Part of Government Exhibit Is Here.

THREE CARLOADS IN YARDS

Contain Equipment for the Life-Saving Station.

AGRICULTURAL EXHIBITS ALSO

Massachusetts State Exhibits for Lewis and Clark Fair Shipped and Expected Almost Daily-Idaho to Follow.

The first of the great mass of exhibits for the Lewis and Clark Exposition arrived in Portland yesterday morning at 9 o'clock, when three cars, containing the first shipment of the Government exhibit, rolled into the railway yards near the Union Station. There was no ceremony bits, but there will be when the first drayload is removed from the cars. Now that the movement has begun, other shipments will pour in at an early date and thousands of tons will soon be stored away, awaiting the time for unpacking and placing all the displays.

and placing all the displays.

These first three cars contained a part of
the Government life-saving station and a
small part of the agricultural display. In the car containing the life-saving station are a McClellan surfboat, surf guns, erected and placed in operation on the bank of Gulid's Lake. The other two cars contained grasses and grains for the agricultural display. The cars were loaded to capacity and the exhibits care-

Massachusetts Coming Next.

The next exhibits to arrive will in all ability be those of the State of Massa. which have been shipped and on the way, It is expected that they will arrive within a few days and be immediately unloaded and placed in rage. The Massachusetts commissioner i be in Portland within a few days to end to the exhibits, or will send a rep-

The display from the State of Massa. chusetts is said to be very complete and demonstrative of the history, progress, wealth and resources of that state. Great care has been taken in the selection of exhibits. The better part of the exhibit at St. Louis will be used, and to this will be added new features that will do much to cohance the entire display. The State of Massachusetts, realizing the important trade relations that may be built up be-tween that state and the great Northwest. tween that state and the great Northwest, will spare no funds to give to the Lewis and Clark Exposition an exhibit that will in every way be to the credit of the state.

historical display from Massachu-will be particularly interesting ing the part taken by that state in Revolution and before that period and also the part taken during the Civil War and the reconstruction period.

Idaho Exhibits Shipped.

Exposition headquarters has also been tifled that the exhibits from the State Idaho have been shipped and are now on their way to Portland. It is expected that they will arrive within the present week or the first part of next. Idaho will do her best to show visitors to the Exposiion that Oregon's sister state has much to offer to the immigrant and homeshow through her exhibits what fields for investment she possesses, what advancement the state has made since the memorable journey of Lewis and Clark and their

PAPERS FOR MAILING.

Orders for thousands of copies of the New Year's number that will be published tomorrow morning have al-ready reached The Oregonian. These papers will be mailed to all parts of papers will be matten to all parts
the United States. The price of the wrapped will be 10 cents a copy, posinge prepaid. The price of the paper, unwrapped, at the business office of The Oregonian, at news stands, or from newsboys, will be 5 cents a copy. Every feature of the Levis and Clark Exposition and Oriental Fair that will be opened in Poriland on June 1 next will be covered in the New Year's Issue.

little band, what is being done at protein to upbuild the state and what may be done in the future. She will show that her field for improvement is unlimited and the exhibits and displays will be worthy of the state.

worthy of the state.

Idaho has also selected from her St.
Louis display the better parts and will add many original displays that will be shipped from the state direct. The exhibit of the state will cover all branches, showing commercial relations, facilities for production and the transportation of products, how far and in what manner the state is self-sustaining and what she has to offer in the way of history. has to offer in the way of history, civiliza-

MR. BUTTERWORTH COMING.

Writer on Historical Topics Will Visit

the Exposition. Hezekish Butterworth, well known throughout the United States as author, throughout the United States as author, poet and lecturer, is coming to Portland for the Exposition. He has written Secretary Reed to say that he will arrive in Portland during May and will remain several months. He was for 2 years connected with the Youth's Companion, has traveled extensively and has written for Appoint's 12 volumes, among them "The Log House on the Columbia," and the poem entitled "Whitman's Ride for Oregon," the sales of both of which have been renewed through the coming of the Lewis and Clark Contennial, Before coming to Portland, Mr. Butterworth will finish his contemplated literary labors, among them being a series of articles on early Oregon and the progress of the country to the present time, colminating in the Exposition.

