CONFERENCE AT THE CAPITAL

Government Withdraws Official Auspices at Last Moment Because the Representatives Decline to Adhere to Plans.

ST. PETERSBURG, Noy. 19.-The meeting of representatives of Zemstvos, which had been looked forward to with so muc hope, was held this afternoon at a private idence in this city, but at the last moment the government withdrew the of-Scial auspices under which it was to be held because the representatives declined to adhere to the original purpose of the conference. A hundred interested men, included among whom were some of the most prominent figures in Russia, there-fore met and discussed a carefully prepared memorandum, practically embodying a recommendation for a national representative body to have a share in the government. This memorandum will be presented to Emperer Nicholas.

Prince Sviatolopolk-Mirsky, the Minister of the Interior, guaranteed the meeting protection from police interference, but crecy was maintained as to the place of meeting, and this effectually prevented semonstrations which it had been aninced would be made by students.

The memorandum includes ten sections, of which seven were indorsed at today's eeting. The remainder, it is expected, will be approved at a meeting to be held smorrow. The document, which is bound to hold a conspicuous place in Russian history, is as follows:

"Preamble of proposals on the questions of general conditions preventing the normal course and development of our social life, submitted to a private conference of Zemstvos workers November 19 and 20, in St. Petersburg.

Popular Demonstration at Moscow. MOSCOW, Nov. 19.—Popular demonstra-ious occurred here today owing to the re-unal of the authorities to authorize an

official meeting of the Zemetvos representatives at St. Petersburg. Crowds in the streets in front of the palace of Grand Ouke Sergius, Gevernor-General of Moscow, shouted, "Down with the Moscow Gazette," the only newspaper in Russia which is heroely opposed to the Zemstvos. Later the crowds voluntarily dispersed. The Zemstvos supporters here telegraphed to M. Chipoff, president of the Moscow Zemstvos, to make a final effort to induce the government to allow the meeting to be held under official auspices.

ST. PETERSBURG, Nov. 18.—General Stoessel, in a dispatch to the Emperor, dated November 2, says:

"I am happy to report to Your Majesty that all the assaults from October 25 to November 2 were repulsed by our herold troops. The most desperate assault occurred October 36, but thanks to the bayonets of the reserves and the bravery of the volunteer sharpshooters, the enemy was repulsed at all points. The Japanese did not return to the attack the same day, and left a great number of dead unhuried upon the field.

LONDON, Nov. 19 .- The Japanese dipmatic representatives in Europe, at the request of Tokic, have made inquiries into the report that Russia is acquiring a new fleet from Chile and Argentina. The Tokio government was recently informed that Chile and Argentina between them had sold or optioned to Colombia six or seven was vessels which Colombia intends to turn over to Russia Montries consider. over to Russia. Inquiries carried on here and in South America by Japan-ese agents have elicited an emphatic denial from both Chile and Argentina. Despite the officials' denials, which have been transmitted to Tokio, more than one Japanese diplomat in Europe is apprehensive that in some way or other these half dozen war vessels may shortly pass under control of Russia.

RESUME ATTACKS ON ARTHUR SURE JAPANESE FIRED SHOTS Dutch Engineer With Russian Fleet

> Writes of North Sea Incident. AMSTERDAM, Nov. 19.—The Tele-graph publishes a letter from Tangler, written by a Dutch engineer named Kooy, who is connected with the wireless telegraph system on board the Russian transport Kamchatka, belong-ing to Admiral Rojestvensky's division of the second Pacific fieet. The letter says that shortly after the Kamchatka anchored at Skagen for coal, a wireless message was received stating that four torpedo-boats which had been pur-chased by Japan had left the Danish Fjords. When the Kamchatka left Skagen, she was convoyed by two cruisers, but lost them on the first night during a fog. The weather cleared on the second night, and shortly after 8 o'clock four vessels were sighted steaming rapidly. An order was given to man the guns, and the Kamchatka fired blank shells as a warning to the vessels to change their course. They continued to approach, however, whereupon the Kamchatka commenced a furious cannonade.

Two torpedo-boats crossed the line of fire. Under the searchlight. Kooy in his letter says, he clearly saw two torpedo-boats, and he is certain they were not Russian vessels. One of the torpedo-boats launched a torpedo, but the Kamchatka changed her position and no damage was done. The torpedo-boat then slackened speed and Kooy believes she was damaged by the fire from the Kamchatka. It is stated that the second torpedo-boat also launched a torpedo, but he did not see them. The other torpedo-boats disappeared, and he believes they attacked Vice-Admiral Rolestvensky. The Kamchatka sent a wireless warning to Admiral sent a wireless warming to admirant Rojestvensky. The writer says that every one in Kronstadt knows when and where the Japanese purchased the torpedo-bosts.

PARIS, Nov. 19.-Semi-official advices from Chefoo says that the officers and crew of the Russian torpedo-boat destroy-er Rastoropay, who have been ashore since the blowing up of their boat, assert that the commander of the Japanese to-pedo-boats which entered the port threat-ened to take the Russians prisoners. The latter, it is added, believing the Japan-ese would attempt to carry out their threats by landing, in spite of the neu-trality of Chefoo, have sought refuge on a Chinese cruiser in the harbor, where, it is said, the Russians will be protected against a possible attempt to take them
