White Swan mine, November 16, 1904, Halliet pleaded guilty on eve of trial, November 26; sentenced to three months' imprisonment and fine of \$300.

DES MOINES, Ia., Nov. 25.—(Special)— Letson Balliet, the Iowa Napoleon of finance, was sentenced by Judge Smith McPherson this morning to three months in prison and to pay a fine of 2000. In dition, any property he may at some future time acquire will be subject to a judgment for costs in the case amounting to over \$10,000.

Judge McPherson read the judgment. He attributed the downfall of Balliet not so much to criminal instincts as to vanity so much to criminal instincts as to vanity and his desire to exploit himself. In passing judgment, the court stated also that Halifet could not be given a good defense because under the statutes he was required to deny the motion which had been made that witnesses for the defense be brought here at the expense of the Government from California and Oregon.

SNOW STORM IN MANCHURIA.

Japanese Are Depending on Pocket Stoves for Warmth.

FIELD HEADQUARTERS, GENERAL KUROKI'S ARMY, Nov. 25, via Fusan, Nov. 26.—A light snowstorm yesterday left two linehes of snow on the ground. Along the tops of the hills, which in many places the tops of the hills, which in many places form the advanced line of General Kuroki's army, the snow is deeper. The soldiers are living in earthen burrows and snug shelters, constructed of cornstalks, and are able to keep warm through the freezing nights. It is impossible to build campfires in the trenches and bivouacs within sight of the enemy. For warmth the soldiers depend on charcoal fires in "shibachis" (pocket stoves). Some supplies of charcoal were brought from Japan, but most of it has been purchased in Manchuria. The army has employed many coolies cutting trees and making charcoal since early last Summer, foreseeing the present need of it.

THE VALUE OF CHARCOAL

Few People Know How It is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is Nearly everybody anows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleanning purpose. Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of

the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and bowels; it dis-

collect in the stomach and howeis; it disinfects the mouth and throat from the
poison of catarrh.

All druggists sell charcoal in one form
or another, but probably the best charcoal and the most for the money is in
Stuart's Charcoal Lozenges, they are
composed of the finest powdered Willow
charcoal, and other harmless antiseptics
in tablet form or rather in the form of
large, pleasant tasting losenges, the char-

charcoal, and other harmens antiseptes in tablet form or rather in the form of large, pheasant tasting losenges, the charcoal being mixed with honey.

The daily use of these losenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe he iver is greatly benefited by the daily use of them, they cost but twenty-five cents a box at drugstores, and although in some sense a patent priparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."