SHOW PANAMA CANAL.

Governor Lane Makes Suggestion

for the Exposition. SALEM. Or. Dec. II.—(Special.)—Governor Lane, of California, suggests a novel attraction for the Lewis and Clark Fair that would, if practicable, prove to be instructive to a very large proportion of the visitors. He proposes that a large working plan of the Panama Canal be

that the people may see how the canal will be built, and how it will convey ships. will be built, and how it will convey ships. Probably \$\precept{\precept{0}}\$ out of every 100, people who will come here from the East have never seen a canal with locks and the exhibition would be sew, interesting and instructive to them. Governor Lane's suggestion is made in a letter to Governor Chambertain. The letter was written for another purpose and this suggestion was made incidentally. Governor Lane says: "Let me suggest a feature for your Fair. Great interest is now belling taken in the Panama Canal, and it siems to me it might not be difficult if in that great lake in front of the grounds you were to build an Isthmus of Panama and a small canal passing through it which would build an isthmus of Pansma and a small canal parsing through it which would carry the small hoats of the lake from one portion to another. You could have ministure cities of Pansma and Colon at either end of the canal and specimens of the tropical vegetation which grows there. This is a thing no one cise has attempted and would be something to talk about."

HY EILERS TURNS A NEW LEAF Begins the New Year With Entire

Control of the Three Californla Stores.

The many rumors and conjectures con cerning the ultimate adjustment of the affairs of Ellers Piano House in California were set at rest at midnight last night by the receipt by the employer of the house who were celebrating the New Year at the store, of the following tele

gram:

Ann Francisco, Dec. Si, 1804.—Executive Committee Ellers Piano House, Portland, Or.: Sincerely regretting our inability to be present tonlight, we extend to each and all our heartlest wishes for a most happy and successful new year and many more hereafter. We cannot refrain from adding here our heartlest tribute to and grateful appreciation of the efficiency, loyalty and general spirit of cooperation and good-fellowship that has characterized Ellers Plane House organization for years, and hope that ensuing years may continue to add to the prestige, reputation and importance of the house. Every one of you has done mobily, and overyone is entitled to share equally in the thanks that are due, and which only our desire to further enhance the importance of the establishment prevents us from delivering to each personally. We have just secured complete ownership here and at Stockton and Oakland These three additional babies send greeting to the parent house,

To which the following reply was im mediately forwarded:

Portland, Or., Jan. 1.-Hy, and A. H. Etter Portund, Cr., Jan. 1.—Hy, and A. H. Ellers, care of Pomuser Ellers Music Co., San Francisco, Cal.: Hurrah! hurrah. Our congratulations on the informitable pluck, energy and business segacity that brought about this possibility. Our combined loyalty, ficelity and energy is at your combined.

THE ENTIRE GANG.

The New Year certainly opens in a most bright and promising manner for this popular and enterprising concern.

EIGHT VIOLENT DEATHS.

Portland's Record of Untimely Endings for December.

Eight violent deaths is the record for December in Portland, Coroner Finley and his deputies have been very busy handling the cases. The list of fatalities follows: Yoes Marie Moigne, sailor, in attempting to escape from the ship on which he had been working, struck his head against the wharf, fell into the river and

Edward Insley, an aged cripple, left a candle burning by his bed when he re-

City Engineer's Office in Hands of New Official.

HANSON SUCCEEDS SCOGGIN

Charles Wanzer Announces New Chief Assistant, and Cut in Appropriation Costs Eighteen Official Heads.

DISMISSED YESTERDAY.

Inspectors-William Branden G. Food, R. W. Thompson, A. Fismming. Chainmen-F. S. Walker, W. H. Heus-tis, R. Whiting, C. E. Harding. Transitmen-O. P. Ramery, H. G. Richardson, C. E. Bronson. Offure discharged-Several members of

the Engineer's force whose names were not divalged received notification of their

It was announced last night in/an in terview with City Engineer Charles Wanzer that J. R. Hanson is to succeed Chief Assistant City Engineer George Scoggin, who relinquished his duties yes-terday, with Former City Engineer W. C.

