O. R. & N. Co. Advertises Exposition.

ATTRACTS MANY SETTLERS

Attention of Thousands Drawn to Pacific Northwest.

LETTERS FROM MANY STATES

Inquiries Come From Every Section of the United States, and Great Quantities Are Sent Out in Response.

The great work that is being done for the Lewis and Clark Exposition, Oregon and the great Northwest, through the advertising of the railthrough the advertising of the rail-roads, is beginning to be realized. Among the railroads doing this work the O. R. & N. Co. is taking a high rank, as becomes the line which runs from boundary to boundary of the state. Though the advertising of this ratiroad in connection with the Exposition has but commenced, the effect has been far-reaching and much good is

eing done. Every advertisement of the railroad carried an announcement of the Lewis and Clark Centennial. Letters in response to these advertisements are be-ing received at the company's head-quarters by the hundred, and in response literature is being mailed, litera-ture which sets forth not only the scope and idea of the Exposition, but also the resources of Oregon and the Northwest and the opportunities awaiting the settier in this section of the country.

"The Lewis and Clark Centennial Ex-position will work wonders in the way of advertising Oregon and the Pacific Northwest," declared Mr. Rinaldo M. Hall, advertising agent of the Oregon Railroad & Navigation Company, yes-terday afternoon. "Just glance on this pile of letters and inquiries from people who want to know about Oregon and

Letters From Many States.

Piled high on Mr. Hall's desk were otters from one-half of the states in he Union, the majority of the letters making mention of the fact that the writers intend visiting Portland this year, take in the Exposition and look the country over. The mail that reaches Mr. Hall's desk daily is some-thing enormous, and the amount of lit-erature sent out by the Oregon Railrond e Navigation Company in answer to these inquiries is also enormous. Every inquirer, as a rule, asks for the Oregon, Washington and Idaho booklet, which describes to a great extent the reurces of these states.

In the mail Saturday inquiries were received from California, lowa, Penn-sylvania, Nebraska, Kansas, Minnesota, orth Dakota, Arkansas, New York Ontario, Colorado. Ohio, Illineia, South Dakota. New Jersey, Massachusetts, Mississtippi, Indiana, Michigan, Mary-land. Montana and West Virginia.

Many Inquiries From California.

One noticeable thing in reference to the inquiries received is the fact that many of the farmers in the old irri-gated sections of California are eager to learn of the opportunities in Crook County, where thousands of acres of land are being brought under cultivairrigation. During the past inquiries from California have increased nearly 90 per cent.

The letters also appear to come from the better class of people. One man from Indiana writes to know the price of lands for various purposes, stating that he intends to come to Oregon this Summer to attend the Exposition and desires to locate here if he can secure a quarter-section of good land at a reasonable figure. A great many letters are received from the State of New York, one person from that state de-siring to know what counties furnished the greatest resources to the stock-Pennsylvania is another state which sends a great number of in-quiries, many coming from men work-ing in the coal mines and in the great mills of that state, who desire to come West and take up land. There are

I did not go to the St. Louis Expo-ion," writes a man from Ohio, "but I intend to visit the Lewis and Clark Pair, because I can see the country at the same time. I shall settle in Ore-gon if I can possibly make arrange-ments, for I am convinced that no state In the country offers such inducements

Thousands Will Come to Stay. state that the writers are interested in Oregon and desire further information.

"The number of people to visit Oregon next year has been underestimated," said Mr. Hall. "Our hotels and rooming-houses and restaurants will be crowded. And hundreds, perhaps it ould be safe to say thousands, do their share in upbuilding the state."

GREAT NORTHERN AIDS FAIR.

