, at sea with a full white crew of 24, and the Fenelope in Clallam Bay, Wash. Fewer branded skins were taken this year than since branding began, showing the branded seals are disappearing. The Victoria sealers expect higher prices this season than for many years.

SHOT BY LITTLE BROTHER.

Three-Year-Old Child is Far From Medical Help.

NEWPORT, Or., Nov. 12.—This morning about 8 o'clock Una, the little 3-year-old daughter of E. Emmett, who resides near the Yohat, was accidentally shot by her 6-year-old brother, Leroy, with a 22-caliber rifle. The bullet struck her in the left breast, making probably a fatal wound. Medical assistance has been called from this place. It will be eight or ten hours before a physician can reach the scene.

Death of Mrs. H. G. Otis.

LOS ANGELES, Cal., Nov. 12.—Mrs. Eliza A. Otis, wife of General Harrison Gray Otis, proprietor and editor of the Los Angeles Times, died at her home in this city tonight of angina pectoris. Mrs. Otis had been in poor health for some time and for the past few days had been confined to her bed. Mrs. Otis was 70 years old and had considerable fame as a poetess.

President Farrell's Father Dead.

ST. PAUL, Or., Nov. 12.—When the announcement reached St. Paul that J. D. Farrell, assistant to President Hill, had died at Seattle of blood poisoning, it was

received here with the greatest surprise, since President Farrell, of the steamship company, was only recently at headquarters, and appeared to be in the very best of health. Investigation shows that J. D. Farrell, who is dead, is J. D. Farrell, Sr., father of President Farrell, and an old resident of North Dakota, who had made his home in Seattle for some time.

Bartell is in Sigma Sigma. STANFORD UNIVERSITY, Nov. 12.—L. Bogle, of Seattle, Wash., and M. J. Bartell, of The Dalles, Or., have been elected to membership in the Sigma Sigma Honor Society. Bartell is a Junior. He was one of the best ends Stanford ever had, playing that position in his freshman year, 1902. Pressure of work this year prevented his turning out. He is a member of the Delta Upsilon fraternity.

Cold. Their Proper Treatment and Cure.

Commonly, the first symptom of a "cold" is a chilly feeling, accompanied by sneezing, or a tickling in the throat. The most frequent external causes are draughts, wet or cold feet, or going from hot rooms suddenly into cold ones. Most frequently there is an inner cause—namely the stagnation of the blood caused by constipation or biliousness. Almost the first symptom is the feeling of cold in the feet and increased discharge from the nose. No one ever takes cold unless constipated, or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. Tonics consisting of large portions of alcohol, iron or cod liver oil do not bring the desired change in the blood, because they do not enter the system and are not absorbed into the blood, with the exception of the alcohol, which shrivels up the red blood corpuscles when it does come in contact with them. We recommend the botanical extract of Dr. Pierce because it contains no alcohol, and offers a reasonable and scientific method of treating the blood, by improving the nutritive functions of the patient. The "Golden Medical Discovery" accomplishes this by first restoring the embolized digestive organs so that the food the natural tissue builder, will be digested and assimilated. Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is nothing "just as good" for disease of the stomach.

TREATY IS RATIFIED

French Deputies Settle the Newfoundland Question.

BIG TRIUMPH FOR DELCASSE

His Policy of a Rapprochement Between France and Britain is Approved, Although Sovereignty Over Fisheries is Ended.

PARIS, Nov. 12.—Foreign Minister Delcasse scored a notable triumph tonight when the Chamber of Deputies, by an overwhelming majority, ratified the Anglo-French colonial treaty, and at the same time give parliamentary approval of his policy of a rapprochement between France and Great Britain. The vote closed a ten-days' debate. The final hours brought out vigorous opposition in behalf of the fishing interests of Brittany and Normandy against the abandonment of the French shore of Newfoundland. M. Souroube (Republican) urged M. Delcasse to reopen the negotiations for the purpose of getting for the French fishermen the same rights for the free purchase of bait as enjoyed by the Americans. It was asserted that the French fishing interests in Newfoundland would be exterminated as the result of the treaty. M. Delcasse resisted the request for a renewal of the negotiations, and a resolution of M. Armandon (Nationalist) condemning the treaty was defeated by 425 to 69 votes. The resolution approving M. Delcasse's declarations was adopted by 428 yeas to 64 nays. The treaty was then ratified by 424 to 66 yeas. The effect of the Anglo-French treaty is to terminate French sovereignty over the Newfoundland shore, but throughout the greatest significance was attached to the treaty giving practical effect to Anglo-French rapprochement.

