Investigation at the Auditorium t
day developed the fact that a man gi ing the name of "Dobbs" had appea at the hotel last evening and had ask erator, to have Daniel Canary send an automobile to the Auditorium entrance

That Bate did not commit suicide but was shot down by an assassin, is indicated by the finding of an empty cartridge shell today in the Tonneau of the automobile. At the company's office it was said today that when the call was received last night a machine for two was asked for. William Bate, the dead chauffeur, had been connected with the Canary Company for several years and was well known as a fast

driver.

The circumstances surrounding the death of Bate were made more puzzling tenight by the report that a woman was in the automobile a short time before Bate is believed to have been killed.

John S. Eiler, a farmer, gave this information to the police late tonight. He said the was aroused about 11 o'clock by load

knocking at the door of his house and when he demanded to know who was there, a man replied:

there, a man replied:
"Will you let me in if I go to the rear door? I must get in, for I am in dan-

Eiler offered to open the door if the man would give his name, but he refused to give it, and Eller, thinking it was a plan to bob him, did not open it. The man returned to the automobile, where Eiler says he heard voices in a vehement miler says he heard voices in a vehement dispute, among them that of a woman. The machine went south from the house and about half a mile further on it stopped at the house of Dennis Connors, where a man knocked on the door, but as there was foud talking in the road and because of the lateness of the hour. Connors did not open the door, and the man who was knocking at the door re-turned to the automobile, which went

Two letters found in the possession of the dead man offered a suggestion that Bate's death might have been the result of a love affair. This theory, however, is not regarded seriously by the police. One of the letters read:
"Dear Bate—I understand that you have won the love of Bertha and I presume that you have no further use for me. I hope that your future love will be successful. Of course, it is pretty hard on me, but I will let the matter drop and say no more. With love. "ROSE L"

police tonight arrested three men and although none of them answers the description of Dove, it is hoped to gain some information from them. Two of the arrested men are colored. When arrested men were carrying several suits of a clothing, supposed to be the product of a burglary committed in Tre-

mont.

The theory advanced by the police is that the men accosted Bate after the latter had taken Dove to Tremont and demanded that he take them to Chicago in the automobile. When Bate refused the police believe the men killed him.

RIG DEALS IN REAL ESTATE. Coming Exposition Has No Apparent Effect on Prospective Purchasers.

Buying in the real estate market for the past week has not been very general, but a few big deals, which have been consummated, make the real estate brokers feel better than they have all Summer. They had fears for a time that the wily measure of waiting till after the Fair to buy would put them out of another year's business, and prices would not rise to their proper height. But the indica-tions are now that this alcuth-like trick propagated by gumshoe investors is not going to pay. People want property for actual use now, and the mere buying of it for that purpose is going to make a higher price for all property, and the purchaser with pneumatic heels is going

to be out.

The Fair is a temporary thing, but those investing now see that there will be such a rush for all kinds of improved property next year that they will be able to skim the cream off the investment in the Fair year and lay back on ordinary profits till they get ready to sell. The bogie "slump" they get ready to sen. The bogse sump is now laid at rest, and no one fears that this will not be just as good a town after the lights go out for the last time on the Lewis and Clark grounds as before. There will be a large floating population leaving town, but the absence will, not be felt.

It is typical of cales being made not that the purchasers are ready to build immediately. Two quarters of the block on upper Washington street, which has belonged to Trinity Church for years, were sold recently and the purchasers, the Bushong Printing Company and the Irwin-Hodson Printing Company, will build offices and shops on their property during the Winter. The Oriental American Company is fin-

ishing up a hotel on the property at the corner of Seventh and Stark, purchased last Winter. Dr. E. H. Parker is finishing another hotel on the corner of West Park and Morrison streets, and the Blazier brothers have built a modern brick on their lot, purchased less than a year ago, two blocks below on Washington street. The real estate market here never seems to amount to a great deal, because so lit-tie fuss is made over a sale, and when a sale is made it is always an investment sale is made it is always an investment and not a speculation. The largest pur-chases of recent date have been made by Charles Sweeny, of Spokane, who has been investing money here for some months. First he purchased the Dekum property, consisting of the building on the corner of Third and Washington streets and the family homestead on up-per Morrison street. ## Early-Morning Blaze in New York Tenement District.

NEW YORK, Nov. 20 .- At least 12 lives were lost in a fire in a Brooklyn tenement house early today, and the firemen are searching for other bodies. It is believed the death list will equal 15. Twelve per-sons were injured, none, it is believed, fatally.

Shortly aftr 2 o'clock this morning flames were found in the cellar of No. 186 Troutman street, a three-story frame tenement-house, and by the time the firetenement-house, and by the time the fire-men arrived the stairways and airshafts were ablaze and the halls filled with smoke. Three other alarms were turned in and soon a large detachment of fire-men was at work fighting the fire. Despite the efforts of the firemen the fiames spread to the adjoining tenements, 182, 184, 188 and 190. The occupants of these houses were early notified of their danger and it is believed that all escaped. The firemen found the dead bodies of

LONDON, Nov. 19.-The Irish Nationalist party is on the verge of a serious split. ist party is on the verge of a serious split. Unless some amicable arrangement can quickly be arrived at, Messrs. Dillon and Sexton, with their personal following, will secede from the leadership of John Redmond. In this event, Mr. Redmond will have the aggressive support of William O'Brien, over whom a dispute has arisen. In recent speeches in Ireland, Mr. Redmond is held to have openly sided with Mr. O'Brien regarding the differences of mond is held to have open differences of Mr. O'Brien regarding the differences of opinion which have long existed between Mr. O'Brien and the Dillon-Sexton-Davitt faction. It is stated on good authority that Mr. Redmond has been told that unless he withdraws his support from Mr.
O'Brien secession will result. No definite
conclusion has been reached, but it is
understood Mr. Redmond prefers to throw
in his lot with Mr. O'Brien.

In the event of the breach becoming a definite fact, it is thought the party would at the moment be fairly evenly divided, O'Brien's tremendous popularity in the South being offset by the Sexton's in the South being offset by the Sexton's powerful organ, the Freemason Journal, and the more radical following of Messrs. Davitt and Dillon. Such a division probably, would leave the followers of Mr. Healy with what might become the balance of power and this, according to present indications, would be thrown in favor of Messrs. Redmond and O'Brien.

The present international crisis is the result of the gradually increasing disagreement over the action instigated by O'Bren and carried out by Mr. Redmond in their famous land-purchase conference with the Irish landlords.

not without merit. The idea was good, but the remedy was crude and unpaintable, and a large quan-tity had to be taken to get any effect. Nowadays, we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years, research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drugstores under the name of Stuart's Cal-cium Wafers. They are small chocolate-coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form. Few people are aware of the value of

this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver and ex-cretory organs, and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they doned us with sulphur and molasses every

NEW YORK, Nov. 18.—Further delay in the trial of Nan Patterson, the show girl who is charged with causing the death of Caesar Young, the bookmaker, was in-dicated by rumors that were prevalent around the Criminal Court building today. A full jury had been selected when court adjourned last night, and it was though that the real work of the trial would be begun promptly Monday morning. To-day, however, a story became current that several changes would be made in the jury before the trial would proceed. Eliwood Hendricks, the foreman, asked the court yesterday to excuse him from duty on the ground that a member of his family was seriously sick. It was said that several other tweets also had ested adjourned last night, and it was though that several other jurors also had asked to be dismissed for private reasons. The requests will be considered by the court when the trial is resumed Monday.