F. I. Whitney Tells of the Advertising

Methods Used by Railroad. P. I. Whitney, of St. Paul, general pas-senger, and ticket agent of the Great Northern, who has been visiting with the traffic men here for the past few days, is a great enthusiast on the subject of the Lewis and Clark Pair, and yesterday spoke of the work being done by his line to advertise the Exposition through the

Lewis and Clark Exposition is meeting in the East." he said. "warrants the belief that it will he a success. The Northern transcontinental rallways, each in its own way and by methods which appeal to each other as the best to obtain results are setting forth its attractions and the opportunities offered by means of the low raies to see what is the actual result of the Lewis and Clark expedition. The direct Northern has been engaged for years in the work of exploitation, paying special attention to the Pacific Coast States. Its work has been fruitful of results, which is best attested by the increase in population, the advance in values and more especially in farm lands.

"Every new family added to the state increases its material wealth by at least \$500. The Great Northern's method of work is first to advertise in the prominent daily and weekly papers, making it a point to advertise in county paper, and more than that, he reads it. Then we have lecturers in the field with stereopticon with a success the material wealth by at least rule every man takes his county paper, and more than that, he reads it. Then we have lecturers in the field with stereopticon with a success the material wealth by a field the winner. Schoolmate was but a short head behind the winner, and Horatio, coming like a whirlwind, a length behind the place borse. The time, 2:06, is a new Lewis and Clark Exposition is meeting in the East." he said, "warrants the belief

West, or in other words we endeavor to place the West with all its wonderful resources and opportunities before the Eastern man and show him as it can be done in no other way.

'The conditions of life as they actually exist here, and the Lewis and Clark Expection as presented by these views.

exist here, and the Lewis and Clark Ex-position as presented by these views awakens intense interest in your city, and it is worth all that it costs to have this advertising. The presentation of facts verified by the stereopticon to the Eastern man regarding your resources is the most convincing way of telling him that better things await him if he will only take ad-vantage and go where they exist, and to this we add that as advertised, the Expothis we add that, as advertised, the Expo sition will open complete in every detail, which alone will make it notable."

Indoor Baseball at the Armory

Company H, Battery A and Company B Are Tied for First Piace.

A LMOST every Saturday night finds a large crowd of indoor baseball fans at the Armory, where the seven military organizations located in Portland each have a team in the field playing for the annual championship. For the past eight years indoor baseball has been played by the military companies at the Armory, and year by year the interest in this game has been growing until now crowds gather regularly to watch the big ball shoot across the small diamond. At many of the games excitement becomes intense, and the teoting of horns, ringing of bells and yelling of the indoor fans often deafens the players so that the umpire's decision cannot be heard. The game of indoor baseball is similar in most respects to the National ball game, one of the exceptions being that the diamond is much smaller. There are two shortstops, one on each side of the pitcher, who stands almost against the batter, and only two fielders are used. The Armory is the best building in the city for the game, owing to the extending the control of the game. this game has been growing until now city for the game, owing to the exten-sive floor space it affords, and the high-ness of its ceiling, allowing plenty of room for a fly ball to end its course.

On many occasions the players "dis-pute" the two umpires on decisions which both sides claim they deserve, and many times trouble is prevented by the um-pires making a joint decision of a play, which both sides accept cheerfully. So far, six games have been played out of 21 on the schedule. The tournament

could be brought to an end much quicke

could be brought to an end much quicker if games could be played on other nights besides Saturdays, but on account of drilling this cannot be done. When battallon drills commence, in about two weeks, there will be a game about two weeks, there will be a game every other Tuesday evening, and the last game w... be played on April 8. It now looks as if the championship would be played oif between Battery A and Companies B and H, as in last sea-

and Companies B and H, as in last sea-son's finish. Last year Company H won the silver cup, and its members declare they will have the pennant waving in their company quarters after the last game this year. But this remains to be seen, for the battery boys are out to win, and Company F players, although they have lost one game, assert that they are not out of the race. Company B has won the only game on its list that has been played. Last year B was in the race to the end, but in the finals was beaten by both the Battery and H. race to the end, but in the finals was beaten by both the Battery and H.

