## **BETWEEN TWO FIRES**

Senator Smoot Has Hard Questions to Answer.

## WHICH LAW SHOULD HE OBEY?

Senate Committee Corners Him on Choice Petween Allegiance to the Church and Country-Plural Wife for Insane One.

WASHINGTON, Jan. 21.—Under rigorous examination concerning his belief in Divine revelations, Senator Smoot today, in the investigation before the Senate, Committee on Privileges and Elections, said that if he should receive a revelation from God commanding him to disobey the laws of land he would leave his country and go to some country where the laws of the land were not in conflict with the laws of God. He was asked what he would do if the revelations commanded him to remain in his country and violate the laws, but he would not suppose the case, saying. "The God I worship is not such a God." WASHINGTON, Jan. 21.-Under rigor-

Nearly every member of the Senate committee took part in the examination of Mr. Smoot on the subject of revelations and the witness' views proved highly interesting. He declared that revelations may come to the president of the church that were of binding force, and then only when they have been sustained by the people at one of the regular church con-

ferences.

The examination today covered a variety of subjects, including the belief of the people generally on the subject of polygamy, the character of the teaching at the religious classes and the use of the public schools for the conduct of such classes.

Attracted by the announcement that Mr.

Attracted by the amounteement that air.

Smoot would today continue his testimony, a crowd gathered early today. Several members of the committee who have
not been attending the hearing regularly
were present. Mr. Smoot was still suffering from the attack of indigestion
which was responsible for an early ad-

journment yesterday.

The Senator took the witness stand at 10:20, and before proceeding he made a correction in his testimony concerning the trials of Apostles. He said the quorum of Apostles has the right to depose one of its members, and the 12 Apostles are the only quorum that has that right. Several other minor corrections were made. In carrying out the decisions of the quorum, the Senator said he does not understand that the minority must join with

the majority.

The first time be heard of the plural marriage of Benjamin Cluff, president of the Brigham Young University, said the Senator, was in 1862, when he was told by Jesse Knight. The Senator said he had heard from Mr. Knight that Cluff's new plural wife was the daughter of George Reynolds. Except for the investigation of the subject, looking to the dropping of Cluff from the university presidency, which was explained at the hearing yesterday, the Senstor said he had made no further inquiry. He said Cluff was refurther inquiry. He said Cluft was re-moved a year later and was succeeded by George Brimhall, who, the Senator ad-mitted, was then living with a plural wife. He said be was not present, but would have voted for Brimhall if be had

"Then the rule laid down by you, which would have controlled your vote for Apostle Penrose, a polygamist, would apply to the election of Brimhall?"
"I think the same rule would apply. I do not think I would vote for him for a Federal office. There are some polygamists I would not vote for, and some that I would I would vote for a man like shall for a state office," answered the

"No, I hardly think that."
"Have you any doubt about it? Do you think it was an extenuating circumstance because the first wife was insane?"
"Perhaps I could put it as broad as that. I think it would be."

Attorney Vancott interjected that a man

could not get a divorce in Utah because his wife was insane.

Mr. Smeot was of the opinion that the first Mrs. Brimhall had two children. Mr. Tayler read from a biographical sketch to show that Brimhall had said six children. The witness was under the im-pression that Brimhall did not marry his second wife until after his first wife went to the asylum, but the biography

"Do you believe the church still receives revelations from God?" asked Senator Overman.
"I believe the church can receive reve-

Overman.
"I do not believe it would be superior to the laws of the land." "Then if you got a revelation from heaven yourself, would you have to obey it?"
"I believe if it was from God it would

be compalisory upon me to obey it. But if it was contrary to the laws of the country in which I lived I would move to some other country, where I could obey the laws."

"Do you believe that revelations are ever given?"
"Well, I have heard men teatify so,

but I could not say."
"What is your belief?"
"I believe that God could do such things. did it in former days and could do H

Explaining further the extent to which revelations were lived up to, Scantor Smoot said he remembered a revelation being received for the establishment of the "united order," and that Brigham Young, following out the instructions of that revelation, went from one end of the state to the other preaching the establishment of that order.

"And I know," he concluded, "that it was never attempted nor lived up to by the people, and today is virtually a dead letter."

Benator Dubots asked: "Do you mean to say that if a revela-tion was received by the president of the church and submitted to the church a member could disregard that and main-tain his fellowship and standing in the

church?"
"Oh, yes, I understand so."
Continuing, Senator Smoot referred to

Which Law Would He Obey.

In answer to questions by Mr. Bever-idge, he said that if the law of the church and the law of the lam should come into conflict, then the law of the land is binding. Mr. Dubois asked the witness if he should refuse to obey a revelation of the church, whether he would be able to hold his apostleship. The witness thought he would retain the apostleship, but that he might be regarded as dereiled in his

What priesthood do you hold?" asked Mr. Tayler.
"The Meichtzedech priesthood," answered Mr. Smoot, and continuing, he swered Mr. smoot, and continuing, he say that that priesthood was the highest any person can hold and that he understood that Christ held the same priesthood. There are two priesthoods in the church—the Melchizedech and the Maronic. Mr. Tayler brought out from the witness that, in addition to the presidency of the Provo Woolen Mills, he holds directorships

in a large number of important business interests at Salt Lake.

With Mr. Smoot's cross-examination unfinished, the subcommittee adjourned un-

Count von Euclow's speech, denied that the labor unions were primarily political organizations. These organizations were economic and served the same ends for laborers as do the trusts for the employ-ers. He asserted that the coal syndicate purposely provoked the strike, in order to raise coal prices, just as American trusts initiate strikes to promote certain finan-cial manipulations. The speaker recom-mended the nationalization of the coal industry eventually; not now, because Prussia already owns mines, which treated the workmen worse and manipulated prices more freely than the syndicate.

prices more freely than the syndicate.

Dr. Stoecker made a speech which attracted many expressions of applause and approval from his enemies, the Loyalists. He had procured exact information regarding labor conditions in the mining districts. Chancellor Von Buelow, he said, was mistaken in saying that the strike was due to Socialist agitation. "A thorough inquiry among my friends has not revealed a trace of such agitation," said Dr. Stoecker. "If social peace is to be preserved, sovereignly of the employer be preserved, sovereignty of the employer must give place to constitutional rela-tionship between capital and labor. Kings have had to put up with constitutions; et the trusts do likewise."

"Herr Golhten, Moderate Radical, an old

Herr Moelker, Prussian Minister of Commerce and Industry, summarized the speeches as convincing the mineowners that public opinion was against them and announced that the government was preparing a bill giving corporate rights to labor unious and also a bill to organize so-called labor chambers to represent the interests of labor in legal form. The government, he said, hopes to introduce both bills before the end of the session.

## THE VALUE OF CHARCOAL

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfect-ant purifier in Nature, but few real-ize its value when taken in to the human system for the same vicansing purpose. Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and im-purities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after
amoking, drinking or after eating onions

Charcoal effectually clears and improves the complexion, it whitens the
teeth and further acts as a natural and

eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the polson of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in
