A "Problem" Heroine Tells Why

Florence Roberts Says We Must Go to the "Fountain in the Way to Shur" for the Origin of Emotional Drama

HAVE been steeped in crime this week If the problem play, as some assert, be crime. There are many who do not believe so for a minute, and being one of those, I had a great desire to talk with

the orthodox school of districcted drams. Like the good and gracious craftsman that she is, Miss Roberts was averse, so I met her in that little star sroom on the Mar-quam stage after the second act last Wednesday night.
It was unhappy
beleaguered "Tess"
that she was portraying and while

sundry stage hands were changing the scenery, she, having changed the bride's dress of the second for the ragged sackcloth of the girl's debasement in the third act, received the artist and me and

bade us welcome to her poor abode. Florence Roberts should have no quarshe needs wrinkles she must make them with grease-paint, for her face is almost as fair to see at handshaking distance as from the loge circle. By the same token it is almost as interesting to watch the play of her features and hear her talk in an Sx12 room as from a big stage when she has the center of it.

She sat on a "property" chair of the Restoration period and took lemonade through a straw, while she talked be-

I soon discovered that I could not secure the rights unless I placed my affairs in the hands of Mr. Frohman. This was impossible, as I was under contract with Mr. Frederick Belasco. Although my plan failed, I have the distinction of having produced a number of great plays for the first time in the West. I was the first to play 'Zaza' and 'Sapho' in the West but

Shank's Bad Investment-An Original Way of Getting Rid of a Wife.

BY JOHN DOE. T IS vaguely rumored that the animal went a mile at 2:30 flat at one time.

That must have been some days before the spavin and microbes made its acquaintance, for when E. Shank bought the horse he found it did well to cover a mile in an afternoon.

Plainly it was a losing investment, but there was no remedy. After several rel with opera-glasses. She is of certain age—say a little the other side of 20, which is youth in the emotional business. When tryouts the racer was found to be just a was no good to East Siders, for they could get home nearly as quick on the cars. On top of that, the Exposition management declined to buy it as a statue, as statues must remain constantly immovable, and it was figured that someone might discover this horse move if they watched it long enough.

The climax came when the Humane Soclety became aware of the animal's existence on the streets one day, and Joe Res-ing informed the driver that he would be arrested for cruelty if he ever appeared in public again with the superannuated steed. In this way it became necessary for Shank to pay beavy interest on his investment by feeding it, while he made his voyages on

Then came L. Schnitzer, Shank's friend trunks to haul, and was willing to pay a dollar or so for the use of a horse. Shank recalled the warning of the humane officer, but the opportunity to play even on part of his investment was not to be re-sisted. Besides, the humans officer had told him not to drive the horse, but had specified nothing about Schnitzer. So Schnitzer got the horse, hitched it up

to a load and drove to his doom. The hu-mane officer caught sight of him before he had traveled a mile, and to the bastile Hays, he brought his two redeeming qualwent Schnitzer, and to comfortable quarters in the city barn went the ancient The man's misfortune was the getting rid of her.