After the Armory League has completed its series the three teams having the highest percentage will enter the City League, which will probably be entered by the Zeniths, from the Marshall-Wells Hardware Company; Y. M. C. A., Multnomah Club and Ringlers. The Zeniths and Ringlers are new teams, in the game, and both are considered strong competitors by the military companies.

titors by the military companies Arrangements will be made in the near Arrangements will be made in the hear future to perfect the organization of the City League. A heard of directors will be composed of one member from each team entering the league, and a president will be elected who has no active con-

nection with any team.

The remainder of the Armory League schedule is as follows: Saturday, Febru-ary 4, B and K; Wednesday, February 3, F and K; Saturday, February 11, B and E: Saturday, February 18, Battery and C. E; Saturday, February II, Battery and C; Tuesday, February II, F and H; Saturday, February IS, E and F; Saturday, March 4. Battery and K; Wednesday, March I. E and H; Saturday, March II. B and F; Saturday, March II, Battery and B; Tues-day, March II, F and C; Saturday, March IS, E and K; Monday, March IS, Battery and H; Saturday, April I, C and E; Satand H; Saturday, April 1, urday, April 8, B and H.

LORETTA M. AN EASY WINNER.

California Oaks Proves Uninteresting, Developing No Great Horse.

SAN FRANCISCO, Jan. 28.—The time-honored Oaks, as in the past, failed to bring out any high-class fillies. Five responded to the bugle-call and Tichenor's filly ruled a pronounced favorite at 12 to 20. Lady Goodrich had many friends and her price was steady at 3 to 1. Sea Air. at 7 to 1, and Morito were friendless. They were not long at the post, and Loretta M. took the track, winning all the way numbers of letters asking about rates by a length and a half. Del Carina, who to Portland next Summer. could not raise a gallop in her recent races, performed an acrobatic feat by pressing the winner, getting second place. Lady Goodrich had to be content with third money from Sea Air. The latter, af-ter racing out with the winner to the half-pole, was in distress. Weather fine. track heavy. Summary:

MAKE COLLEGES UNIVERSAL.

played Friday evening at the Boys' Bri-gade, Fourth and Burnside streets, be-tween the Third Portland Boys' Brigade and the Y. M. C. A. Mascots, the Boys' Kaiser Plans Exchange of German and American Professors.

RERLIN Jan. 28.-Emperor William has directed the Ambassador to the United States, Baron Speck von Sternberg, to lay before President Roosevelt in official lay before President Hooseveit in official form the suggestion for an exchange of professors between Germany and America that the Emperor mentioned to Ambassador Tower on New Year's day. The Ambassador, who salled on the Kaiser Wilheim³der Grosse January 25, only carries an outline of the project which the President will be asked to approve and concerne in making a workable plan. NEW YORK, Jan. 28.-Evan Thomas, Exchange, was killed today by accident ally falling from a fourth-floor window of his apartment in West Ninth street. perate in making a workable plan.

The Emperor has invited several German professors to present him with their ideas on the subject. Professor Adolph Harnack, one of those invited, writes in Trask has been a member of the Stock great scholars of the Middle Ages were not tied fast to any one country. They lectured at Naples, Boulogne, Paris, Cologne and Oxford, and their students foi-

BALLSTON, N. Y., Jan. 28.—Charles H. Cady, a well-known metallurgist and from mining expert, died here today of Detable, disease, and 65. Professor Harnack explains the advan-iage to students of spending a part of their period of study abroad. An ex-change of students, he adds, necessarily suggests an exchange of professors. Only a few students can now have the advan-ture of study abroad but larger numbers. NEW YORK, Jan. 28.—In the Bowery loday, while attempting to protect his mother from the insults of a man who had accessed her on the street, 15-year-NEW YORK, Jan. 28.—In the Bowery today, while attempting to protect his mother from the insults of a man who had accosted her on the street, 19-year-old Richard Lewis was stabbed and dangerously wounded. John McKeen, who went to Lewis' assistance, also was stabbed twice in the side, but his injuries are not serious. Both of the injuried men and Mrs. Howard, Lewis' mother, have identified as the assailant a man now under arrest, who declared himself to the police as Michael Tokmee, a labore, 25 years old. and Nansen, the explorer, as having lee tured in Berlin. Professor Mueller. sayr, came to StrasSurg to give lectures while retaining his Oxford professorship, and he adds that Professor Gregory, of Leipsic, is American by birth and a pro-fessor at a German university, and has given a course of lectures in America. The simplest means to inaugurate professional interchange, according to Professor Harnack, is to invite distinguished professors from abroad to give courses of four to eight lectures. But this is not enough. The best thing, if it can be done, KANSAS CITY, Mo., Jan. 28 .- Fire early today destroyed the three-story building in Wyandotte street, occupied by the Burd & Fletcher Printing Company and Buttles, Lebeau & Buttles, engravers. Loss \$160,000. Three fire-

