"Jule" Streib, of the "Commuters," stands in front of the first basemen with names of well-known batsmen, a percentage of .381. Nordyke, of Tacoma, is close second. Strieb's topping over of Nordyke will undoubtedly prove a surprise to the fans. "Bill" Massey, Frisco, for a short season, shows up well, with a percentage of MS.

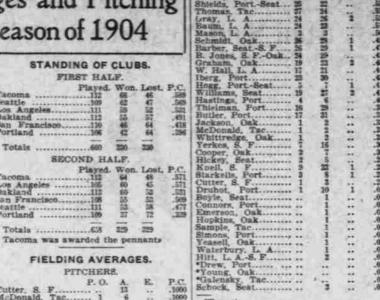

Portland, Becks comes up fairly well Oakland .... Fielding records do not look well for but Castro played as bad second as he did Miller leads and Casey and "Kid" Mohier follow.

PROPOSED FEDERAL GAME LAW

Bill Introduced in Congress for Protection of Feathered Game.

Following is the text of House Bill No. 15.801, introduced in Congress on Monday of lust week by Hon. George Shiras, Third, of Pennsylvania, referred to in an article on the Federal game laws on page 23 of this edition. The bill has been referred to the committee on agriculture, of which Hon. James W. Wadsworth, of

of which Hon, James W. Wadsworth, of New York, is chairman:

Whereas, Experience has shown that laws passed by the states and territories of the United States to protect game birds within their respective limits have been insufficient to protect these kinds and classes of said birds which are migratory in their habits, and which nest and hatch their young in states other than those in which they pass the usual hunting season, and in some cases breed beyond the boundaries of the United States; and,

Whereas, Such local laws are also happlicable and insufficient to protect such game birds as, in their migrations, are found in the public waters of the United States, outside the limits and jurisdiction of the several states and territories; and,

Whereas, The absence of uniform and effective laws and regulations in such cases has resulted in the wholesale destruction and the threatened extermination of many valuable spacies of said game birds, which cannot be cractically restored or restocked under state laws applicable in the case of game birds having their permanent habitat within the respective states and territories; therefore, be it Emarted by the Senate and House of Representatives of the United States of America, in Congress assembled:

Section 1. That all wild grees, wild swans.

to be within the custody and protection of the flowerment of the United States, and shall not be destroyed or taken contrary to requisition hereinafter provided for.

Sec. 2. That the Department of Agriculture is hereby authorized to adopt suitable regulations to give effect to the previous section by prescribing and fixing closed seasons, having due regard to the zonce of temperature, breeding habits and times and line of migratory flight, thereby enabling the department to select and designate suitable districts for different perions of the country within which said closed seasons it ahall not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not be lawful to shoot or by any device kill not withdraw from the Pacific Kennel Club accepted Portland as a member than it wrote to Mr. Stewart again, and withdraw, and shall allow a period of three months and considered, before final adoption, permitting, when deemed proper, public hearings thereon, and after final adoption, permitting, when deemed proper, public hearings thereon, and after final adoption to cause same to be engrossed and submitted to the President of the United States for approval.

Provided, however, that nothing berein contained shall be deemed to affect or interfere with the local laws of the states and territories from shacting laws and regulations to promote and render efficient the regulations of the Department of Agriculture provided

Provided, however, that nothing berein contained shall be deemed to affect or in553 and territories for the protection of game localised within their borders, nor to prevent the states and territories from enacting laws and regulations to promote and render of Agriculture provided under this statute.

resulted in a splendid race throughout. Rowell's Venator, who was never better than he is now, had the call in the bet-ting at 2 to 1. Jennings' Letola was next in demand at 12 to 5. When the barrier than he is now, had the call in the betting at 2 to 1. Jennings' Letola was next in demand at 12 to 5. When the barrier was sprung it was to a perfect start, and Misty's Pride and Venator raced out like a team, with Letola right at their heels. No Talk of Correion.

But the very occurrence of this meeting stirred up dog talk generally. It was believed the meeting was held to coerce the recalcitrant Portland club back to the ranks of the Western Kennel League.

ranks of the Western Kennel League.
But if there was any such intention, it was wonderfully well hidden. One thins has come out, however, which has not been known before—both sides of the story of the trouble lately arisen.

Three weeks ago the board of directors of the Portland Kennel Club suddenly withdrew their organization from the Western Kennel League and took their toys over in the back yard of the American Kennel Club. Why this sudden move was made has never been understood even by the body of members in the club. Even now no full explanation is forthcoming. This is what the other side.

Why Gold Leaf is Packed in Bibles. Chicago Chronicle.

Chicago Chronicle.

"James," said the English gold manufacturer, "we are hout of Bibles. Go down-town and buy a dozen."

James in due course returned with the Bibles in a handcart. They were taken from him by three men, their covers were tofn off and the pages were trimmed with aharp knives down to a certain small size. Then these little reduced papers were sewed together into a multitude of small books.

The small books were distributed among the hands, and in them the firm's output of gold leaf was packed

the printed pages are just sufficient to hold the leaf in place firmly. That's why printed pages are used. "We choose among all printed pages Bible ones, for the reason that the Bible is the best printed book a-going. Bible is the best printed book a-going. The type is more evenly set and the printing is finer than in any other work, and we need the best typesetting and printing in our business, you know, for any roughness or unevenness is apt to tear the gold leaf.

"That's why all English gold leaf is packed in Bibles. It's a necessary thing to do, but all the same, I've often wondered that the churches ave never gotten after us gold leaf manufacturers.

### MUST REFORM COMMITTEES.

Small Men Coming to the Top and Big Men Left Out.

OREGONIAN NEWS BUREAU, Washington, Jan. 3.—In the opinion of Republican leaders in the House of Representatives the time has arrived when the committees of that body should be thoroughly overhauled and rearranged. For oughly overhauled and rearranged. For and Washington; 2500.

their control two years longer. In that long period of time, through the retirement or death of various strong and influential men, members of comparative insignificance and little ability now find themselves in line for important chairmanships, in case Speaker Cannon next winter makes promotions purely on the seniority plan. This has all come about through the retention of incompetent men in Congress, and their fortunate appointment to good committees in times past. The most striking instance of small men working their way to the top is in the case of the Committee on Appropriations. When Representative Hemenway goes to the Senate to succeed Vice President-elect Fairbanks, there will be ten Republicans remaining on that committee, not one of them competent to become its chairman. In this particular case the Speaker will be compelled to reorganize the committee, and appoint an outsider as its chairman. And if he takes this step, he will probably take the precaution to appoint a few substantial nembers who will be in line in case another vacancy occurs.

this step, he will probably take the precution to appoint a few substantial members who will be in line in case another vacancy occurs.

Another striking instance is the committee on Rivers and Harbors. If from any cause, Mr. Burton is relieved of that chairmanship not one of the ten remaining Republican members is qualified to succeed him. This committee is also in sore need of reorganization.

There are plenty of good men in the House to fill the important places; men who are now without important chairmanship. For instance, Dulzell of Pennsylvania has no chairmanship; Tawney of Minnesota, the party whip, and a most competent and influential member. Is chairman of the committee on industrial arts and expositions, which is now practically out of work, in view of the attitude taken by Congress in opposition to further exposition appropriations. These two men in particular are deserving of recognition with substantial chairmanships, and it would not be at all surprising if they should receive something at the hands of the Speaker.

The House committees are loaded down with dead wood as they have not been in many years. There are inconsequential members on every committee; men who have a voice but have to be an how of the particular are loaded down with dead wood as they have not been in many years.