Mr. Hanson's new position is in line of promotion according to the Civil Serv-ice Commission. For a number of years he was in the employ of the Oregon Bail-way & Navigation Company, but lately has been associated with the City En-gineer's office as a surveyor.

Mr. Wanner stated that his first work would be to familiarize himself with all the duties of his new office. Referring to

The Tanner Creek sewer, he said:
"The Tanner Creek sewer was a very,
very agreeable surprise to me. I went out
there expecting to find an awful plece of work, when, as a matter of fact, the earer is not a bad one at all. It has been most unjustly criticised. I do not mean to infer that those who have criticised the work have applied their criticised the work have applied their criticised.

cistos to anything but its faults, but a decent regard for candor impels me to say that they have overlooked its virtues. I do not feel that there is any imminent danger attached to the sewer, but, owing to the existing doubt, I cannot say that

Found Some Defects.

"In some spots I discovered that I could place my arm around without finding any backing. Of course if the entire sewer is of such construction the blunder will prove a most deplorable one and one that will entail the expenditure of a great around of money to restrict That is all that will entail the expenditure of a great amount of momey to rectify. That is all I have to say except that J. R. Hanson will succeed George Scoggin as Chief As-alstant Engineer. I have no destre to en-courage undue publicity, because I feel that the people would much rather hear of new improvements, and when I may announce something along these lines I shall gladly tell all I know for publica-tion."

Last Function Unpleasant One. The last duty which befell Mr. Elliott pon severing his connection with the ity Engineer's office was a most irk-ome one. It was found necessary yesterday for Mr. Elliott to notify eral of his subordinates of their dis

count of the curtailed appropriation the year of 1905, which necessitatfor the year of 1905, which necessaries ed the reducing of the force in the En ed the reducing of the force in the En-gineer's department and, as the Civil Service Commission provides that in an instance of this kind those em-ployes longest in service shall be re-tained, the task of selecting the men upon whose heads the ax was to fall devolved upon Mr. Elliott. was with expressions of regret

that the retiring City Engineer dismissed the men insofar as he says he had hoped to relinquish his office in a are unfounded. I join with them in of the discharged men are contained in the foregoing box.

Remembered by Employes.

Mr. Elliott and his assistant, George Scoggin were the recipients of two ex-quisite tokens of good fellowship and esteem from the employes of the City Engineer's office.

Mayor George H. Williams made the

presentation in the presence of about 50 employes of the office. Speaking in behalf of the donors, the Mayor said:
"Mr. Elliott you are about to retire from the office of City Engineer, which position you have filled for the past two and a half years and the duties of which you have performed faith-fully and honestly.

These men who have been associat-

ed with you since you have been in the office know better than any others of your fidelity to the public interests and your kindness and consideration for your subordinates. They have decided to make you a substantial tes-

merits as an officer and a man.

"I have been requested, on their behalf, to present you this gold watch which they ask you to receive and to keep as a token of their friendship and as a testimonial of their belief that COMPLETES BRIDGE REPORT. Tuesday.

prosperity and happiness in your fu-The presentation was wholly unexpected and came as an agreeable surprise to Mr. Elliett. His appreciation was so sincerely emotional that it was some moments before he could respond.

Mr. Scoggin's surprise was equally as great and he, too, was completely over-come by the entirely unexpected honor. The watch presented Mr. Elliot is a handsome affair, velvet finished gold hunting case and a Waltham movement. Mr. Elliott's initials are graved on the front lid and on the back inside lid is the inscription: "To W. C. Elliott, from the employes of the City Engineer's department."

Equally as tasteful was the selec-tion of the gift to Mr. Scoggin,—a velvet-finished gold matchaste, bear-ing his initials and an inscription. In

est of favors, I can assure you that the surprise was a particularly agree-able one, and one that I shall ever re-member."

Expert Will Submit His Findings on

Expert Charles S. Bihler will have completed his report on the First and Thurman-street bridges tonight. When asked as to his findings with reference to the construction on these two bridges, he stated that he did not care

bridges, he stated that he did not care to discuss the matter.