WEATHER CONDITIONS.

WEATHER CONDITIONS.

Quiet weather prevails in the Pacific States, and no rain or snow of consequence has occurred during the last 12 hours. It is slightly cooler in Oregon, Washington and Idaho, while in California, Nevada and Utah the temperature has remained nearly estationary. The indications are for partly cloudy to cloudy weather in this district Sunday, with probably occasional light rain west of the probably occasional light rain west of the Cascade Mountains. It will be cooler in Southeastern Idaho.

WEATHER FORECASTS Forecasts made in Portland at 8 P. M. 28 hours ending at midnight, January 29; Portland and vicinity-Probably occasions light rain; variable winds, mostly southerly. Western Oregon and Western Washington Occasional light rain; winds mostly southerly Bastern Oregon, Eastern Washington an Northern Idaho-Pair; cooler east portion.

I was terribly afflicted with Rheums-tism for eighteen months, and during my sickness tried the skill of many good physicians, all of whom pronounced my

ferent times 52 prescriptions suggested by friends, none of them giving me any relief. I finally decided to include S. S. S., and took the first dose while hobbling about on crutches. After taking two bottles I found so much relief I was able to relinquish the use of one crutch, and a faithful continuance of the medicine which the second of the medicine. a faithful continuance of the medicine relieved me of the other crutch, and shortly afterwards enabled me to go to my work. I have had no return of Rheumatism, although this was five years ago. 2135 N. Senate Ave.

Fiery linime...is, drawing plasters and penetrating oils never cured a case of Rheumatism; because it is not a local or skin disease, but a disease of the blood caused by a sour, acid condition of that vital fluid. The kidneys and powels get weak, the liver torpid, and the poisonous accumulations that should pass off through the usual channels of nature are absorbed by the blood and distributed into the muscles, joints and nerves through the circulation, producing inflammation and swelling of these parts, excitement of the nerves and other painful and disagreeable symptoms of the disease. Rheumatism sufferers look with dread upon the winter season with its damp, cold, changing weather, for the first slight exposure is liable to bring on an attack, and the sharp, cutting pains and feverish, swollen joints and muscles make life miserable with almost unbearable torture. Local applications will

ease by arousing to proper action all the sluggish organs and going into the blood, driving out all the acid and poisonous matter, renewing and strengthening it, and toning up the entire system by its fine tonic effect. It contains no Potpurifier. Our special book on Rheumatism will be mailed free to all who write, and our physicians will give medical advice to all sufferers, without charge.

DIRT FOR SALE, 17TH AND COUCH. A LOVELY ROOM WITH ALL CONVENI-

RHEUMATISM

Several years ago I was afflicted with what the doctors called Sciatic Rheumatism, or Lumbago, suffering the most intense agony at times, and being confined to my bed about a year, although four of the best physicians (one of whom was my father) attended me during my illness. They could give me only temporary relief, and I think they tried about all the remedies known to medical science, dosing me with strong medicine until my stomach got into such a condition that I could digest nothing, and neither myself nor my friends had any hope of my recovery. I was persuaded to try S. S. S., and before finishing the first bottle I found that I had the right remedy. I continued to take it until it cured me perfectly. This was about nine years ago, and I have been in splendid health ever since.

Murfreesboro, Tenn.
