ALL SPACE GONE

Lewis and Clark Officials Face Crisis.

MUCH MORE ROOM NEEDED

Fair to Be Greater Success Than Was Ever Dreamed.

EASTERN MEN SHOW INTEREST

Every Inch of Space is Claimed, and Hundreds of Exhibitors Send in Other Applications, Causing Officials to Get Busy.

that purpose. There is in the corporation's treasury to time something like \$300,000, which, with the additional sums received from gate receipts, is not any too much to carry along expenses.

PREPARE TO DISMANTLE FAIR

St. Louis Officials Will Begin the Work at Midnight Wednesday.

ST. LOUIS, Nov. 26.—Promptly at midnight next Wednesday, a force of 75 men employed by the General Service Company of the Louisiana Purchase Exposition, will shut 200 freight cars, loaded with empty packing-cases, into the several exhibit palaces, and the work of dismantling the World's Fair will begin.

At daylight, December 2, another large force of men will begin to tear up the tracks that conceal the tracks about the Exposition grounds. They will also tear up the switches in the rear of the Stadium and lay tracks connecting the line with each of the exhibit buildings.

A bond has been filed with the United States Government, through the Treasury Department, by the World's Fair Terminal Railway Company, making it a common carrier, which will facilitate the removal of the exhibits, as freight cars can be dispatched direct from the Exposition grounds to their destination.

DECIDES FOR STEEL TRUST.

Umpire Settles War Between Parties to Rail Pool.

NEW YORK, Nov. 26.—A threatened split in the steel rail pool caused by differences between the United States Steel Corporation and the Lackawanna Steel Company, of Buffalo, has been settled by arbitration, according to the Herald.

The question at issue between the Lackawanna Steel Company and the other makers of rails is understood to have been in relation to the tonnage to which the Lackawanna Company believed itself entitled. The Lackawanna demanded 1 1/2 per cent of the entire tonnage of the company.

Space All Taken. The awarding of space was commenced November 1, and inside ten days every bit of space in the Lewis and Clark building was gone.

WIFE OF PROMINENT MAN DIES

Mrs. E. Denmore Was Also a Warm Friend of Mrs. Maybrick.

NEW YORK, Nov. 26.—Mrs. Helen Denmore, wife of Dr. Emmett Denmore, a prominent Brooklyn man, died today, the cause of death being given as asthma. The physician who was called in the case shortly before her death was asked for an investigation, because she had not previously been treated by a regular physician.

KILLED IN HORRIBLE MANNER

Foreman of Woolen Mills Is Caught in the Shafting.

PROVO, Utah, Nov. 26.—John F. McKnight, a foreman in the woolen mills here, was killed in a horrible manner today. While at work a belt, his coat caught in the shafting and the unfortunate man was whirled around for nearly two minutes, pounding against the machinery. Nearly every bone in his body was broken, while pieces of flesh were scattered about the room.

Dredgemen Leave for Panama.

CHICAGO, Nov. 26.—Two dredgemen, the first engaged for work on the Isthmian Canal, have left Chicago for Panama. They were William Bates, dredge engineer, and Philip Bates, his brother, cranesman. They were engaged through the office of the International Brotherhood of Steam Shovel and Dredgemen, the members of which organization will be hired for the work.

Pinch in Foreign Exhibits.

It does not at this time seem probable that any changes will be necessary in the present arrangements for taking care of mining, agricultural, forestry and other such exhibits. The pinch appears to be confined to foreign exhibits, manufactured goods and machinery. The capacity for the county and state exhibits will be greatly enhanced by the numerous state buildings which are being installed.

Clerk Guilty of Contempt.

ELDTTE, Mont., Nov. 26.—A minor official from Glasgow, Mont., says Wallace Dye, accused of the murder of John Mottner, his employer, has been found guilty of murder in the second degree, after six hours' deliberation by the jury. The Clerk of the Court could not be found at the time the jury was ready to report and was fined \$100 for contempt.

Appointment for Harvard Professor.

CAMBRIDGE, Mass., Nov. 26.—Dr. J. McIntosh Bell, an instructor in the mineral department of Harvard, has received the appointment of official geologist by the government of New Zealand, to succeed Sir James Hector.