He said, however, that the reports would be given to Councilman Rumelin on Tuesday. From Mr. Bihler's demeanor it was evident that nothing of a startling nature will be divulged in his reports, but nevertheless there is a possibility that some discrepancies have here discovered. is a possibility that some discrepancies have been discovered.

Mr. Bihler would neither discuss the stand taken by George H. Howell, member of the Executive Board, or the claims of F. M. Butler, president of the Paeific Construction Company, on the Morrison-street bridge controversy. He said, however, that he wished to be understood.

"I did not criticise the Pacific Con-

struction Company's price," said Mr. Biblier. "I merely suggested in my re-port what was in my opinion a fair figure for the work."

Cupid Keeps Busy

Marriages Continue to Grow in

M ARRIAGE licenses for the year 1994 number 1603. This is an increase of 125 over the year 1909, which was a recordbreaker. The number of marriage licenses issued by the County Clerk in 1902 was 1275. The increase of matrimonial ventures shows that the population of Porttures shows that the population of Port-land is becoming greater each year and also tends to disprove the saying that marriage is a failure. Licenses issued for each month during the year were as fol-lows: January, 8; February, 106; March, 90; April, 119; May, 101; June, 155; July, 119; August, 130; September, 114; October, 156; November, 137; December, 140.

Complete Houses to Order.

World's Work.
A short time ago, a New York firm undertook an unusual undertook an unusual contract. It agreed to design and build a house; to make and arrange the furniture; to decorate the house and to supply it with napery and bed linen, glassware, china and kitchen utensils. They carried out the contract. They even engaged servants. Dinner was ready to be served when the owner first stepped into the completed house.

The members of the firm call them-

selves "contracting designers." They plan, build and furnish houses to suit the character and tastes of the persons that are to occupy them. The house montloned had been start-ed by an architect, and the usual suc-

ed by hn architect, and the usual succession of decorators, furnishers and other purveyors were to follow. But the owner, who was a senti-invalid, turned the whole contract over to this firm. Though plans, drawings and samples were shown to the owner, the whole work was completed without his supervision, for he was absent. The contract amounted to about \$50,000 and the result was entirely satisfactors. the result was entirely satisfact Such details as harmonizing the oring of the china with the tone of

diningroom, and attending to the positions and the color of the pictures, were carefully worked out. The cost of this undertaking exactly matched the sum set

The same firm moved a bank into temporary quarters over Sunday, built a new building, fitted it with vaults, furniture and furnishings of every kind, even to ink stands and pin racks, and moved back the books, records and other parapher-nalis—again over Sunday—exactly 30 days later. later. The total cost of this contract was \$12,000. Here is a new profession of

WANTS HUSBAND TO PAY.

Myrtle Howard Says She Lacks Money for Divorce Suit.

Myrtle Howard, who has sued her hus-band, Harry Howard, for a divorce, wants him to pay \$250 into court for attorney's fees, and to enable her to prosecute the case. She says she has no money, and has to work for her living, and claims that Howard can earn more money in a day than she can in a week. She filed an affidavit in the State Circuit Court yesterday asking that he be ordered to con tribute the sum named. The parties were married at McMinuville. accuses her husband of cruel treatment.

Battleships and Big Guns.

Baltimore Sun.

The war between Russia and Japan has taught many lessons in warfare, both at see and on land. On the lane it is not unlikely that the most important instruction will be in the art of sanitation. On the sea there has been the most decisive test of modern naval architecture. This test seems to have established the su-

such ships over smaller guns, known as the secondary battery. At the first naval battle in the present war the great guns on the Japanese battleships put the Rus-sian ships to flight before they had approached each other closer than four miles—a distance too great for the six he Japanese could strike their adver-aries at that great distance was an chievement in marksmanship which has never been extelled. Against such markmanship and such guns, vessels of the cruiser class carrying smaller guns would stand no chance. The battleship with its 13-inch guns manuel by expert marks-men, could send a cruiser to the bottom