Folly Cost Him His Life.

SPOKANE, Nov. 12.—John Olson, walking across a high wooden bridge on the Northern Pacific in the west end of Spokane, was caught by a train and thrown to the ground, 40 feet below, being killed instantly. Olson, before venturing on the trestle, heard the rumble of the approaching train, but insisted on taking a fool-hardy chance.

Pardon Asked for Infanticide. ABERDEEN, Wash., Nov. 12.—(Special.)—A petition to Governor Henry McGowan, was caught by a train and thrown to the ground, 40 feet below, being killed instantly. Olson, before venturing on the trestle, heard the rumble of the approaching train, but insisted on taking a fool-hardy chance.

Walla Walla, serving a 15-year sentence for the drowning of his 7-week-old babe in the waters of Salmon Bay, King County, Washington, in June, 1902. Underwood was tried in the Superior Court of King County, September 23, 1902, convicted of murder in the second degree, and sentenced to confinement in Walla Walla penitentiary for 15 years. Mrs. Underwood, who was to have been tried for the same offense, but never brought to justice, lives here with her parents.

Officers of Maccabee Ladies.

ALBANY, Or., Nov. 12.—(Special.)—The convention of the Ladies of the Maccabees of the Willamette Valley district, held in Albany yesterday, was completed last evening. The following officers were elected: Past lady commander, Mrs. Mary Rowell, of Albany; lady commander, Mrs. Maggie G. Stetter, of Albany; lieutenant commander, Mrs. Hawk, of Jefferson; record-keeper, Miss Rebecca T. Smith, of Salem; finance-keeper, Mrs. Edith Darr, of Salem; chaplain, Mrs. Ida Hardman, of Lebanon; mistress-at-arms, Mrs. Mary Biers, of Corvallis; sergeant, Mrs. Aglia Ouimet, of Butteville; sentinel, Mrs. Abbott, of Sedo; picket, Mrs. Bonstead, of Stayton.

Derelict Reported Off the Coast.

ASTORIA, Or., Nov. 12.—A report was current here today that a derelict had been sighted off the Oregon coast. The vessel was said to have been sighted by residents of Seaside, who described it as a three-masted schooner. A boat containing men was reported to have put off from the schooner and the story goes that a landing could not be effected by the men, owing to the heavy surf. The local Government vessels put out to search for the reported derelict, but saw no trace of her. The report emanates from the same source that recently reported a derelict which proved to be a floating tree.

Dog Returns Borrowed Money.

LA GRANDE, Or., Nov. 12.—(Special.)—The dog belonging to Mills Andross, a furniture dealer here, who swallowed a \$20 gold piece some weeks ago in preference to returning it to his master, who loaned it up to him to catch, is now considered more valuable by Mr. Andross as a safe deposit, as the dog has returned the money to his master. Mr. Andross has had a number of good offers for the dog, but he refuses them.

Suit to Fulfill Contract.

KALAMA, Wash., Nov. 12.—(Special.)—Suit has been filed in the Superior Court of Cowlitz County by the Western Timber Company against the Kalama Lumber Company, to enforce a contract of sale of 1100 acres of land in township 7 north, 4 east and 7 north, 3 east, Willamette meridian. The consideration is \$50,000.

Liquor Has Made Him Insane.

OREGON CITY, Or., Nov. 12.—(Special.)—Ed Whitlock, aged 52 years and a native of this city, was today committed to the state insane asylum after an examination held before Judge Ryan. Until

a few years ago Whitlock was a prominent business man of this city, but the excessive indulgence in intoxicants accomplished his physical and mental collapse. He was taken to Salem tonight.

Conductor a Victim of Duty.

LA GRANDE, Or., Nov. 12.—(Special.)—After inquiry into the death of Conductor Brown, of Pendleton, which occurred at Kamela, the Coroner's jury's verdict was as follows: "After carefully considering the testimony of the witnesses summoned before this jury we find that Charles F. Brown came to his death while in the performance of his duty as conductor of the O. R. & N. passenger train No. 6, at 7:46 A. M., at Kamela, Or., November 8, by being struck and run over by O. R. & N. helper engine No. 200, in charge of J. A. Carlson. We exonerate said J. A. Carlson and his fireman, L. E. Tipton, from blame." Memorial services will be held in the Grande Opera-house Sunday afternoon.

THE VALUE OF CHARCOAL

Few People Know How it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose. Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectively cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges, they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey. The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit. A Buffalo physician in speaking of the benefits of Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at druggists, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets.
