SUSPECTS CANNOT BE HELD

Alleged Leader of Rustlers Has Left the Country-Officers Cannot Get Sufficient Evidence Against Those Captured.

LONG CREEK, Or., Nov. 18 .- (Spe cial.)-Two more arrests have been made in connection with the efforts now being made to run down the band of stockthieves operating in this section. Cleve Mael, brother of the young man first arrested, has been caught by the officers, and Huey Jackson has also

At the preliminary hearing of these two alleged offenders and Jim Mael, the first man arrested on the charge of driving off stock, the officers were not able to produce sufficient evidence to have any of the men held for trial. Whether guilty or not, the methods of disposing of the stock are such that unless caught in the very act, it seems impossible to convict them. Great dis-appointment is felt over the failure to at least hold the prisoners for trial, in the hope of , cliciting evidence that would either convict the prisoners, or whoever the guilty parties may be.

The leader of the gang has apparently left the country, and until he is secured, it seems that all attempts to

secured, it seems that all attempts to get a conviction must result in failure. It is feared that the failure of the most recent attempt to apprehend and punish the thieves that have made stockraising so hazardous, will embolden them to commit still greater depredations upon range stock. In the emergency, many good citizens are heard to remark, that as much as they deprecate lawiessness, they see no other way to put a stop to stock rusdeprecate lawlessness, they see no other way to put a stop to stock rusling than to employ ropes and rifies. They peint out that in Umatilia County a number of years ago, a like situation prevailed, from which there was no legal relief. Before our baby was born I was in very poor health and the doctor thought that I would not be able to go through with the ordeal, but, on the recommendation of a friend, I began to use Dr. Pierce's Favorite Prescription a few months before time for confinement, and it not only built up my failing health and strength but made the time of labor much easier. CUPID'S PLACE.

CUPID'S PLACE.

Cupid has no place in a girl's heart if she is nervous and irritable, feels dragged down, worn out for no reason that she can think of. In such cases the body is not sound. The nervousness and other symptoms are telegraphed all over the body by the nerves, which is the telegraphic system of the human' body, because the weak spot demands attention. The weak back, dizzy spells and black circles about the eyes are only symptoms. Go to the source of the trouble and correct the irregularity. The drains on the womanly system and the other symptoms disappear. This can be done easily and intelligently.

The mix-up over the nomination for Sheriff brought George Lamping into the fight. Lamping was a bank clerk, who enlisted in the Spanish War and went to the Philippines. He came back a hero, as war veterans go, and demanded political preforment. He was made County Auditor for two terms and demanded more jobs. Slated for postmaster as a compromise when he lost the Sheriff's place, he has not advanced far.

Congressman Humphrey wants Stewart rensmed; the other members of the Congressional delegation are not particularly anxious. Stewart showed the President's mail, as The Oregonian told in an exclusive story at the time, and this creates a personal friction. But politicians have been so thoroughly upset by the Oregon appointments that they would not be surprised at anything. When Humphrey declared that his renomination meant Stewart's reappointment, few believed he could swing the job. Now the fight is over both offices are thrown into the mixup and politicians do not know whether to expect a settlement out of the Senatorial struggle or to look to the President for an appointment based upon his own ideas of fitness or advisability.

A. P. Kingsbury, Surveyor-General, is hanging on the ragged edge of uncertainty. Thus far his place has not been fought over seriously, for it has been believed the place would go to reward some one in the coming Senatorial fight. Kingsbury went into office after having supported Foster in the campaign of 1888. In Olympia they are figuring that because no objection has been raised to his administration that he may be continued without Presidential recommendation. without Presidential recommendation. Poli-ticians are beginning to wonder whether anything can be expected from a Senatorial recommendation, or whether the President will regard his overwhelming majority as a sanction from the people to disregard political exigencies and do as he pleases. Knowing President Rooseresident knowing President Roose-veit's strong leaning toward civil service there is a great deal of apprehension feit. The Legislative delegation from Yakima County may use the name of Congress-man Wesley L. Jones in the coming Senatorial contest. As a result Dr, Hare s active in interesting the delegations from the central part of the state in a Jones movement that will bring about an offer from the Senatorial counties of the state. Governor Henry McBride was smoked out. He spoke at a banquet tendered by the Young Men's Republican Club on Friday night to the newly-elected Governor. As pointed out heretofore, this banquet is intended to push S. H. Piles to the front as a Senatorial possibility, and a number of prominent Republicans, aside from the Governor-elect, spoke. Piles was toastmaster.

Piles was toastmaster.

An invitation was extended to Governor McBride to respond to the toast, "The State of Washington," and he accepted. He did not say much, but he spoke pleasantly of the new Governor, and plainly indicated his own purpose to remain in the Republican ranks.

Among the close friends of Governor McBride there is a growing conviction that he wants to enlist votes in a movement toward his own election as United States Senator. It is not inferred that the Executive really expects to be elected,

States Senator. It is not inferred that the Executive really expects to be elected, but that he belives he might become a disturbing element that would demand and receive some compromise recognition. If this belief is well founded, the decision of Governor McBride to speak at Seattle on the first occasion he has sought an opportunity to address the people since the Tacoma convention, has a deep significance.

As was pointed out nine months ago, As was pointed out nine months ago, Pierce County Republicans lived to repent of their municipal fight. The bitterness existing against the Campbell administration led to a revolt that elected a Democratic city administration. Pierce County Republicans this Fall fought against greater odds than the organization in any other part of the state, for they had opposed to them the entire machinery of the Tacoma municipality, but the sporting element, controlled by the police, and the natural insurgents, as well in the try-out a week ago the Republicans of Pierce learned the lesson of party disloyalty thoroughly.

THE VALUE OF CHARCOAL

serving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose. Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of

the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other edorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently

safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

infects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Losenges, they are composed of the finest powdered Willow charcoal, and other harmless antisepties in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and pureg blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and howels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but Iwenty-discounts and allowers.

daily use of them; they cost but twenty-five cents a box at drugstores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal ablets."
